Branch to the Forest Lawn Cemetery Will Be Constructed After the Main Line to Florence is Completed.

The Omaha Street Railway company is swaiting a report from the Board of Public Works before beginning work on the line to Florence. The track crew is now sufficiently he took the twelve good men employed on Ames avenue, changing the and true to his bosom for a little heart to rails between Eighteenth and Twentycompleted there the company desires to put them to work on the Ames avenue ex-

Last Saturday the company made application for the permit, but it has not been received. The company has a franchise to lay tracks upon any street of the city, but with the court. A jury may properly rec- by the terms of the contract it must receive formal permission from the city before starting to work. The application is for the use of Twenty-fourth street from Ames avenue to Fort street, Fort street from Twenty-fourth street to Thirtieth street, and Thirtieth street from Fort street to the city limits. The city limits of Omaha extend to the limits of Florence precinct, but it is a mile and a half from those limits to the town of Florence.

Work will be started this fall and all material is on hand, but because of the lateness of the season it is not expected that cars will be running to Florence before pext summer. At the same time the force of men will be employed as long as the weather permits and cars will run as soon as possible, so that with a favorable winter cars may run to Florence early in the spring. The construction of the line from the Florence line to Forest Lawn cemetery will be taken up after the main line is completed, and probably will be in operation within a year.

CHANGE IN NORMAL COURSE Not Satisfactory to Some Members of Omnha Board of Education.

communications on the subject of the course of study recently adopted in the Normal school for students who are graduates of the Omaha High school and one or two other high schools in the state where vention of Sir Howard Grubb, which is said the course of atudy is higher than the average.

As an alternate in case of the refusal of Miss Scott to accept the position Miss Hulda Isaacson. a teacher at the Long school, was chosen. The position carries with it no advance in salary over the grades, but it puts the teacher-to line of promotion as principal.

OTHER LANDS THAN OURS.

The British naval authorities, although

they are not building a great fleet of submarines, are experimenting very carefully with those they have, and are said to have reached some important conclusions. After prolonged experiments with several of the boats in the Irish sea, it has been determined that a number of alterations and modifications are necessary. They do not appear to have maneuvered under water for more than an hour at a time, but a good deal of mystery is observed about their work. The fastest of them can go twelve knots with its turret awash and eight knots under water. Its gasolene motor will drive it 400 knots without replenishment. carries a crew of seven men, volunteers. all of whom have been sworn to secrecy, its armament consists of four 18-inch Whitehead torpedoes, which can be discharged The teachers' committee of the Omaha from almost any position. A new type of Board of Education and the manager of the submarine, 100 feet long and capable of Normal school at Peru are exchanging making fifteen knots on the surface and ten some citizen makes a complaint to a police below, has just been completed, and of this great things are expected. Among other improvements it is provided with a new "eye," called the "cleptoscope." the into give much wider range of vision than the periscope.

It is said that the committee appointed smaller vessels. It is expected, however submitted to the Cortes. This includes the construction of ten battleships of 13,000 six torpedo boat destroyers of 240 tons. thirty-two torpedo boats of 130 tons, and 300 tons for the protection of the coasts, steam and sail, for cadets, and three sail- to Greece in 1864 it was specifically proing ships for training quartermasters and vided that the cemeteries would remain men.
