DECEMBER CORN IS ERRATIC AND LOWER

Oats Dull and Featureless, While Provisions Are Inactive at a Trifle Decline in Prices Owing to Condition at Yards.

CHICAGO, Nov. 25,-Wheat was active

CHICAGO, Nov. 25.—Wheat was active and eagler early in the session today, but later became rather dull, while prices were slightly better, the close being about steady, with December 4c lower. December corn closed 5c lower, with oats unchanged. January provisions closed from 24c lower to 5674c down.

The buying of 1,000,000 bu, of both December and May wheat by the leading bull operator was the chief feature of the market, and proved to be a sustaining factor in the situation, the close being steady, after an easy opening. The pit news was generally bearish, lower cables, liberal receipts in the northwest, together with weak markets, causing weakness during the first part of the day. Rumors that the leader on the long side had sold enormous holdings through brokers—though probably erroneous—counterbalanced to a large extent the good effect of buying by the same interest, and kept the majority of traders in a quandry as to the exact condition of affairs. The close was about steady, with December 4c lower at 744c. The opening was unchanged to 4c lower at 744c. The opening was unchanged to 4c lower at 744c. The opening was unchanged to 5c lower at 744c. The opening was unchanged to 5c lower at 744c. The opening was unchanged to 5c lower at 745c, but advanced again and held steady. May closed a shade higher at 764c, after selling between 755c and 765c. Bradstreet's world's visible for the week showed an increase of 6.941,000 but, compared with an increase of 6.941,000 but, a year ago. Clearances of wheat and flour were equal to 419,300 bu. Primary receipts were 1,655,300 bu., against 1,455,200 a year ago. Minneapolis and Duluth reported receipts of 1,201 cars, which, with local receipts for the three points of 1,418 cars, against 250 last week and 355 a year ago.

December corn was again very erratic, with a lower tendency, while May was about steady. There was free selling of December early on lower cables and increased receipts, but at the decline the market received good support on commission house buying and prices railled. May was in good demand all day and the close was only 5c lower at 425c, after ranging between 425c and 425c. December opened 5c to 15c lower at 55c, after a range between 525c and closed %c lower at 55c, after a range between 525c ars, with 22 of contract grade.

Oats ruled dull and featureless, with prices firm on a fair general demand. December closed unchanged at 315c 315c, after selling between 315c32c and 325c. Local receipts were 200 cars.

Provisions were insertive at a trife december 25c ars were selling between 315c 25c and 325c. Local receipts were 200 cars.

between 31% 632c and 32.7c. Local vere 200 cars.

Provisions were inactive at a trifle decline in prices, the lower prices at the yards being responsible for the weaker tone. A fair demand for lard and ribs caused a little advance, but realizing brought about a decline and the close was about steady, with January pork 5c lower at \$15.52½. January lard closed 5677½c lower at \$9.3549.37½, with ribs 2½c lower at \$8.10.
