TRADE NEEDS COLD WEATHER

Dun Says Mild Days Retard Purchases in Most Lines.

INCREASED WAGES WILL STIMULATE SALES

Car and Coke Shortage Continues, with No Immediate Prospect of Relief. Consequently Firms Hesitate to Accept Orders.

NEW YORK, Nov. 21.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: Voluntary increases in wages by some of the largest railways in the country bear testimony of the amount of business handled in the past and emphasize the confidence of officials in continued heavy traffic. Moreover, by the addition of large sums to the purchasing power of railway employees there is assurance of a larger demand for all staple lines of merchandise.

Temporarily sales of reasonable lines of wearing apparel are retarded by mild weather, but this loss will be fully made up when low temperatures become general. Preparations for holiday trade are on an unprecedented scale, especially at interior points. There is considerable congestion of railway traffic, or any immediate prospect of free movements at the points of issue must continue to be a source of concern. Coal freight is steadily gaining and all railway earnings thus far reported for November exceed last year by 1.5 per cent and those of 1900 by 15.5 per cent.

Orders are now coming forward for iron and steel products that have been held back many months in expectation of an easier market. Instead of making concessions, however, producers ask premiums for early delivery and hesitate to accept contracts where material and fuel are not in sight.

Relief is reported to the movement of coke, neither is any anticipated for some time to come; in fact, one authority suggests that the situation will not become normal before April. Imports relieve some departments of the industry.

Plans for constructive work are now increasing and a large tonnage of structural material will be required. As the present congestion is due to inadequate facilities the most important inquiry is for railway equipment. Activity is notable at work making agricultural implements, bolts and kindred lines. Recent reductions in price of the lighter forms stimulated dealings to a fair degree.

Silver Touches Lowest Point.

Silver bullion declined to the lowest price on record and copper and tin also receded from former quotations. London was a conspicuous factor in these changes.

Heavy lines of dry goods and footwear need the stimulus of cold weather.

A fairly steady demand is reported for staple cotton goods, but buyers are taking only for immediate requirements. Weakness in material gave an easier tone on forward shipments, yet the margin between spot and distant deliveries is exceedingly narrow, while the moderate inquiry in raw cotton steadied the market for goods. Orders for spring shoes are coming forward freely, and there is supplementary buying of winter goods on a moderate scale.

Retailers have much more money tied up in rubber goods for which there has been little demand.

Both solid and upper leather are quiet. Foreign buying of hemlock is somewhat restricted.

No concessions are obtained on hides, except where new offerings are of inferior quality, although the western markets are quiet. Dry hides are fully maintained in the local market, supplies being light.

Failures number 266 in the United States, against 218 last year, and 21 in Canada, compared with 21 a year ago.

NEED NEW RAILWAY PLANS.

Business So Heavy Transportation Facilities Are Inadequate.

NEW YORK, Nov. 21.—Bradstreet's report tomorrow will say:

Favorable conditions still govern trade, unseasonable weather is complained of as restricting the movement of winter goods and delaying collections at a few points, but it is not to be forgotten that present temperatures favor the growth of the cotton crop and a larger yield than heretofore expected, while it is enabling the railroads to make a far better fight against the prevailing freight congestion than was earlier deemed possible.

Export trade returns look better than preliminary reports foreshadowed. Agricultural products, owing to high prices, have some abroad in small volume than expected, but there is evidently a larger movement of manufactured goods.

The railroad situation is certainly a remarkable one. The complaint is no longer one of car shortage, or lack of motive power or even of insufficient yard facilities. The fact is becoming appreciated that the business of the country offered to the railroads is so large that new measures must be devised to meet new conditions.

The strength of the raw material has been a benefit to the cotton goods market, which, however, remains quiet.

The western goods situation is without special feature.

Leather and hides have ruled steady in price and manufacturers report good season.

The feature brought out in telegrams to Bradstreet's this week is the increased activity noted by jobbers in holiday goods, especially the better grades of jewelry and fancy products.

Fancy groceries are moving more freely.

OFFER GOOD ODDS ON YALE

Fakers and Students Mingle on Scene of Today's Big Battle.

NEW HAVEN, Conn., Nov. 21.—An unprecedented crowd of college men and their friends arrived here tonight and the vicinity of Yale campus presents a scene of bustle and excitement. Fakers and bookies add to the din, and groups of enthusiastic collegians shake money at each other in efforts to place wagers. More money will probably be placed upon the issue of tomorrow's contest than on any previous foot ball game. Yale is willing to give odds, some small bets even being laid at 2 to 1, in the main the wagers are 3 to 1, but larger wagers are cautiously placed. Odds are even that Harvard will not score.

FIRE RAGES IN COAL MINE

Colorado Fuel and Iron Company Now Has Fresh Trouble to Contend With.

TRINIDAD, Colo., Nov. 21.—The Engleville coal mine, six miles south of Trinidad, owned by the Colorado Fuel and Iron company, is on fire and the fire is beyond control. Two men have lost their lives.

The dead: FOLITO PERALTO, Mexican, aged 55. UNIDENTIFIED MINER.

The fire started yesterday near an abandoned air shaft, 400 feet from the mouth of the mine. It was not considered serious and this morning 150 men were sent into the mine. Soon smoke and gas reached them and they fled for the open air.

The mine is being flooded, but so far the fire has steadily gained headway.

The Engleville mine is one of the largest in Colorado and has been producing 1,400 tons a day. It is feared the present fire will ruin the mine.

LEVICH'S FATE WITH JURY

(Continued from Eighth Page.)

Ingraham, postmaster and general merchant of Mount Airy, who failed some time ago with liabilities estimated at \$100,000, will be argued before Judge McPherson in the United States court tonight.

It is expected that in the consideration of this case Judge McPherson will decide an interesting legal point. The creditors of Ingraham's estate are seeking to have his homestead made subject to certain claims which they hold. The statute specifically provides that the homestead of a bankrupt is exempt from the claims of all creditors, except the state. In this case, however, the creditors claim that the debts were contracted prior to the purchase of the homestead. For these antecedent claims they assert the homestead is liable.

The federal grand jury today returned an indictment against the Adams Express company for selling liquors without a government license.

The charge is based upon the delivery at Birmingham, la., of liquors sent C. O. D. to consignees.
