CHICAGO, Nov. 28.—Applications for membership in the college conference made by Notre Dame and the University of Nebraska were rejected by the representatives of the "big nine" at their annual meeting here today.

RAIN AIDS DISTRIBUTION

Some Sections Get Footwear and Other Districts Winter Wearing Apparel.

COKE SHORTAGE STILL TROUBLES BADLY

Dun Reports Strong Sales of Woollens, but No Forward Buying of Cotton Goods, Though Current Trade Absorbs Supplies.

NEW YORK, Nov. 28.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Weather conditions have provided the only important developments of the past week in the business world. Excessive rains in some sections, notably the southwest, facilitated the distribution of heavy footwear and winter clothing. In other sections, however, the rain was less seasonally low temperature at other points increased the movement of winter wearing apparel. These influences, together with a large Thanksgiving trade in good products, have resulted in a materially jobbing and wholesale trade in fully maintained, and manufacturing plants have orders far ahead of their capacity to produce. The coke shortage retards operations. Plans have been made to make every effort to relieve the freight congestion, especially in the vicinity of Pittsburgh, but thus far there is little prospect of improvement. Gross earnings are fully maintained for November thus far, exceeding last year's by 6.3 per cent and those of 1901 by 14.4 per cent, while it is anticipated that higher freight rates will offset any advances in wages, sustaining net earnings.

Inquiries for pig iron become more urgent as the season advances. In many cases the coke shortage retards operations. Plans have been made to make every effort to relieve the freight congestion, especially in the vicinity of Pittsburgh, but thus far there is little prospect of improvement. Gross earnings are fully maintained for November thus far, exceeding last year's by 6.3 per cent and those of 1901 by 14.4 per cent, while it is anticipated that higher freight rates will offset any advances in wages, sustaining net earnings.

Machinery houses, boiler works and other makers of heavy hardware are all far behind with orders and practically every section of the iron and steel industry is in a state of active preparation. Numerous special additions to mileage, improved terminals and increased rolling capacity are being made at the shops for months to come.

MINOR METALS WEAKEN

Minor metals, on the other hand, are generally weaker. Silver bullion has fallen to much the lowest price on record, the intrinsic value of a silver dollar now being about 39 cents.

A distinctly firmer tone pervades the market for footwear, orders coming for leather freely for spring goods. The leading shoe manufacturers are making large lots of leather, especially hemlock sole, giving a firmer tone to the market and reducing stocks. Foreign buyers are in limited number and are inclined to place large orders for distant delivery of cotton goods, but a steady current demand fully absorbs the limited stocks.

TRADE FOR HOLIDAYS STRONG

Bradstreet Says All Indications Point to Unprecedented Sales.

NEW YORK, Nov. 28.—Bradstreet's tomorrow will say:

Warm weather has been and in some sections is the only apparent drawback to distributive trade, but early holiday buying has tended to minimize this deficiency. That a large, in fact, unprecedented, holiday demand will develop is confidently predicted, all sections of the country sending their orders far ahead of their capacity to produce.
