Wheat and Corn are Higher, Oats and Previsions Lower.

BAD WEATHER AND GOOD DEMAND HELP

Data Cannot Get Over Depressing Ef feet of Commission House Sales, Although Other Factors Make for High Prices.

CHICAGO, Nov. 11 .- Unsettled weather, a good cash and export demand caused airength to wheat on the Board of Trade today, and the close was strong, with December up %c. December corn closed %g ligher, while cats were 14014c lower. January provisions closed from 74c to 10c lower.

January provisions closed from 7% to 10c. Jower.

Wheat ruled strong under the influence of unsettled weather, with prospects of a falling off in the movement and a good export demand. Trading was not especially active, but the buying demand was sufficient to start covering by shorts, and there was also a large amount taken by a promipent long, the latter being one of the chief features of the day. The local sentiment appeared to favor the buying side, strong corthwest market being an incentive the close was strong and near the top figure of the day. December opened %c lower to a shade higher at 71% (971% to 71% c and advanced ste&dily throughout the assaion. The high mark was reached at 72% and the close was %c higher at 72% (972% c. Bradzirect's world's visible showed an increase for the week of 4,500,000 bu. Clearances of wheat and flour were equal to 400,000 bu. Primary receipts were 1,398,000 bu., compared with 1,444,000 bu, a year ago. Minneapolis and Duluth reported receipts of 272 cars—8 of contract grade—made total receipts for the three points 1,153 cars, against 1,250 cars a year ago.

In suite of a bearigh government crop re-

cars—6 of contract grade—made total receipts for the three points 1,155 cars, against 1,290 cars a year ago.

In spite of a bearish government crop report corn was fairly firm, although May was easy, mainly on hedging sales against new corn. Unsettled weather was a strengthening factor. Commission houses were good buyers throughout the day, and although several attempts were made to break the market, the offerings were well-taken and prices maintained fairly well. The close was lower for May, but December was up %67%c at 56%600c, after selling between 56%c and 51c. Local receipts were 289 cars, with 39 of contract grade.

Oats ruled weak and trade was light. Bad weather and the prospects of a decrease in receipts were bull factors, but continued selling by commission houses held prices down. December closed 4%7%c lower at 25%625%c, after selling between 28%c and 39c. Local receipts were 38; cars. Heavy receipts of hogs caused a weak opening in provisions, and although part of the early loss was regained on covering by shorts and buying by brokers the close was weak. There was no particular future to trading. January pork closed 7%c lower at \$15,12%, January lard 19c lower at \$9.15 and ribs 7%c lower at \$8.

Estimated receipts for tomorrow: Wheat, 125 cars; corn, 130 cars; oats, 190 cars; hogs, 35,000 head.

GLASS TRADE IN BAD SHAPE Jobbers' Association Holds a Confer-

ence, but Fails to Reach a Satisfactory Conclusion. PITTSBURG, Nov. 11.-The National Window Glass Jobbers' association closed its conference in the Hotel Henry long

after midnight last night. The session opened at 10 o'clock yesterday morning and was attended by over fifty members. The demoralized condition of the window glass market resulting from the jobbers shading the price list caused the meeting to be called. It was thought when the meeting opened that it would be disrupted by a vote of the association. After a conference with the jobbers and manufacturers last night the whole matter was turned over to the executive committee of the jobbers and another meeting will be held within the next few days to settle

the differences. THE REALTY MARKET.
