Another Wildest in Sight. Frank Pravenek of West Point sent to Auditor Weston today a \$600 insurance policy issued by the Great Britain Insurance Accompanying it was a letter saying he had paid \$6 premium thereon, but had lately found out that the auditor had compelled the agent at West Point to cease doing business because the concern belonged to the wildcat list Deputy Babcock has prepared. This policy was issued through the Chicago office of the company and an investigation will be instituted to discover whether or not the company has been trying to evade the payment of license fees by sending an agent from the district office through the state.

Startling Experience.

Theodore Horn, a contractor, had a start ling experience last evening. He reached the house after dark and, supposing his wife, who had not been feeling well for some weeks, had gone upstairs, he walked into the kitchen, washed his hands and started into the dining room. Here he stumbled and fell over the prostrate body of Mrs. Horn. An attack of heart failure had prestrated her four hours before and she had lain there alone during that period. Mrs. Horn is in a dying condition.

I had the honor to serve under this old flag as a member of Company C from August 8, 1861, and was one of its color guards at the battle of Shiloh.

At the first reunion of the regiment after the war (February 28, 1890, at Plattsmouth, Neb., twenty-three years, seven months and twenty-six days after the regiment was mustered out, and twenty-six years and about ten months after the flag was sent from the state house at Lincoln to be seen and greeted by the men, then boys, who had carried and defended it, but who had not seen it during all these years, I was selfish enough to accept from a comrade this piece which he found already almost detached and urged me to take and keep. I did take and keep it, although I confessed to him at the time that I felt guilty of a great wrong done to my comrades and the state. (The flag had been entrusted to his care by the governor.) Now, to better preserve it, together with a statement of its travels taken from my own original journal kept by me during each day of the war. I have written this account, caused it to be put in type and the whole sealed under this glass.

MEET WITH REVERSES IN ACRE

Newspapers Suggest that Purpose of Decree May Be to Affect Sentiment in the Negotintions with Chili.

NEW YORK, Nov. 11 .- Citizens of this city were astonished Saturday evening, says a dispatch from La Paz, Bolivia, via Taona, Chili, when government officials posted throughout the town placards which declared the whole republic of Bolivia in a state of siege, owing to the country being threatened. The decree caused intense excitement be-

cause of the unexpectedness of the announcement and ignorance of the reason for the government adopting such a step. Two rumors were heard. One was that the Bolivians had been completely defeated in Acre. The other report was that 2,000

Peruvians were on the frontier near the Madre De Dios river. El Commercio De Bolivia prints these of

ficial dispatches: MANAOS, Nov. 7.—Rojas surrendered at Empressa for lack of ammunition, MONTEIRO, Vice Consul.

PETROPOLIS, Nov. 8.—Advices October is confirmed. Rojas capitulated. Returns Bolivia via Manaos. PINILLA, Minister of Bolivia in Brazil. El Commercio in commenting on the situation says:

The exact seriousness of the news from Acre is unknown, but the government must be in possession of grave news to take such measures and to declare a state of slege, which appears unnecessary, as the lege, which appears unnecessary, as the outnumber of the country, without distinction of party or class, will stand by the government.

Some persons attribute the government's action to a desire to obtain popularity and to put an end to the state's opposition of concluding arrangements with Chill.

These charges we regard as unfounded. These charges we regard as unfounded and we recommend that the government make public all news from Acre immedi-ately after being received.

The government is actively engaged or ganizing a new expedition of 1,000 men to proceed to Acre and is borrowing money to meet the expenses.

Colonel Rojas, to whom reference is made in the official dispatches to the Bolivian government, was the commander
