

FREIGHT TRAFFIC ALLIANCE

Union Pacific Make Agreement with St. Joseph & Grand Island.

OPENS TERRITORY TO OMAHA JOBBERS

New Arrangements Enables Shippers Here to Compete with St. Joseph and Kansas City Wholesalers in Certain Section.

A freight traffic alliance has been formed between the Union Pacific and the St. Joseph & Grand Island road which will be of practical benefit to Omaha commercial interests.

Under the arrangement just effected the Union Pacific will get its freight into Grand Island during the night and out for the eastern territory, between Grand Island and Fairbury, in ample time to head off the freight from Kansas City and St. Joseph.

The same provisions which concede these privileges to the Union Pacific withhold them from the Burlington. That is one of the specifications of the contract.

Some time ago the Burlington bought the Kansas City & Omaha, which formed a part of the St. Joseph & Grand Island, and at that time and many times since it has been rumored that the Union Pacific had effected a trade for the St. Joseph & Grand Island.

Practically General Superintendent. The notice designating the duties of certain Union Pacific officials, previously referred to in The Bee, was posted yesterday by President Bowen.

As has been stated, this materially increases the functions of the superintendent of transportation and makes him practically a general superintendent.

The circular indicates no significant changes in the affairs of the chief engineer and the superintendent of telegraph and telephone.

Switchmen Get More Pay. A raise in wages to the amount of the scale for switchmen recently adopted in Chicago was granted Tuesday afternoon.

BOARD HAS SOME PROBLEMS. Perplexing Questions in Regard to Assessments Are to Be Solved.

In the course of its morning session the Board of Review considered a number of complaints, but made very few alterations in the assessments as fixed by the tax commissioner.

One perplexing condition brought to the attention of the board is that in several cases that have been presented property has been recently purchased for cash at a less amount than the assessment of the tax commissioner.

Another problem is presented to the board in connection with property along the line of Central boulevard, a portion of which has been condemned by the park board for the boulevard, and the remaining portion of which has been sold in some cases by the tax commissioner at figures higher than the appraisement in the condemnation proceedings.

Among the complaints received yesterday was one from John G. Willis, who objects to the valuation of \$12,000 which the tax commissioner placed upon the Coliseum property on the ground that it is not sufficiently high.

The new kind of General Arthur cigars are now on sale.

OMAHA FURNISHES THE GOODS

This City Produces Large Proportion of Basic Material for High Explosives.

Omaha is just now furnishing a very large proportion of the basic material for the manufacture of high explosives.

Mr. Edward Cudahy, in course of a conversation concerning the work now being done at his plant here, said his company has arranged with several of the largest soapmaking factories of France for buying their entire product of crude glycerine, from which is manufactured at South Omaha the chemically pure article that is the base of nitro-glycerine.

In addition to the regular products of a packing house such as meats cured and cooked, packed in cans or tins, or sent without packing the Cudahy plant deals in soap and beef extract, hair and bristles, soap, and a list of things that would read like an inventory of a department store.

In addition to the cans used in the course of its business the Cudahy can factory will soon be in the market to supply tin packages for any who wish them.

MATOS GOES TO SEEK HELP

Losses Presidency, but Will Continue in Revolt.

GERMANY HAS LITTLE SCORE TO SETTLE

Presses Castro to Pay Venezuelan Debts and May Use Force When Insurrection Ends in Fact as Well as Word.

WILLEMSTAD, CURACAO, Nov. 19.—President Castro is energetically pushing operations to prevent the revolutionists from recovering from their dissections and the flight of General Matos. One of whose objects is to attempt to induce the Colombian government, which is notoriously unfriendly to President Castro, to send arms and ammunition to his men.

General Matos' future plans are kept secret. Though his estates in Venezuela have been confiscated he still has money, and can if he chooses, continue the contest either personally or through generals Rolando and Puello Mendoza, who are still in the field.

The whereabouts of General Mendoza is unknown although the government officials are making diligent search for him. He is believed to be in the western district and to have with him only his staff, but he is able to gather men.

Rebel Generals Quarrel. WILLEMSTAD, Nov. 19.—The empty exulting between General Mendoza and General Rolando is alleged to be responsible for the defeat of the revolutionists at La Victoria.

When a woman first experiences the pleasant anticipation that comes with pregnancy, she finds much satisfaction in preparing little bits of soft clothing designed to protect the child and enhance its beauty once it is safely ushered into the world. Much anguish, accompanied by fear, insomnia, and dread, figure largely too in the condition of a woman during these long months of gestation. At the best it is a trying period, and every consideration, care and attention should be given the coming mother, together with the aid which a good, tried and perfect balm like MOTHER'S FRIEND can give, and which is sure to be the chief means of perfect reproduction. MOTHER'S FRIEND applied externally throughout pregnancy will relieve the pains of parturition, and no mother and child can fail to be healthy, hearty, strong, clear complexioned, pure blooded, calm, nervous and cheerful in disposition, who are mutually influenced for months by the continued use of MOTHER'S FRIEND.
