Trading in corn was quiet, but the strength in wheat was a buil factor, causing some anxiety to shorts, who covered quite freely and in doing so advanced the price of December 11cc. May held steady throughout the day, closing 120% higher at 42% 5216. December opened unchanged to 14c higher at 53 cand 51% c, closing 11% c higher at 54%c, the high price of the day. good cash demand and smaller receipts
ree also strengthening factors. December

was %c higher at 33%c. Local receipts were 125 cars.
Provisions were strong throughout the day, the smell stocks causing an active demand, especially for lard. The poor condition of hogs arriving at the yards, which fact is attributable to the soft condition of the corn being led them, is restricting the output of lard. The close was strong, with January pork 19c higher at \$15.12%, January lard 7½610c higher at \$15.12%, January lard 7½610c higher at \$9.45 and ribs 12½70c higher at \$8.12½78.15.

Conditions in Leading Grains.

Conditions in Leading Grains.

WHEAT—Has kept firm all day at a little above Tuesday's close, influenced mainly by foreign news. Laverpool cabies were %60% digher and London unchanged to will be for an above Tuesday's close, influenced mainly by foreign news. Laverpool cabies were %60% digher and London unchanged to will have been an account was 212-been controlled by foreign news. Liverpool cabies were significant, with the Argentine harvest just beginning. We hear a good many advices from Red river vailey and South Dakota that 80 per cent of their wheat is marketed and that receipts from there are getting very light. Armour has been on the buying side. There has been wheat sold at 76% cand above. Northwest receipts were 732 cars, against 987 inst year. At primary points 1,10,000 bu. were received, against 1,056,000 a year ago. Clearances were 531,000 bu. New York reports 22 loads taken for export. Duluth reports 100,000 bu. sold for shipment. Cables report Argentine surplus as promising 62,000,000 bu. Estimated receipts for Friday, 90 cars.

CORN—Has been firm, both for cash and futures, the samples up 1,951c and the futures 4,641% higher. The best advance has been in January and December, although the irade in these months has not been large and the pit at times only half filled. The professional element inclined to be bearish on the May, but poor grading and weather have been against them so far. Primary receipts were 617,000 bu. against 344,000 last year. Local receipts were 185 cars, with 13 contract. Estimates for Friday, 175 cars. Clearances 25,000 bu. Cables were weak. The unsettled weather and prospects of mild have helped prices.

OATS—Have been strong for the May option, but have rather lagged for December. The market has acted somewhat as if the crowd was afraid of December deliveries. The strength of May has been in sympathy with corn and on the weather. Cash onto were are 21 curs standard out of private houses.

Market is Irregular, with Extensive

Trading in Manhattans.

NEW YORK, Nov. 28.—With few exceptions today's stock market was virtually a repetition of the first days of the week. There was the same irregular tone, with many issues under increased pressure. The only important development was the official announcement of the Manhattan-Interborough lease. Manhattan was again very extensively traded in and made an early rise of 1½ per cent, later advancing to 157½ and closing at 155%, a net gain of 2½ points on transactions considerably in excess of one-fourth of the entire day's business. There was much liquidation of Manhattan on the old theory that a stock is a sale when the good news is out. The only stocks that opened with a show of strength were Colorado Fuel, which continues to be the center of a fierce controversy, and Rock island preferred, which, after a brief period of heaviness, advanced 1½ per cent, and which closed with a net advance of 1 point. The international list was general licetric 135% Trinty 8 34 and 150% Pennsylvania 150% Adventure 15 Daly West 27% Daly West -Trading in Manhattans.
