INSURE AGAINST BURGLARS Nebraska Bankers Taking Out Policies and Increasing the Reward Fund.

Recent bank robberies in the state have awakened interest in a burglary insurance and Secretary Gould of the Nebraska Bankers' association says that he is writing many policies in the company which cooperates with the association.

It is by the growth of affection that those possessing Gorham Silver come to regard it as peculiarly their own. This is due to the recognition, conscious or not, of its inherent worth, beauty of design and admirable workmanship.

CONFESSION SAVES FRIEND

Stewart Knouse Shoulders a Year's Sentence Without Trial to Spare George Alexander.

Prompted perhaps by that honor which is said to exist among thieves, Stewart Knouse has cleared, by confession, George Alexander, who was charged with forgery. Alexander has been released and Knouse was sentenced yesterday morning to a year in the state penitentiary.

A few weeks ago Alexander presented himself at the Nebraska National bank and secured four checks for small amounts signed by Phelan & Johnson, contractors. The firm had no deposit there and the bank teller, growing suspicious, had Alexander arrested. From him the officers learned enough to warrant the arrest of Knouse as a confederate.

A day or two ago Knouse changed front and told Deputy County Attorney Abbott he wished to make a clean breast of the affair and stand the consequences. He related that he had been the one who forged the checks and that Alexander was drunk when persuaded to try to have them cashed, and that he (Alexander), had never known there was anything wrong with them until after his arrest.

SETTLEMENT NOT PROBABLE

Rumor that Union Pacific Officials Had Asked for Conference.

STORY DISCREDITED AT HEADQUARTERS

Attorney Baldwin Says There is No Foundation for Report that Company Seeks Conference with Strike Leaders.

Leaders of the Union Pacific strike yesterday morning announced that a rumor had reached them that the company had requested a conference with the officers of the district lodge of machinists with a view of opening negotiations for a settlement of difficulties.

The rumor is that the company had requested a conference with the officers of the district lodge of machinists with a view of opening negotiations for a settlement of difficulties.

Dented at Headquarters.

President Burt's office was consulted practically with the same results. It is generally denied at headquarters that any such conference with strikers is sought or desired and officials profess to be at a loss to know how these rumors originate.

Committee of the machinists and a conference of the leaders will be held at which plans for the winter's campaign will be discussed. The strikers take the company at its word, that no settlement will be asked. The officials are still maintaining the same indifferent exterior, holding that so far as they are concerned the strike is settled now, but this view is simply laughed at by the strikers, who point to the fact that with 600 or 700 men in its Omaha shops working night and day and Sundays the company is unable to keep up with its work as evidence of insincerity on the company's part.
