

CLUB WOMEN HOLD MEETING

Object is to Interest Unfederated Clubs in the State Organization.

REPRESENTATIVES FROM MANY LOCALS

Advantages of Co-Operation and Sympathy in Club Work Are Painted Out by Twenty-Three Speakers

In response to the invitation of Mrs. E. D. Neely, vice president of the second district of the Nebraska Federation of Women's Clubs, the majority of the clubs, federated and unfederated, of this district were represented at a conference which was in session from 11 until 3 yesterday in the Woman's club rooms. The meeting was called for the purpose of exchanging ideas for mutual helpfulness and interesting and bringing into the state organization the unfederated clubs.

Each organization was represented by its president and one delegate, those present being Mesdames J. W. Taylor and D. C. Hudson of the Woman's auxiliary of the Railway Postal Clerks' association of Omaha; South Omaha and Council Bluffs, Mesdames Edward D. Evans and S. W. Morrow, Clio club, Omaha; Mesdames J. H. Riggs and L. S. Gould, Waterloo; Mesdames Mary Perkins and Arthur English, Beak Review club, Omaha; Mesdames J. C. Combs and R. B. Wilson, Nebraska Ceramic club; Mesdames J. W. Smith and C. M. Schrindel, Century Literary club, South Omaha; Mrs. D. L. Johnson and W. S. Howard, Dundee Woman's club; Misses Carl Wright and A. Goetsch, Mt. Sigma club, Omaha; Misses W. P. Hartford and George Tilder, Young Women's Christian association, Omaha; Misses F. H. Cole and J. H. Dumont, Omaha Woman's club; Misses Cove, Whitmore and Holdsworth, Valley Woman's club. In addition to these representatives there were present the following officers of the Nebraska Federation of Women's Clubs: Mrs. Page, president; Mrs. Brauer, Mrs. Halmer, vice president; Mrs. Aurora, Mrs. Miller, corresponding secretary; Douglas, Miss Minnie Becker, recording secretary; Mrs. Bell, treasurer; Mrs. H. M. Bushnell, auditor; Mrs. Linnell, Mrs. Belle M. Stouenborough, general secretary; Mrs. Platenough, Miss Rebecca Wilson of Fall City, vice president of the first district; Mrs. E. D. Neely of Omaha, vice president of the second district; Mrs. Clemmons of Fremont, vice president of the third district; Mrs. Benfänger of Sinton, vice president of the fifth district. There were also present the executive committee and several members of the Omaha Woman's club, who as former officers of the State Federation and chairman of committees, contributed to the council.

They Talk of State Work

Mrs. E. D. Neely presided and Mrs. D. H. Johnson of Dundee acted as secretary. As president of the Omaha Woman's club, Mrs. F. H. Cole extended a few cordial words of welcome. It had been expected that Mrs. Page, state president, would give something of the plans for the state work for the year, but she did not reach the city until almost the close of the meeting. In her place, Mrs. Draper Smith spoke of the new arrangement of district vice presidents and what was hoped for as its result.

Perhaps no woman in the federation is more closely in touch with the clubs than Mrs. Stouenborough, owing to her efforts in behalf of the traveling library and her close association with the club work since its beginning. From this experience she spoke of what the co-operation and sympathy mean to the women of Nebraska and of the advantage of any system of bringing them into closer touch with each other.

Mrs. C. S. Lebingier, as former corresponding secretary, told why the unfederated clubs should become a part of the state organization. She spoke of the need of club women selecting what is best and simplifying their work, saying that there is danger of too much enthusiasm at first.

In her usual humorous way Mrs. H. M. Bushnell of Lincoln pointed out the practical work that can be done without "taking club life too seriously." She said the district vice presidents were the most practical medium that has yet been employed for engaging and directing the scattered ability over the state. There were in all twenty-three speakers, each bringing from her experience something of encouragement or help.

At 1 o'clock the visiting women were entertained at a luncheon in the church. They were guests of the Woman's club at its open meeting in the afternoon and attended Mr. Harbour's lecture given in the church auditorium last evening under the auspices of the club for the benefit of the building fund of the Young Women's Christian association.

VOTES UPON NATURALIZATION

Judge Read Answers Query Made by Judge at the Recent Election.

The Bee has received from a judge of the recent election the following note which, with Judge Read's answer, may be of general interest:

In the Ninth precinct of the Fourth ward in the last election a young man apparently about 20 years old came before the board of registration to register. To the usual questions he made answer and he came to this country when about 4 years old, with his parents. His term of residence in the state, county and precinct was sufficient, he having lived in Omaha about twenty years. His father had never been naturalized nor could he be, as he declared his intention to become a citizen of this country, but the young man said before the board of registration a certificate of complete citizenship dated October 2, 1882, or four days before election. Did he have the right to vote?

When shown this query Judge Read of the district bench answered: "He had the right to vote. Under such circumstances it would make no difference when he took out his complete naturalization papers if he had them when he appeared before the registration board as that last registration day. The ink might not yet be dry on them, with election only two days off, and the right to vote would still be his. He votes upon his naturalization, not upon his declaration."

TO REPAIR ASPHALT PAVING

Barber Company Agrees to Do Work Without Cost to City.

Through the influence of City Engineer Rosewater the Barber Asphalt company has just consented to make all of the repairs now needed upon the asphalt streets of this city free of charge and this place these streets in first-class condition for the winter.

For some time past the engineering department has recognized the fact that some of the streets were in deplorable condition, but the \$75,000 appropriation for repairs for this season had been entirely exhausted. Mr. Rosewater held a conference on Friday last with Messrs. Carpenter and Drake of the Barber Asphalt company, who were here then as business of the company, and in a persuasive manner presented to them

the excellent opportunity that had arisen for the company to do a generous thing for the city of Omaha and thereby gain favor with the public generally. Messrs. Carpenter and Drake were ready to act upon the suggestion and agreed to make all of the repairs now necessary. The expense of this work, if it were to be paid for at the usual rate, would be several thousand dollars. While there are no really bad places in the asphalt streets, there are a number of spots where small repairs are necessary. Sixteenth street is one of those which will first receive attention. See how it sparkles! How juicy and appetizing! America's leading champagne—Cook's Imperial Extra Dry.

SAYS HIS TALK DID BUSINESS

Why an Insurance Solicitor Brings Suit Against Company's General Agent.

Judge Vinzenbacher of the county bench listened yesterday to the hard back tale of William E. Morris, an insurance solicitor, who sues Charles E. Ady that his persistence and diplomacy may not go unrewarded. It appears in the petition and plaintiff's testimony that Morris was working under Ady on a commission and that after many visits and much elucidation he persuaded John Doe to agree to switch from a company in which he was then insured and take out a \$10,000 policy in Ady's

company, but that Morris' contract expired before the actual drawing up of the papers took place and that Ady attended to the final proceedings in person, later refusing to pay Morris the \$121 commission the latter demanded. Morris now pleads for judgment on the ground that he brought about the deal by calling on Doe so often and talking to him so much that he couldn't hold out any longer. That awful tale. And its terrible end can soon be cured by Dr. King's New Discovery for Consumption. Try it. No cure, no pay. 50c. For sale by Kuhn & Co. The new kind of General Arthur cigars are now on sale.

GOVERNMENT MAY NOT APPEAL

May Prefer to Give Land to Winning Mixed Blood Omaha Indians.

John L. Webster, special attorney for the United States in the case of the twenty-five half-blood Omaha Indians who brought suit to secure land under the allotment to Indians of that tribe, says that so far the government has not signified its intention of appealing the case in which the plaintiffs were successful and that under the circumstances he does not believe that it will be done, as the total extent of the land allotted to the successful parties was but about 280 acres, 100 acres to Sloan and

eighty to Myers. He says that in case the twenty-three who lost their suits appeal it is quite likely that the government will take the others up for review, as the cost of preparing for trial in them will add but little to the cost which will necessarily follow preparation in the other cases. **SOME WILL MISS THEIR PAY** Clerks and Judges of Election Will Be Omitted by Secretary Burgess. In paying the judges and clerks of the election the portion of their salaries for election day which is due from the school department Secretary Burgess of the Board of Education will omit from the list the

judges and clerks of the First and Eighth districts of the Eighth ward. The judges of the First district of that ward have failed to file with the county clerk any pay roll and therefore Mr. Burgess has no official knowledge as to who they are. The Eighth district master will be brought before the board on the ground that the judges and clerks of that district did not properly perform their duty inasmuch as they did not keep any roll list of the voters, but merely returned their tally sheets. **Drives All Before It.** Acted and pains \$2 before Bucklin's Arthritis Salve. So do sores, pimples, boils, corns and piles, or no pay. 25c. For sale by Kuhn & Co.

YOU HAVE GOT YOUR WORK TO DO

HERE IS THE LESSON OF TIME. TEN YEARS OF ACHIEVEMENT

The American people were not eating Cereals ten years ago. Oatmeal could be bought in drug stores. People ate cereals when the doctor recommended.

About that time appeared the figure of the Quaker—now familiar. His message was simply "Eat Less Meat."

People no longer have to be told that cereals are more wholesome and yield a greater food value than meat.

It is not so much a choice between meat and cereals as a choice between cereals.

To live and win to-day your body and brain must be as active and strong as you can make them.

It is a matter of food.

The fact that Quaker Oats and the Greater Achievement came at the same time is not without its meaning.

We have mastered food questions—not merely cereals, but every food. We have told you in the last few days some of the many Quaker Differences which make Quaker Oats the best food.

The word "best" is used carelessly in many advertisements; but there is no other way of saying best when we mean best.

Quaker Oats is now the American Work Food.

You have got your work to do.

If you breakfast on it you will work better, play better, sleep better.
