President Mitchell Files Statistics with Recorder of Commission.

TOUR OF INVESTIGATION CONTINUED

Arbitrators Arrive in Lehigh Valley and Will Examine Conditions in that Section of the Anthracite Coal Region.

HAZLETON, Pa., Nov. 3.—The anthracite strike commission spent the entire day in the Lehigh Valley visiting one mine and several of the mining villages. While most of the commissioners were looking over the territory, Recorder Wright was kept busy on the train attending to the correspondence of the commission. Among the matters to be considered are the dealing to all the coal companies involved in a copy of President Mitchell's statement of the miners' case, which was filed with the commission on Sunday night before its departure for Scranton.

Explains Continued Strike.

The commission's first stop was at Upper Lehigh, where A. C. Leisenring, superintendent of the Upper Lehigh Coal company, took the arbitrators to a drive through the town. While there the arbitrators visited one of the homes of the miners, the first they have been in since they have been touring the region. Drifton was the next place visited, and there a crowd gathered on the street to see the strike breakers. One of the miners, who was employed at these mines are still on strike because the company, insists upon them returning to work as individuals and not in a body.

Ohio.

COLUMBUS, O., Nov. 3.—The democratic managers still persist that there may be a surprise in the vote on the state ticket and that they will gain three congressmen, surely two. The present Ohio delegation consists of seven republicans and four democrats. Chairman Dick said he expected a gain of one in the Thirteenth district. There are others at the republican headquarters who predict the plurality of Laylin for secretary of state will approach 100,000. The republicans offer bets at odds which were never heard of in Ohio heretofore. Although the talk of the campaign has been about Johnson succeeding Hanna, no bets have been made on Johnson as Hanna's successor.

Pennsylvania.

PHILADELPHIA, Pa., Nov. 3.—Senator Quay, chairman of the republican state committee, tonight issued a statement, in which he gives his estimate by counties on the vote for governor tomorrow. The statement shows a plurality for Pennypacker (republican) of 165,435. Philadelphia's plurality for Pennypacker is placed at 105,000 and that of Allegheny county (Pittsburgh) is placed at 25,000. The senator codes but one of the thirty-two congressional districts to the democrats, and claims that the republicans will have two-thirds majority in both branches of the legislature.

Democratic State Chairman Creasy said

the Fattison (democratic for governor) would have 40,000 plurality and that the next legislature would be anti-Pennose for United States senator.

Massachusetts.

BOSTON, Nov. 3.—Should the Indian summer continue it is believed the total vote will run well above 300,000. Republicans are exceedingly confident and the democrats hopeful. The former claim the state by 25,000, which the latter believe they will elect their candidate for governor by 5,000. The present congressional delegation stands ten republicans and three democrats, but this year Massachusetts gain a congressman on redistribution. Under the new apportionment the republicans assert twelve of the party candidates will win, while the democrats claim at least six.

The uncertain element is the strength of

the socialist vote. This year a phenomenal increase is looked for.

Indiana.

INDIANAPOLIS, Nov. 3.—On the eve of the election the leaders of both parties are expressing confidence of success. Senators Fairbanks and Beveridge are out with statements claiming the state by from 20,000 to 30,000, and that their party will have a majority in both houses. The coming legislature will select a successor to Senator Fairbanks.

The state chairman of the democrats is

equally confident and said: "The indication points to a sweeping democratic victory. We shall elect a majority of senators and carry the house of representatives. We shall increase our congressional representation."

Washington.

SEATTLE, Nov. 3.—Contrary to expectations, it looks today as if a very heavy vote will be cast throughout the state tomorrow. The democrats practically concede the election of Cushman and Jones to congress.

Montana.

HELENA, Mont., Nov. 3.—Chairman Lindsey of the republican state central committee, predicts the election of Dixon for congress and Holloway for supreme justice by a democratic majority. On the other hand, Chairman Toomey of the democratic committee claims Evans will be elected congressman and Leslie supreme court justice. Both claimants claim the legislature.

Vanderlip Discovers Cure for Periods of Extreme Financial Stringency.

CHARLOTTE, N. C., Nov. 3.—Frank A. Vanderlip, former assistant secretary of the treasury, addressed a large gathering of bankers and business men at the Manufacturers' club here tonight. He spoke on "Credit Currency," and said in part: "I confidently believe we could escape periods of extreme stringency if we would do what other great nations have done, and provide an asset bank currency, properly maintained, but designed so as to permit expansion in times of unusual demand, and then compel contraction as the demand became less urgent."

OUTLAWS FIGHT DEPUTIES

Die While Planning Raid to Release Oklahoma Murder Suspect.

GUTHRIE, Okl., Nov. 3.—Bert Casey and Jim Sims were shot and killed near Glen Springs, in Woods county, today. They put up a strong fight, firing several volleys, but none of the deputies who had surrounded them were hit. Two deputies in disguise had secured the confidence of the outlaws, and being with them at the time gave the signal to their fellow officers. Casey and Sims were planning the release of George Moore, another of their number, now on trial at Lawson for murder.

NOW FOR THE VOTE

(Continued from First Page.)

Omaha from St. Louis. It is not known under what names they registered, but the men are being watched and when they offer to vote they will be arrested, as the strike apparently, to find money among those descriptions of the men, so that they may be identified at any voting place.

The talent last night seemed to have fusion leanings. The men who felt sympathy with the unionists were found in all places. At one place \$1,000 in sums of \$100 each or a whole, was offered, even upon the election of either Hitchcock or Thompson. Fifty dollars was offered on the proposition that Hitchcock and Thompson should be elected. Fifty dollars was offered that Hitchcock would carry South Omaha by 500 majority.

Not one offer of money was posted and none could be found where men congregated to discuss the situation.

Sheriff Powers stands pat on his original promise to safeguard the ballot boxes as to what extreme the Mercer railroad gang may resort. He will go in person to East Omaha, taking with him Deputies Sherry and Neve, and papers with which to readily deputize as many men as may be needed. Deputy Roach goes to South Omaha in the district and 500 was offered that Hitchcock would carry South Omaha by 500 majority.

MERCER AND CADET TAYLOR

How Dave Turned a Deaf Ear to the Numerous Victims of Taylor's Wrecked Bank.

OMAHA, Nov. 3, 1902.—To the Editor of The Bee: I see by the papers, and have been told personally, that David H. Mercer pretends that he tried in all ways possible to defeat the confirmation by the United States senate of Cadet Taylor, the treasurer of the Globe Savings bank, as surveyor of the port of Omaha—a job worth at least \$5,000 a year to an honest man, and I hardly know or can even guess its value to a man of his peculiar activities. When Taylor was appointed, Mercer, who had old soldiers, working women, laboring men, school teachers, ministers of the gospel and all classes at the news of the appointment of a man whom they firmly believed had robbed many of them of their last dollar, indignantly demanded that Mercer, our non-resident congressman, and the senate committee to which the appointment had been referred.

I had a client, a poor, hardworking laboring man with a large family depending on him, who had been inveigled into placing in the Globe bank his last cent, the money he had saved to buy himself and family a home with in Omaha. Mr. Weckerly and others came to me and made affidavits as to the manner in which they had been victimized and asked me to forward them to Mercer, which I did. I know of many others who wrote him also and sent proof of being swindled through Cadet Taylor, yet sometime afterward when I met Senator Mercer, chairman of the committee which reported on the confirmation, Mr. Mercer, had come before his committee and asserted that there was no more honest or upright man in Omaha or the United States than Cadet Taylor and that he had received no letters or telegrams from his constituents except those asking him to use his influence to have Taylor confirmed. Senator Nelson told me Cadet Taylor would not have been confirmed if our Dave had said the word.

Although Taylor had received \$1,000 or \$5,000 from the United States, I have failed to see or hear where he has paid back one cent to the poor laboring men and women victimized in his bank, although I hear from good authority that he has given a liberal donation to the campaign fund to help send Mercer back to congress. I hope this will remind our citizens of Mercer's connection with this outrage. I am, yours very truly, JULIUS S. COOLEY.

NATION HAS LARGE SURPLUS

(Continued from First Page.)

gradually made as the supply of the yellow metal takes on greater proportions. The demands of the people for notes of small denominations have surprised the closest students of the currency. In 1899 there were \$7,065,880 pieces of government paper of the average value of \$6.61. In 1902 the issue was 116,697,874 and the average value \$4.

The currency distributed from Washington to the territories and banks amounted to \$27,318,885, against \$319,912-194 in the year preceding.

The act of March, 1900, makes it the duty of the treasury to maintain the parity value of all forms of money issued by the United States with the gold standard defined and fixed by that law, says the report, and all kinds of government money are now exchangeable with each other.

Silver Coin Also Wanted.

The inflow of gold, permitting the free issue of gold certificates of \$20 and upward is the key to the maintenance of parity. On the other hand, small denominations, including silver coin, are constantly in demand for the myriad transactions of retail trade and the treasury in recent years has heard much more clamor for silver and small notes than for gold for every kind of money for its own obligations for redemption and legitimate transfers.

"Government paper currency is gaining in simplicity. Gradually all large denominations are becoming gold certificates and the smallest silver certificates." There was a net increase of 368 banks.

HILL CLIMBING.

Food That Makes it a Pleasure.

"I have a large amount of laborious, brain-fatiguing work to do," writes a young lady from Richmond, Va. "After returning from my work, my muscles are completely exhausted that I was unable to engage in any recreation or amusement. I tried several expensive tonics without effect, finally noticing an advertisement of Grape-Nuts as a food recommended to brain workers, I purchased a package and tried it. I found it extremely palatable, and after a week's use (two meals of it a day) I noticed a general improvement in my condition, the feeling of extreme exhaustion was growing less, and strength visibly increased."

I began to put on flesh and felt ready to enter into the amusements of the other members of the family, and now, after using the food for eleven months, I am like a new person. I have absolutely no sensation of fatigue; my brain is clear; eyes bright; skin rosy and healthy; and my muscles are strengthened to a marked degree. I am now able to walk from the office home, a distance of 3 1/2 miles, up one of the steepest hills for which our city is famous, and to engage in any amusements that may come in my way, without any sensation of extra fatigue."

FIRE RECORD.

Almost unaccounted by Smoke.

HASTINGS, Neb., Nov. 3.—(Special Telegram)—Fire completely destroyed Allen Stanner's home last afternoon. In endeavoring to remove the household goods Mr. Stanner was almost suffocated with smoke. The damage amounts to nearly \$1,000. It was partly insured.

Berthney Cases Continued.

ST. LOUIS, Mo., Nov. 3.—The cases against St. Louis, Berthney, Louis Decker, John H. St. Louis, and others, were continued today. Edmund Bersch, John H. Schnettler and others were also on duty. The members of the house of delegates, accused of bribery, came up today and all were continued to November 13.

REPUBLICAN YEAR IN HILLS

Committee Claims Not a Democrat Will Win in that Section of Dakota.

LEAD, S. D., Nov. 3.—(Special)

Estimates at republican headquarters, give the head of the republican ticket in this Lawrence county, from 1,600 to 1,700 majority, and place the balance of the ticket at from 1,000 to 800 majority. In Fall River county the majority for the republican ticket will be about 500; the congressional ticket will get almost a solid vote; in Meade county part of the democratic ticket stands a chance of winning out, as there are still a great many populists left in that county. Pennington county is strongly republican and will return a good majority for the ticket. Custer county will give about 400 majority for the county candidates, while the congressional ticket, Martin and Burke, will carry it almost solidly. Butte county will give about 250 republican majority.

CATTLE THIEVES ARE BOLD

Steal Thirteen Head of Fat Steers from Railroad Stock Yards at Yankton.

YANKTON, S. D., Nov. 3.—(Special Telegram)—One of the boldest cases of cattle rustling in twenty-five years occurred here Sunday morning. Thirteen fat cattle, the property of Axel Keyes, were stolen from the Northwestern yards in this city. The steers were the pick of a large herd. When the loss was discovered it was at first thought they had broken out and wandered away, but today it was ascertained that they were driven across the pontoon into Nebraska and toll was paid on them. The animals were all branded and a good description of the rustlers was obtained. It is most certain that the officers who are after them will overtake them, though they have a good start for the Nebraska hills.

SIOUX FALLS, S. Jones, better known as "Corn" Jones, a wealthy and eccentric pioneer, who died recently at his home in this city, the purpose of the coroner's trip being to have the stomach examined by experts, to discover whether the old man was poisoned by a conspirator, who wished him out of the way. While the suspicions may prove to be unfounded, the knowledge that an investigation of this kind is being made has set the town talking.

DEATH RECORD.

Hon. Joseph Lamaster.

TECUMSEH, Neb., Nov. 3.—(Special Telegram)—After an illness of several weeks, Hon. Joseph E. Lamaster, died in this city this evening, of Bright's disease. Mr. Lamaster has been a very prominent figure in the political and business life of Nebraska. He was born in Canton, Ill., June 1, 1830, and located in Nebraska City in 1858. He went into the newspaper business there and published the Nebraska Press for several years. At that time he was a republican and he was appointed internal revenue collector for Nebraska, a position he held for five years. In the early '70s he was elected to a seat in the state senate and about that time was elected contingent congressman for the state, but was not required to serve. For several years past Mr. Lamaster has been a member of the democratic party, and he has enjoyed political favors at the hands of that party. In 1876 he came to Johnson county and located on a farm north of the city. He was married to Miss Kate Rice in Lewistown, Ill., in 1858. Four children were born to them, two of whom are living, Mrs. W. A. Apperson and Hugh Lamaster of this city. The family home was in Lincoln twelve years ago and Mrs. Lamaster's death occurred at that time. Mr. Lamaster's funeral will be Thursday afternoon at 3 o'clock.

PAINE'S Celery Compound

Makes Permanent Cures in Chronic and Complicated Cases of Rheumatism.

It Gives New Life to Helpless and Crippled Men and Women.

Professor Edward E. Phelps, M. D., LL. D., has given to his profession a positive and permanent cure for all forms of rheumatism from which so many suffer in the autumn season. To the rheumatist this truth should prove encouraging and comforting. Men and women suffering intense agonies from a disease that frequently stiffens the joints, cripples the limbs and renders its victims quite helpless, can be restored to activity, vigor and health, if Paine's Celery Compound is used for a few weeks. There is every reason why sufferers should pin their faith to this best of medicines. Your friends and neighbors have used it with success; the honest physician is prescribing it every day in cases where all other means have failed, and they are delighted with the happy results. Why hesitate, or doubt the powers, virtues and efficacy of the medicine that is curing thousands today? It is your only hope; your safety and life depend upon its use. Lizzie Pierce, Police Town, once healthless and in a critical condition from rheumatism, writes thus:

"I had rheumatism so bad that I could not walk, and could not bear to have my legs moved; I often thought the disease would kill me. I commenced taking Paine's Celery Compound, I used two bottles and have not had the slightest symptom of rheumatism since. I wish I could tell the whole world the good your medicine has done me. My mother, who had rheumatism for years, was cured by Paine's Celery Compound after using a few bottles. She can run now like a child and says she feels ten years younger. I could tell you of a dozen or more people who were cured by Paine's Celery Compound."
