Olamoring Shorts Send Corn Soaring Upwards During Active Day.

WHEAT RULES FIRM ON ACTIVE MARKET

Oats Drop on Liberal May Offerings and Provisions on Big Sales Being Made by Commission Houses.

CHICAGO, Ill., Nov. 18.—Corn was extremely active today and urgent demand from shorts caused higher prices, the close on Docember being 2%c higher. December wheat closed %15%c higher, but oats were 4%c lower January provisions closed from 5c to 74,973%c lower.

Wheat ruled firm and the market was active, with good commission house buying throughout the day. Disappointing cables and improved weather caused some selling shortly after the opening, but the greatly decreased receipts in the northwest, together with buying by a leading long, overcame the depression and prices were strong the remainder of the day. Strength in corn was a prominent feature and when that market declined it brought out some realizing sales in wheat but the offerings were well taken. The close was strong, with December up 1%c 1%c, and then declining to 73%c, only to 73%c, and then declined supply showed an increase of 4,740,000 bushels compared with an increase last year of 10,170,000 bushels a grainst 1,485.000 bushels a grainst 1,485.000 bushels a year ago, Minneapolis and Duluth reported receipts of 766 cars, which, with local receipts of 185 cars sayinst 1,485.000 bushels a year ago.

The feature of the corn trade was the active covering by shorts and in their efforts to secure enough contract grade stuff to even. up their contracts. They advanced the price of December by rapid stages until a rise of almost 3 cents for the day had been registored. The buying was argely by houses with western connections and for the account of small scattered

were 28 cars, with only eight of contract grade.

There was a fair trade in oats and prices early sympathized with the higher price in corn, but on liberal offerings of May there was a reaction and the close was steady. December closed ic lower at 29%c. Local receipts were 28% cars.

A heavy decrease in the receipts of hogs and lower prices at the yards had a depressing effect on provisions at the start and there was considerable selling, commission houses having an abundance of offerings. Discouraged longs also disposed of some of their holdings. Brokers were the best buyers and helped to maintain prices. January pork closed 71-59 loc higher at \$15.224-5915.25, January lard ocents lower at \$1.225, rbb 5c lower at \$7.95. Estimated receipts for tomorrow:

Wheat—75 cars. Corn—125 cars. Oats—146 cars. Hogs—42,000 head.

But again in the early afternoon there was a renewal of the covering movement and general speculative demand, influenced by light receipts at Santos interior towns for the day and by additional gains in the late French market, upon which prices railled once more and ruled firm at a net advance of 10615 points till near the close, when realizing brought about a slight setback, final figures returning a net gain for the day of 5610 points, with the closing tone steady.
