PLEA FOR THE EARLY VOTER

Republican Committee Asks that All Who Can Cast Ballots Early.

IS A GREAT AID TO THE COMMITTEEMEN

Men Not in City on Registration Days Can Vote by Applying Today to the Precinct Registration Boards. The polls will be open today from 7 a. m. to 7 p. m. Chairman Wright of the republican county central committee is anxious that all republicans cast their votes as early as possible. He says he sees no reason why the greater part of the republican vote cannot be cast before noon. Every effort will be made to get out the full party vote and Chairman Wright asks that every voter cast his ballot before going to his work or his office in the morning. By the voters casting their ballots early they will greatly lessen the work of the precinct committeemen and materially add to the success of the party at the polls today. Any voter who was not in the city during the three days appointed for registration will be enabled to get his name on the books today by making the necessary showing to the registration board of the precinct in which he resides. The voting places in the several precincts of the city are as follows: First Ward—First precinct: 25 East Broadway. Second precinct: 25 West Broadway. Second precinct: 25 West Broadway. Third Ward—First precinct: 25 West Broadway. Second precinct: 1015 South Main street. Fourth Ward—First precinct: 36 South Main street. Second precinct: 612 Twelfth avenue. Fifth Ward—First precinct: County building, corner of Fifth and Twelfth streets. Second precinct: County building, 1511 South Twelfth street. Sixth Ward—First precinct: County building, corner of Avenue B and Twelfth street. Second precinct: Corner of Fifth and Locust streets.

MAKE CHARGES OF FRAUD

Former Street Supervisor Taylor Accused of Manipulation of Poll Tax Money.

The long expected report of Aldermen Tinley and Huber, the committee appointed to investigate the books and accounts of former Street Supervisor Taylor, made its appearance at the meeting of the city council last night and the charges made by the committee created quite a sensation. The report was as follows: The committee to whom was referred for investigation the report of G. C. Taylor as street supervisor of this city, respectively report as follows: That the time book and the records of the supervisors during the term of office are in such condition that it is very difficult to determine what was expended, the number of men employed for the city or the time for which the men were employed. That no satisfactory vouchers were taken from men employed upon the streets working on the city. We find upon investigation that poll tax was collected from the following named citizens: C. W. Bowers, H. W. Wessner, H. A. Quinn, Mr. Harrington, residing at 1004 North Avenue; Dr. Meiner, E. W. Loomis, Oscar Keelie, H. Schickel, Mr. Herlick and Peter Madson, the amount of \$1000.00 was paid in order to have their poll tax worked out upon the streets, and that Mr. Taylor, street supervisor, had no receipt for that no labor was performed upon the streets on account thereof. From our investigation we are satisfied that there were several men who are liable for poll tax and who presented them to Mr. Taylor, the street supervisor, and obtained from him and his clerks vouchers without performing any labor, and that they thereupon collected from the persons liable for the poll tax and that the amount of labor was defrauded out of a large amount of labor upon the streets by this procedure. We recommend that the street supervisor be delivered to the police and that he be retained until the convening of the next city council and we believe we will be able to furnish the names of the men who are liable for the poll tax, and that in different ways the city was defrauded out of a large amount of money. M. H. TIBBLE, G. H. HUBER.

REPPED WITH HIS OWN GUN

Burglar Takes Revolver from Under Pillow and Compels Iowa Man to Disgorge.

CLINTON, Ia., Nov. 3.—Last night a burglar entered C. A. Fay's house, took a pistol from under his head, struck a match, lighted the gas, covered Fay and his wife with the gun and compelled them to give up money and diamonds valued at \$1,300. The robber was cool and joked with his victims.

Settle Church for a Barn.

ELDORA, Ia., Nov. 3.—(Special.)—A most peculiar transaction in connection with the selling of a church four miles east of this city, belonging to the Cumberland Presbyterian society, has just been discovered by an agent of the society sent out to investigate the condition of the church here. The church building was one of the best and most substantial country churches in the county. It appears that for the past few years the members of the church have not been very harmonious and for some months no regular service had been held in the church. Something like a year ago one Bohm, representing himself to be a bible missionary of the American Bible society, spent several months in this county selling his wares and doing some preaching. Shortly before leaving the county he sold the church building. The next day some ten or a dozen men with teams were on hand and tore down the building and hauled the timber and pews away. Great was the indignation of the members of the church when it was learned that their handsome building had been torn down and sold to a German farmer and by him made into a barn. It appears that not a single member of the church had any knowledge of the transaction. An effort is now being made to locate Mr. Bohm. The sequel to this audacious piece of grand larceny will be looked for by a large circle of interested members.

Hotel Fire Causes Panic.

SIoux CITY, Ia., Nov. 3.—(Special Telegram.)—Fire in the Hotel Garretson, the leading hotel of the city, caused a panic among the guests here tonight. The fire broke out in the laundry chute in the rear of the hotel and immediately shot up to the top of the building. John Carter, a cook, opened a door leading to the chute from the kitchen and had his face badly burned. The lights went out all over the hotel and the panic-stricken guests fled from their rooms and from the dining room. The actual damage to the building will not be over \$400. Carter, the cook, whose face was burned, was painfully, but not seriously, injured.

Annual Episcopal Convention.

FALLS CITY, Neb., Nov. 3.—(Special.)—The annual convention of the Episcopal church of the diocese of Nebraska will be held in this city from November 4 to 7. About thirty clergymen from throughout the state are expected to be in attendance.

proved and work on its construction will be begun at once. The mission will be located on Eighteenth avenue, between Ninth and Tenth streets. As soon as the mission building is completed regular church services will be held, together with a Sunday school. Arrangements will be made to have these services conducted by students from the Presbyterian theological seminary of Omaha. A Sunday school has been conducted by the Presbyterians in that part of the city for several years, but it has never had a permanent home. The establishment of this mission is in line with the recent action of the general synod in declaring in favor of Iowa churches conducting and supporting the state missions direct.

Booming an Oil Road.

Hon. George F. Wright returned yesterday morning from California, where he has been since last May in the interest of the Midland Pacific Railway company, which proposes constructing a line about 150 miles in length from Bakersfield, in Kern county, California, to the Pacific coast at a point near Fort Ord. The purpose of the road is to secure means of conveying the oil product of that section of California to the coast at a rate which will insure the producer some profit. During the time he was in California Mr. Wright has been engaged in securing the right of way for this projected railroad for which the line has been surveyed and the estimates made. The projected road has now been bonded for \$20,000 a mile and the parties interested are now in New York floating the bonds and have so far met with the best of encouragement. As soon as the bonds are floated work will be begun. Mr. Wright says that Kern county, California, can produce more oil than any section in the United States, Texas not excepted. The company which Mr. Wright represents has made contracts with the oil producers of that section of California under which they have agreed to ship 5,000 barrels a day for ten years, the rate of transportation to the coast not to exceed 15 cents a barrel. By this contract the producers, Mr. Wright says, will save 20 cents a barrel and thus insure a profit. Mr. Wright says that he also succeeded in making a very profitable contract with the Rothschilds for the handling of a large portion of the oil output of that section of the country.

MONEY GONE FROM PACKAGE

Two Thousand Dollars Disappear While in Transit by Express.

DES MOINES, Ia., Nov. 3.—Officers of the Des Moines National bank made public today the loss of \$2,000 shipped by the American Express to the Bank of Irwin, Ia., on October 20. When the package was opened at Irwin the next day it contained brown paper. One seal had been removed from the package without breaking it and replaced by the use of mullage after the package had been closed again. It is claimed the mullage was still soft when the package was opened, thus indicating that the contents of the package had not been removed many hours.

Oppose a Truant School.

The school board of East Des Moines, having determined that it was necessary to establish a truant school under the new law for compulsory education, located said school in the building designed for a primary department recently finished on East Fourteenth street. As soon as it became known to the prospective patrons of this school that it was to be made into a truant school, rather than a room was to be set apart in the building for truant for the entire East Des Moines district, there were loud protests and the patrons have signed a plea petition to the school board to have the plans changed. A meeting was held and a committee appointed, which will wait on the school board and ask that instead of having the truant school in one of the public school buildings the board rent a room especially for this purpose. It is the first attempt of any school board in the state to establish a truant school.

WEBSTER CITY, Ia., Nov. 3.—(Special.)—Ed Bentley of this city pulled a small box containing about eighty rattlesnakes from the Boone river. The box was floating down the river and was pulled in by Bentley merely through curiosity. The loathsome find was made near the old Chase mill. Bentley was fishing at the time. He noticed a small box coming down the river and as it came near to where he was he simply pulled it ashore and was frightened to find it packed tightly with slimy snakes. The box was about a foot and a half or two feet square, and on one side was covered with a closely woven screen. The eighty snakes were packed within this small space. Some were dead and some were alive; some large and some small. Among the lot were also some "Kentucky whips." The largest rattler was alive and was between five and six feet long. Among the find were a large number of "baby" snakes. All were killed. The box was probably a consignment to some snake show which had been lost or misplaced somewhere. As to how it came to be in the river, however, is a mystery. The snakes which were dead had probably died from starvation. The rattlers were fierce and vicious from their long fast. Several of them were exceedingly large and fine specimens of their variety. Remorse Ends in Prison. IOWA FALLS, Ia., Nov. 3.—(Special.)—Ed Shafer of this city has pleaded guilty to the indictment of grand larceny returned last week by the grand jury. Judge Whitaker sentenced him to one year in the penitentiary. The young man was arrested in August charged with stealing a \$50 bill and some clothing from his employer, who resides west of the city. On his preliminary hearing he admitted taking the money, his excuse being that he wanted to get married and needed the money for the expenses of the event, hoping later to reimburse his employer.
