Wheat Opens with Advance, but Reacts and Closes Lower.

LONG'S ERRATIC ACTION CAUSES SLUMP

Corn and Provisions Rise on Small Receipts, but Oats Face Good Cash Demand and Remain Unchanged.

CHICAGO, Nov. 28.—There was a fair trade in wheat today and after an early advance there was a reaction, and the close was weak, December being 1¼@1¾c lower and May ¼@¾c lower. December corn closed ½c higher, with oats unchanged. January provisions closed from 5@7½c to 12½c higher.

Heavy buying of May wheat during the first part of the session by the leading longs and later realizing on earlier purchases by the same interest, were the features in the wheat pit. Good weather in the northwest, with heavy receipts, together with lower cables, induced free selling during the first hour, but offerings were well taken, a prominent long adding considerable to his already heavy line. Other traders followed the lead, causing an advance in prices, but later, on realizing, there was a sudden drop and the close was near the bottom. December opened a shade to ¼@⅝c lower at 74⅝@74¾c, advanced to 75¼c, dropped back again to 74⅝c, closing ⅝@¾c lower at 74¼c. May closed ¼@⅜c lower at 76⅝c, after ranging between 76¼c and 77⅛@77⅜c. Clearances of wheat and flour were equal to 295,000 bu. Primary receipts were 2,129,000 bu., compared with 1,922,000 a year ago. Minneapolis and Duluth reported receipts for the two days of 3,166 cars, which, with local receipts of 169 cars, four of contract grade, made total receipts for the three points of 2,175 cars, against 1,674 cars last week and 1,642 a year ago.

Corn ruled strong the first part of the session, influenced by higher cables, smaller receipts and small Argentine shipments, but the weakness in wheat affected the market later, causing a considerable decline, and it closed with but a slight gain. December was very erratic, opening ¼@¾c higher at 54⅝@56c and on reaction sharply advanced to 56⅝c. Longs took profits at the advance and the market dropped back to 54c. A rally late in the day made the close ½c higher at 55c. May closed a shade higher at 42⅞c, after ranging between 42¾c and 43⅜c. Local receipts were 185 cars, with seven of contract grade.

Oats were quiet and featureless, with prices steady, the close on both December and May being unchanged. A good cash demand, together with early strength in other grains, were bull factors. December ranged between 31⅜c and 31¾c, closing at 31⅜@31½c. May sold between 32⅜c and 32¾c and closed at 32¼c. Local receipts were 175 cars.

Provisions were strong, the small receipts of hogs at the yards being the bull factor. Shorts were uneasy over the outlook and covered freely. At the same time there was increased buying for the long account. The demand for lard was especially good, with the nearby futures advancing sharply. January pork closed 12½c higher at $15.85, January lard was 10c higher and ribs 6@7½c higher at $8.20.

Estimated receipts for tomorrow: Wheat, 85 cars; corn, 380 cars; oats, 200 cars; hogs, 28,000 head.

The leading futures ranged as follows:

NEW YORK STOCKS AND BONDS.

Prices Close Higher in Spite of Unfavorable Developments.

NEW YORK, Nov. 28.—Prices of stocks closed today considerably higher than on Wednesday, in spite of some rather unfavorable developments and the continuance of some apprehension over monetary conditions. The advances were attributed to some extent to the demand from the short interests to cover. Inducements to do this were offered by the bidding up of prices by an element amongst the traders which set out to make a campaign against the bears. The short interest was known to have been accumulating contracts for a considerable time and their commitments were extended on Wednesday on the eve of the holiday. Today's trading, nevertheless, was dull, as shown by the total transactions, which did not exceed 500,000 shares. The attendance at the Board was small, many brokers having left the city on Wednesday evening to stay over the end of the week.

It was regarded as a favorable incident that the day passed without any additional pronouncement of hostility on the part of either side to the controversy for control of Colorado Fuel. The most notable demonstration of the day was in Louisville & Nashville, which was lifted nearly 7 points, carrying with it Southern Railway and Illinois Central in sympathy. The movement was unexplained except on the ground of comparisons contained in a recent circular of Moody's, which showed the stocks as compared with other dividend paying stocks. The movement in Sugar contained all the earmarks of a campaign against the shorts and the urgent demand at the last carried the price up over 5 points. Vague rumors of a deal accompanied the rise in Rocking Valley.

Another center of activity was in the local transactions. Brooklyn Transit at this time led the advance. Manhattan was very active, but fluctuated narrowly and showed the effects of realizing. Rumors were again circulated of a combination of all the local transit facilities, and a share in their control in the interest of Pennsylvania and New York Central.

The strength of St. Paul was due to the expectation that the directors would act on the authority to issue new stock at today's meeting. The stock ran off on the adjournment of the meeting without action. These various centers of strength helped the general advance in the market, which reached a point or more in a long list of stocks.

The market receded when the call money rate advanced to 6 per cent in the late dealings, but rallied again, and closed steady, under influence of a spurt in Sugar.

The preliminary estimates foreshadowed a poor bank statement tomorrow. These estimates extend only to Wednesday evening, owing to the holiday. Up to that time the banks had lost $3,000,000 net to the interior, including deposits for transfer to the interior. Today there was deposited in addition $500,000 for transfer to San Francisco and $100,000 for transfer to Chicago. The sub-treasury also had a credit balance at clearing house this morning as the result of accumulated revenue collections over the holiday. The interior movement of currency by express was small both ways and the receipts here on balance amounted to less than $100,000. New York exchange at Chicago also recovered today to 20c discount. Sterling exchange continued firm, but the retention of the 4 per cent discount rate by the Bank of England had a favorable effect.

Bonds were dull and irregular. Total sales, par value, $1,415,000.

United States 3s registered declined ¼ per cent on call during the week.
