

FIREWORKS KILL AND WOUND

Trifling Explosion Occurs in Madison Square Garden, New York.

TWELVE PEOPLE INSTANTLY KILLED

Seventy-four Are Horribly Mangled, Many of Them Losing Arms and Legs in the Catastrophe.

NEW YORK, Nov. 5.—With a list of twelve people killed and seventy-four injured before him, Coroner Schuler has inaugurated an investigation of the explosion of fireworks in Madison square last evening.

Eight men already have been locked up charged with criminal negligence and the coroner has issued a warrant for the arrest of John Dimundo of Coney Island, who is alleged to have been in charge of the fireworks.

"It is a case of absolute criminal neglect," said the coroner.

"One of the mortars was set off and it was pointed at a row of other mortars in a line. There was a defect in the bottom of the mortar and it leaned toward the others, which were set off by the fire ball thrown toward them."

District Attorney Jerome, who was at the Union club in Fifth avenue, not far from the scene of the explosion, hurried to the scene, and after an investigation obtained the arrest of the men in charge of the fireworks.

He had the prisoners taken to police headquarters, together with the unexploded fireworks. Inspector Brooks of the police department also ordered the arrest of the manufacturer of the bombs, but he has not yet been found.

The district attorney said: "Dynamite bombs should not be allowed in such a public place, have no doubt that a permit had been issued for the exhibition, but a rigid investigation will be made. Steps will be taken to prevent anything like this occurring in the future."

List of the Dead.

A revised list of the dead follows: PATROLMAN DENNIS SHEA of the Brooklyn Bridge square.

WILLIAM G. FENNEY, 12 years old, nephew of Major W. H. Buck, of this city. HAROLD ROBLES, 12 years old, son of Milton Robles, proprietor of the Bartholdi Hotel.

DANIEL BINGLEY, 13 years old. JOSEPH ABER, 21 years of age. Five unidentified white men and two unidentified colored men.

The scenes at the hospital and at the morgue following the terrible crash after the explosion in Madison square were beyond description. It is estimated that 50,000 persons were in the square at the time. Probably 20,000 of these were massed around the point where the explosion occurred and while these were scrambling to reach places of safety, knocking one another down and falling over park benches, 30,000 others were cheering from the opposite side of the park, where they were viewing the election returns which were thrown upon a screen before the new sky scraper known as the "Flatiron Building."

Calm Sweeps Over Crowd. The persons in this portion of the park apparently were elated over the returns and supposed the explosions which rent the air were a part of the program and were totally unaware of the tragedy being enacted so near at hand, until a reinforcement of police forced their way through to make room for the passage of the men bearing the mangled remains of their comrade, Patrolman Shea. Instantly a terrible calm swept over the crowd and all interest in the returns immediately disappeared.

When the long line of patrol wagons, ambulances and other vehicles, carrying the dead and injured fled through Twenty-fifth street for Bellevue hospital, thousands lined the walk and gazed awestricken at the conveyances. Five hundred persons gathered outside of the morgue and hundreds came and went during the night seeking, among the unidentified dead relatives and friends whom they had lost during the terrible crash following the explosion.

Hundreds of persons gathered at the hospital gates, among them many women. Scenes at the Hospital. The scenes around Bellevue hospital were the most exciting in the history of the institution.

Nearly the entire force was at work. Sixty-five emergency surgeons and physicians, forty visiting surgeons and physicians and 200 male and female nurses, together with every attendant at the hospital, were summoned for immediate duty. Sixteen of the best known surgeons in the city and 150 extra nurses hurried to the institution to perform operations. Many amputations were found necessary.

At the hospitals the injured were reported as being in a fair way toward recovery, with the exception of Mortimer Butler, who became unconscious after the amputation of one of his legs and is not expected to recover, and Frank Leisten, one of the men engaged in setting off the fireworks. Leisten's right leg was blown off, his chest was badly mangled and his death is probable.

Seven legs of victims of the fireworks explosion were amputated at Bellevue hospital today. Besides the amputations there were dozens of minor operations on hands and feet and for burns. Many of the patients underwent several operations and some lost both hands.

TROUBLE TO GET SUPPLIES. Whalers Experience Great Difficulty in Effort to Trade with People of Caroline Group.

SAN FRANCISCO, Nov. 5.—According to a story brought by Captain Montgomery of the whaling bark Alice Knowles, considerable difficulty is being experienced by the whalers in securing supplies in the Caroline group.

The islands are ruled by a German governor but the trading privileges are leased to a Hamburg company and foreign vessels are, according to Captain Montgomery, welcomed.

Alice Knowles left San Francisco November 21, 1901, and like all of the whaling fleet steered for the South sea. When the Caroline group was reached Captain Montgomery made the request that he be allowed to trade potatoes for a supply of water and firewood.

The request is said to have met a flat refusal. The Yankee skipper declared that he would remain at the islands until a water supply was procured, if he had to stay

there a year, and said he would report the matter to the American government and action would be taken against the German government.

The captain says he was then permitted to take on water but was warned not to come back.

CARRIE NATION IN ACCIDENT. Noted Woman is Badly Bruised in a Wreck on the Lehigh Valley Railroad.

NEW YORK, Nov. 5.—The Black Diamond express of the Lehigh Valley railroad, which left Jersey City westward at 12:12 p. m. today, was wrecked near the Jersey Meadows shop east of Newark about 12:30 p. m. and fifteen people were more or less seriously hurt, one coach and the engine being overturned.

The seriously injured were taken to a hospital. The express ran on a siding and collided with an engine standing there. One of the passengers hurt was Mrs. Carrie Nation of Kansas. Her hand was slightly cut and her arm badly bruised.

Samuel Robinson (colored) of Shelbyville, Ind., was badly bruised, but not dangerously hurt.

MOTORMAN INSTANTLY KILLED. Another Sustains Broken Leg and is Then Arrested on Charge of Homicide.

NEW YORK, Nov. 5.—In a head-on collision between two cars of the Union Railway company at Washington avenue and West Farms road early today John McCabe, motorman of one car, was instantly killed and George Buzzard, motorman of the other car, sustained a broken leg. Buzzard is under arrest, charged with homicide.

There were twelve persons in the west-bound car and seven in the other. They were thrown to the floor and received bruises and suffered from shock. None of them was seriously hurt, however. The collision occurred in a dense fog. It is charged that one of the motormen ran past a switch instead of waiting for the coming car.

GROCCERS WANT A NEW LAW

Will Ask Amendment to Statute Making Exemption of Wages.

GETTING READY TO MOVE ON LEGISLATURE

Local Association Has Bills Prepared and Will Offer Them for Discussion to Parties Interested at Smoker.

At a meeting of the Retail Grocers' association Tuesday night Robert Smith was appointed chairman of the legislative committee and is now preparing a plan to secure the enactment of legislation recommended at the last meeting of the grocers' association. Among the important matters which the retail merchants of the state desire is a law to make impossible the employment of children under the age of 14 years in shops and factories, a law which will result in the shortening of the hours of labor in all branches, a law which will make it possible for merchants to recover from delinquent debtors to goods which they have purchased and failed to pay for when the goods can be identified, a law which will make it incumbent upon merchants to notify all creditors before they dispose of their stocks of goods in bulk, and a modification of the present garnishment laws of the state.

At the state meeting it was recommended that the legislative committee cooperate with the labor organizations in securing these laws, and that when the law affecting the garnishment of wages be prepared it be drawn to meet the desires of the laboring people of the state. The merchants allege that they do not desire a law which can be made to work a hardship upon any wage earner who is honest, but that they desire a law which will permit them to collect their just dues from those who will not pay whether they be wage-earners or persons in trade. It has been found difficult to prepare a bill which will prove satisfactory to the merchants and the wage-earners.

Talk of a Smoker. In order to bring about a co-operation between the merchants and the wage-earners on these bills, the chairman of the legislative committee is arranging for a smoker to be held at the Merchants Club rooms some evening this month to which there will be invited all of the grocers, butchers and general merchants of the city, representatives of labor unions and the senate and representatives of Douglas county in the state legislature. Bills covering the desires of the grocers will be presented at this meeting as well as any which the representatives of organized labor may desire. A certain amount of time will be set aside for the discussion of each measure and it may be possible that some of them will be held. After the discussion the bills upon which the merchants and the laboring men agree will be placed in the hands of one of the members of the Douglas county delegation in each case. The bills will be asked to have them enacted into laws.

The grocers took another step Tuesday in the direction of the amalgamation of that society with the butchers' association. A committee of three was authorized to confer with a like committee from the other organization prepare a plan of amalgamation. There are about 100 individuals and firms represented in the butchers' association and about 100 in the grocers' association.

Our Armor for Russian Ships. A cargo of armor plate, enough to complete two first-class battleships, will soon be sent to Russia. This proves that, so far as war ships are concerned, this country leads the world. In medicine, we also hold the supremacy, because it is impossible to make a better remedy than Hostetter's Stomach Bitters to cure headache, belching, flatulency, indigestion, dyspepsia, liver or kidney troubles, or malaria, fever and ague. If you have never tried it, do so today.

PLANS FOR NEW SUPPLY DEPOT. Quartermaster's Department at Government Corral to Have Big Building.

Colonel Pullman yesterday sent to Washington the plans for the new warehouse of the quartermaster's department to be erected at the government corral. The plans show a building of brick and iron construction in irregular form. This form is occasioned by reason of the site, which has been located at the northeast corner of the corral, next to the railroad tracks and where the land forms an obtuse angle. The northeast wall of the main building will be 200 feet long, the opposite wall being 178 feet. At the northern end of the main building will be a wing of the same width, with the western wall eighty-eight feet long. The width of the main building and the wing is sixty feet. Both will be three stories high, with basement. The building will face the grounds of the corral.

The location of the building upon the land gave considerable trouble and several sites were decided upon. The site now chosen. The present site was chosen because of its convenience to the railroad tracks, and the fact that a greater amount of space would be saved by placing it on the edge of the land.

The specifications will probably be prepared from the plans after their approval and the contract may be let during the present year.

Nothing so Good for Coughs and Colds. Mr. J. N. Perkins, Druggist of Lawton, Okla., who has been in business eleven years, says of Chamberlain's Cough Remedy that during all this time he has never had a bottle of this remedy returned as not having given satisfaction, proving conclusively that this preparation will do all that is claimed for it. There is nothing so good as this remedy for coughs, colds and croup. It is pleasant to take and, as it contains no injurious substance, may be given to a child with perfect confidence.

STEAL A SAFE AND CONTENTS. Burglars Carry Off a Saloon Man's Strong Box Because It Was Securely Locked.

Joseph Fedwitz, a saloon keeper at 1202 South Thirtieth street, left his safe locked with a combination Tuesday night and burglars, evidently being unable to open it, stole the safe and its contents and carried it away, leaving behind them for two blocks marks on the pavement where the 600-pound weight had been dragged. With the safe they took a silver machine.

To make their escape the burglars stole a horse from Charles George, 1227 South Thirtieth street, and a wagon belonging to A. Molinsky, 1201 Pierce street. These were found by the police yesterday morning at Eighteenth and Union streets, but no trace of the safe has yet been discovered. The slot machine was found badly damaged in a lumber yard within two blocks of the burglary.

Entrance was gained in the saloon by breaking open the rear door. The burglars entered and after doing a stunt with the various liquor concoctions behind the bar dragged the slot machine and the safe

MISSOURI BANK IS ROBBED

Vault of the Bank of Richards Blown Up with Dynamite and \$1,500 Taken.

RICHARDS, Mo., Nov. 5.—Robbers early today wrecked the vault of the Bank of Richards with dynamite and secured \$1,500, all that it contained.

The front of the building was blown out by the explosion, which brought a number of citizens to the scene. One of the robbers fired three shots into the crowd.

The citizens were unarmed and the robbers escaped without being pursued. Grant Hornaday, president of the First National bank of Fort Scott, Kan., organized the Richards bank six months ago.

If It's a "Sarsaparilla." That's all you need to know about a stove or range.

Publish your legal notices in The Weekly Bee. Telephone 228.

8 lbs.—25c. King Cole Whole Wheat Flour.

GUARDIAN FOR HELEN BROWN. Judge of County Court Appoints N. T. Tunnell as Legal Custodian.

Judge Vinsonhaler yesterday morning conducted a hearing in the county court in the matter of the petition of Dr. Victor Coffman for the appointment of guardian for Helen M. Brown, and determined the case by the appointment of Nelson T. Tunnell as the woman's guardian.

Dr. Coffman has asked the court to appoint E. G. McMillan, but others interested in the woman desired Mr. Tunnell. Mrs. Christie and Tilden testified that the woman was not mentally unbalanced, as had been understood, but that she was suffering from an impediment of speech due to apoplectic trouble.

LIESBEAR GETS FIVE YEARS. Assailant of Little Girl Sentenced to Term in State Penitentiary.

Alfred Liesbear, found guilty of a criminal assault upon Hattie Pickard, aged 12 years, was yesterday morning sentenced to a term of five years in the state penitentiary.

REALTY EXCHANGE ELECTION. C. F. Harrison is Chosen President and A. G. Charlton is New Secretary.

At the meeting of the Real Estate exchange at noon officers were elected as follows: President, C. F. Harrison; vice-president, G. G. Wallace; secretary, A. G. Charlton; treasurer, S. P. Hostwick; executive committee, W. G. Ure, W. H. Shriver and W. H. Gates.

After the election the retiring president, W. H. Green, made a short talk in which he said goodbye to the office, but not to the work. On assuming the chair Mr. Harrison promised to push the work of the exchange along the lines already laid down and paid tribute to the work of Mr. Green and Mr. Shriver in the offices which they have held.

Short talks were made by the other newly elected officers, including the members of the executive committee. On motion of W. L. Selby of a vote of thanks was extended to Mr. Green and Mr. Shriver for their work.

An auditing committee consisting of W. T. Graham, John L. McGee and H. B. Payne was appointed to pass upon the books of the officers and the president was authorized to appoint a committee to inspect the work of the tax commissioner and the Board of Review.
