MORE LAND FOR THE DEPOT

Quartermaster General Wants a Larger Building in Omaha.

TO BE ONE OF SERIES ACROSS COUNTRY

E. Rosewater Calls on the President and Discusses Affairs at the Omaha and Winnebago Indian Agency.

(From a Staff Correspondent.)

WASHINGTON, Nov. 26.—(Special Telegram.)—Quartermaster General Ludington said today that it was his desire to make a chain of storage warehouses from the Atlantic to the Pacific, in order to be prepared for any emergency that might occur. "At the opening of the war with Spain the army found itself very greatly handicapped by reason of the few storage warehouses," said General Ludington, "and consequently Washington was called upon to furnish a very great deal of materials of war in conjunction with New York, Philadelphia and Jefferson Barracks. The necessity for storage warehouses never seemed so important as now in view of our failure to meet conditions which presented themselves at the outbreak of the Spanish-American war. My idea is that we should have a chain of storage houses along well-beaten paths of travel, and by travel I mean easily accessible to railroads. The bill which passed the last session of congress appropriating $75,000 for an additional building at Omaha, to be used as a storage warehouse, was in line of the department at my suggestion, but my idea is that we need more ground upon which to erect buildings than is now available in the government corral at Omaha. I should like to have some additional ground in order to erect a building which I believe is necessary to meet the needs of the army in the distribution of supplies. We have learned much since our recent war with Spain. Instead of being compelled to look to one or two depots for supplies it has been clearly demonstrated that we need a chain of supply stations throughout the country to meet exigencies that may arise. Consequently I want to erect such buildings in Omaha as will meet, in my mind, the needs of the department, and I am very much inclined to ask for an additional amount of land so that the building which was planned by the department may be erected. By reason of the small space to be occupied by the new building it was found necessary to change the plans, and officials at Omaha were called upon to make such modifications as would meet the requirements. I do not feel satisfied, however, that we are doing the right thing by putting up a building on a plot of ground which seems inadequate, and I would be glad to suspend work pending purchase or appropriation by the city of such additional land as I think is needed for the enlargement of the present army warehouse site."

Made Sleep a Long One.

Florence H. McCarthy, who formerly kept a fruit stand at the corner of Sixteenth and Capitol avenue, Omaha, but who for several years has conducted the leading fruit house in this city, died suddenly Monday night under peculiar circumstances. It appears that Mr. McCarthy, notwithstanding the prosperous condition of his business, desired to increase his worldly goods through speculation in stocks, and it is asserted that in the last slump he lost over $4,000. As a result of this loss he grew very melancholy, insomnia followed and an overdose of bichloride of mercury which he took last Friday brought about his death. Mr. McCarthy was well known in Omaha. He leaves a wife and several children.

Discuss Indian Lands.

Mr. Rosewater called on the president this morning by appointment, and strange as it may appear there was no mention of the Mercer incident, the president having other and more pressing things to think about. Outside of a general discussion of tariff and trusts the subject of the conversation between the president and Mr. Rosewater bore largely upon Omaha and Winnebago agency matters, to which Mr. Rosewater had called the attention of the president through personal letters. Indian land leases were also discussed, as well as sales of inheritance lands, the president showing by his talk that he thoroughly understood the whole subject.

Mercer's Chances Nil.

The Mercer boom for clerk of the house of representatives has retired into the backwoods. Mr. Mercer, who has many warm friends in congress, conceived the idea after his defeat that he would stand a chance for election as clerk of the house. He was urged for the place by a number of leading republicans and naturally he took the proposition under advisement. Today, however, the Pennsylvania delegation decided that they would support Mr. McDowell, present clerk of the house, irrespective of Mr. Dalzell, who is a candidate for speaker, and it is expected that when the time comes Mr. Dalzell will withdraw from the speakership contest, leaving Mr. McDowell a clear chance for re-election as clerk. As a matter of fact the present officers of the Fifty-seventh congress will in all probability be re-elected in the Fifty-eighth, notwithstanding all the talk that is now going on about the old Henderson combine. The only change will be that an Illinois man will be speaker, whose name is "Uncle" Joe Cannon, while the rest of the officers will succeed themselves.

Lieutenant Colonel Frederick A. Smith, United States army, inspector general, has been relieved from duty in the Philippines and ordered to this city for temporary duty, upon completion of which he will proceed to Omaha, reporting to the commanding general, Department of the Missouri, for duty as inspector general of that department.

The postoffice at Lillian, Custer county, Neb., has been discontinued.

Postmasters appointed: Nebraska—William H. Dubois, Union, Cass county, vice W. A. Taylor, resigned. Iowa—Lars O. Larson, Strand, Adams county. Wyoming—Eliza A. Brown, Big Trails, Big Horn county.

Views on Ambition and Dyspepsia.

"Dyspepsia," wrote Eugene Field, "often incapacitates a man for endeavor and sometimes extinguishes the fire of ambition." Though great despite his complaint Field suffered from indigestion all his life. A weak, tired stomach can't digest your food. It needs rest. You can only rest it by the use of a preparation like Kodol, which relieves it of work by digesting your food. Rest soon restores it to its normal tone.

NO DIPLOMATIC FORMALITY

Godfrey Hunter, Jr., to Be Tried in Guatemalan Courts for Murder of Fitzgerald.

WASHINGTON, Nov. 26.—It is inferred that the recent killing of Fitzgerald in Guatemala City by Godfrey Hunter, jr., is to be investigated by the local authorities.

A cablegram has been received at the State department from United States Minister Hunter, father of the young man who shot Fitzgerald, asking permission for the appearance of Bailey, the secretary of the United States legation, before the local courts to testify as to the killing.

The department has replied, waiving all diplomatic immunities that would interfere with the course of justice. The effect of this direction, it is expected, will be to put the local authorities in position to fix the responsibility for the shooting and to punish any person found to be guilty.

FREIGHT RATE IS ADVANCED

Michigan Central Files a New Tariff Schedule Between New York and Chicago.

WASHINGTON, Nov. 26.—The Michigan Central today filed with the Interstate Commerce commission a new freight tariff schedule between New York and Chicago, making an increase of 5 cents in the export rate on provisions and of 5 cents for dressed meats both for domestic and export.

The new tariff will be effective January 1 next year. The tariff on provisions is thus increased from 25 cents to 30 cents per 100 pounds and in dressed meats from 40 to 45 cents. The domestic rate on provisions remains as at present. The increase means a difference of some hundreds of thousands of dollars to shippers.

It is expected that all the other roads in the General Freight association territory, which comprises everything east of the Mississippi river and north of the Ohio except north of Illinois, will, under the agreement which is understood to have been reached by the roads, file similar tariffs and increases in other articles are expected.

Car Boycott Finally Lifted.

SCHENECTADY, N. Y., Nov. 26.—In one of the most exciting meetings in its history the Trades' assembly tonight declared off the boycott against the Schenectady Railway company. The vote in favor of rescinding was three to one and the meeting lasted nearly three hours.

After a long discussion a vote was taken and the president announced the resolution lost. There was an outcry at this and another vote was taken. This time he was unable to tell which side prevailed and a roll call was ordered. Those who favored the lifting of the boycott outnumbered their opponents three to one, and the resolution carried.

NO MOURNERS AT FUNERAL

Body of Mrs. Ellen Gore is Buried in Strange Land.

FEW SIMPLE WREATHS, BUT NO MUSIC

Minister Makes Only the Slightest Reference to Tragedy Which Blotted Out Life of Gifted American Woman.

PARIS, Nov. 26.—Consul General Gowdy has received a letter from M. E. Elsasser of London offering to furnish information to the family of Mrs. Ellen Gore which will assist, Elsasser says, in clearing up the facts in connection with her death by shooting on Wednesday last.

Mr. Gowdy has written to Elsasser to forward details.

The funeral of Mrs. Gore took place at the American church this afternoon and was attended by a large crowd, mainly Americans. The front of the church was packed by an assemblage attracted by curiosity, including many students.

The body was in a plain oak casket covered by a black pall, having on it the initial "G." It was taken to the church in an open hearse, which was followed by three carriages. M. Pacque, representing Mr. Gowdy, occupied the first carriage. The others were empty. None of the relatives of the deceased was present and there were no mourners.

Five beautiful floral offerings, one of them being from Mr. Gowdy, were placed around the casket. The service was conducted by Rev. Dr. Thurber. There was no music and the pastor avoided direct mention of the tragedy, the only reference to it being that the deceased was alone in a strange land. The casket was borne to Bagnoux cemetery, where it was buried after a simple service at the graveside.

De Ryzewski, in whose apartment Mrs. Gore died, was not present at the funeral, owing to the advice of his lawyer, who feared a demonstration.

SOUFRIERE AGAIN ACTIVE

Fifth Eruption Since May Leads to Evacuation of Many of the Villages.

KINGSTON, St. Vincent, Nov. 26.—A violent eruption of La Soufriere, the fifth since the catastrophe of May 7, took place today.

Georgetown and the village of Chateau Belair, situated on the west coast of St. Vincent, were again evacuated by their inhabitants. Telephonic communication is interrupted owing to fierce lightning. Subterranean rumblings can be heard and volcanic clouds are seen from this city. The crater had been smoking constantly since the eruption of October 16.

SAN FRANCISCO, Nov. 26.—The volcano Santa Maria was in violent eruption when the City of Panama left Champonico for this port nine days ago.

While the steamer lay at Chamorico the mountain was spouting ashes, smoke and pumice stone, the flakes falling in showers all over the country.

The city of Quezaltenango, on the eastern slope, had been visited by ruin.

M. E. Otis of New York, who was a passenger on the City of Panama, gives a vivid description of the neighborhood of the spouting mountain.

He says:

As far as the eye can reach from Champerico there is nothing to be seen but ashes and pumice stone. We sailed for miles through a sea of ashes. From the sea to Santa Maria the country looked as if visited by a snow storm and the mountain itself like a boiling caldron. At short intervals the volcano vomited smoke and ashes. At times the discharge was carried up a short distance into the air and then spread out like an umbrella and fell to the earth, covering trees, bushes and hills with a white shroud.

At other times the discharge seemed to leap high into the air as if propelled by a shock that could be felt all the way to Champerico. Earthquakes were frequent and the people felt that their country rested on a very uncertain foundation. The people in Champerico seem unable to form any estimate of the number of lives lost, but they all agree that the work of devastation, as far as the coffee plantations are concerned, is complete. Without having familiar knowledge of the country, I should say that this statement was not at all exaggerated.

GERMANS AGREE ON TARIFF

Government and Opposition Compromise in Fight on the New Schedules.

BERLIN, Nov. 26.—The National Zeitung announces positively that an agreement on the tariff bill was reached last evening. It is said to provide for an increase of the government's figures regarding the malting barley duty.

Another authority says the conservative leaders demanded that the chancellor name a definiate date for denouncing the existing treaties, but that he refused to do so and was supported by the national liberals and members of the center party.

Work Resumed in Havana.

HAVANA, Nov. 26.—There was a general resumption of work today except in the case of the cigar makers, who still have a few minor points under discussion. Gualberto Gomez, colored, is mentioned as the successor of Diego Tamya, the secretary of the government, who recently resigned. Gualberto Gomez, with General Maximo Gomez, took a prominent part in the settlement of the strike. His speech to the strikers Monday evening is said to have prevented further rioting.

TURKEY BUYS MORE MAUSERS

Nearly Four Million Dollars to Be Expended by Sultan for Guns and Ammunition.

CONSTANTINOPLE, Nov. 26.—Sixteen batteries of quick-firing field guns, numbering ninety-six guns in all, have been ordered from the Krupp works as the commencement of the rearmament of the Turkish artillery.

The war minister has also authorized the purchase of 22,000 small calibre Mausers to complete the present establishment. With wagons and ammunition for the artillery the orders entail an outlay of $3,960,000.

The purchases apparently were accelerated because of the recent developments in Macedonia and the Balkans and the impression prevailing in many quarters here that a serious outbreak, possibly leading to widespread complications, may be expected in the spring.

FRENCH TAKE SHIP'S PAPERS

British Captain Protests and International Trouble May Arise.

ST. JOSEPH, N. F., Nov. 26.—The British schooner Victoria has arrived here and reports that on entering the harbor at St. Pierre, Miquelon, its official papers were seized by the French authorities and property was taken for no reason known to those on board.

The French officials refused to return the papers and the vessel had to sail without them. The captain has complained to the governor, who will demand an explanation through the British foreign office.

To Receive Revolutionary Arms.

PANAMA, Nov. 26.—Governor Salazar, as soon as the cruiser Bogota returns here from the Port of Pedregal, where the revolutionary fleet is at anchor, will leave Panama for the interior departments with commissioners to receive the arms of the revolutionists and also to appoint government authorities to reorganize the administration of departments. On January 1 the schools will be opened. Electric lights will be reinstalled here next month.

TIME TO RETURN THANKS

(Continued from First Page.)

North Sixteenth street and the Royal Achates had an entertainment and dance in their hall at Sixteenth street and Capitol avenue.

The dance given by the Iron Moulders was the thirty-fifth annual affair of the kind and Washington hall was just comfortably filled for dancing and those present spent an enjoyable evening. The street car men's ball was the first annual entertainment to be given by the newly organized union. The Schlitz hall was crowded and the affair was a social and financial success.

THANKSGIVING FARE IS HIGH

Turkeys Sell at Twenty Cents Per Pound and Oysters Are Up Also.

Those persons who delayed placing their order for Thanksgiving turkey until the last moment in hope that the price would decline were fooled for once, as the expected receipts of festival fare did not arrive and the eve of Thanksgiving shows as active a demand and as high a price for turkeys as has existed in many years. Last year the market broke the day before Thanksgiving and the late buyers were the winners. Today the local price is 20 cents a pound, with a few to be had at 18 cents, but the stock is not up to the standard.

The oyster market is a little more satisfactory to the consumer, but the jobber is not pleased, as the usual advance of 15 cents per gallon was recorded on the Atlantic coast Monday and Tuesday, returning to normal Wednesday morning. Under these conditions the jobber was forced to absorb the advance and the consumer can still buy the bivalves at 40 to 45 cents a quart for the best stock.

Celery is in good supply and prices are comparatively low. A pound stalk sells at 10 cents for the best quality. Cranberries are somewhat higher than usual and the best grade sells at 12 cents a quart, with lower grades at 10 cents.

A lot of fancy apples for the holiday trade have been received and sell at 40 cents a peck. Imported grapes are to be had in good supply at 25 cents a pound, with better flavored California stock at 20 cents a pound, these prices being a considerable advance over a month ago. Very few pears are in the market and the holders ask almost any price for them. Preserved and dried fruits in good quality are offered at the usual prices, while there has been no advance in the price of green groceries, such as lettuce and radishes.

Dealers say that within the last few years the demand for what is known as holiday groceries is greater at Thanksgiving than at Christmas and that the best goods are forced out at this time the prices being higher as a rule than later.

A CLEVER SCHOLAR.

Knew the Food to Study on.

When a young lady going away to school carries food away with her in place of a box of candy there must be some reason.

A woman in Milton Mills, N. H., says: "Having a large family, I had much care and worry, and was never very strong and healthy, but managed to keep fairly well until the last few years. Each summer lately found me worn out and weak at its close, so that I had to spend a week or two in bed. My stomach always fails me when I am overtired, the food refusing to assimilate, until finally my stomach becomes so weak that the mere standing on my feet causes me to retch so violently that I often vomited blood.

"I had seen Grape-Nuts food advertised and fancied it was like other cereals, many of which I had tried and discarded. When my usual atack came on last August, I was in despair, for nothing would stay on my stomach except a little hot milk.

"I decided to try Grape-Nuts and sent for a package. I ate a little and lay back after eating without experiencing any of the sickly feelings that usually followed any movement in bed, and fell into a refreshing sleep. I continued using the food and day by day gained rapidly in strength until now I am entirely well and strong and my stomach does not bother me any more.

"Grape-Nuts is what I have often wished for—something that I can eat for breakfast and feel that I am satisfied. After eating a dish of Grape-Nuts with a little cream, I can work all the morning and forget I have a stomach.

"The children like it so well that it is hard to keep them in bounds as to the quantity that should be eaten. My eldest girl actually carried off a package when she returned to school at ——— with as much elation as if it had been a box of the choicest bon-bons." Name given by Postum Co., Battle Creek, Mich.

A SKIN OF BEAUTY IS A JOY FOREVER
DR. T. FELIX GOURAUD'S ORIENTAL CREAM, OR MAGICAL BEAUTIFIER

Purifies as well as Beautifies the Skin. No other cosmetic will do it.

Removes Tan, Pimples, Freckles, Moth Patches, Rash and Skin Disease, and every blemish on beauty, and defies detection. It has stood the test of fifty-five years, and so harmless we taste it to be sure it is properly made. Accept no counterfeit of similar name. Dr. L. A. Sayre said to a lady of the haut-ton (a patient):

"As you ladies will use them, I recommend 'GOURAUD'S CREAM' as the least harmful of all the skin preparations." For sale by all druggists and fancy goods dealers in the U. S. and Europe.
