ALL KINDS OF GRAINS INCREASE IN PRICE

Wheat Heads Rise, but Corn and Oats Follow Close Behind and Provisions, Though Weak, Also Respond.

CHICAGO, Dec. 2.—Trading in both grains and provisions was rather quiet on the Board of Trade today, but a better tone was manifested, May wheat closing isc higher, with corn up ic and oats 1425 to better. January provisions were unchanged to a shade higher.

There was general selling early in wheat due to reports that the leading long operator had disposed of his entire holdings. Later a good demand sprung up on Bradatrect's report showing an increase of only 1,120,000 bushels it the world's stocks for the week, compared with an increase the corresponding week of last year of 5,250,000 bushels. Seaboard clearances of about 1,500,000 bushels of wheat and flour were also buil factors. There was some liquidation on the advance, but the clower at 745,675c, soid off to 75% and then advanced gradually to 75c, closing isc higher at 755,675c. Primary receipts were 1,232,000 bushels, compared with 1,490,000 bushels a year ago. Minneapoils and Duluth reported receipts of 1,012 cars, which, with local receipts of 86 cars—only 2 of contract grade—made total receipts for the three points of 1,103 cars, against 1,418 cars last week and 1,129 a year ago.

Corn was strong throughout the entire

respectively.
Estimated receipts for tomorrow: Wheat, 40 cars; corn, 180 cars; oats, 125 cars; hogs, 45,000 head. The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Yes'y.

stakes weighing from 1 to 1½ ibs., each, against 1,48 cars last week and 1,129 a year Corn was strong throughout the entire session, higher cables, unfavorable weather present and prospective, and a good cash as well as export demand combining to create a bullish tendency. Shorts were the best buyers and covered freely. The close was strong, with May up %c at 43%-613½c, after selling between 42%c and 43%c. Local receipts were 502 cars, with but 3 of contract grade.

Oats were fairly active and firm, with a good demand for May. There was considerable changing from December to May. Unfavorable weather, light receipts and the strength in wheat were the chief buil influences. May closed 140%c higher at 22%c, after ranging between 22%c and 25%c. Local receipts were 181 cars.

Provisions ruled weak, notwithstanding the small stocks of contract product, which were as light as had been anticipated. The liberal receipts of hogs with lower prices at the yards and prospects of a still further increase in the receipts on account of the exposition, were the weakening factors. The close was steady, January pork being unchanged at \$15.82%, while hard and ribs were each a shade higher at \$3.47% and \$3.50c; Reliated receipts for tomorrow: Wheat, Estimated receipts for tomorrow: Whea

NEW YORK, Dec. 2.—COTTON—Market opened steady at an advance of 2 polats and further advanced \$600 points on more active positions, with the improvement generally due to bad weather news from the cotton belt. The market was further assisted by the message of the president. Buying was still further stimulated by the assumption that the bureau report and crop estimate might fall as low as 9,900,000 bales, although from this figure local expectation ran as high as 10,000,000 bales, with perhaps 10,200,000 bales, the more popular figure looked for. The latter, subject to usual percentages of under-estimating by the government, might be construed as being in line with the crop estimates recently promulgated by the members of the New York Cotton exchange, the one being 11,077,000 bales, the other 11,190,000 bales. The entire "bureau" subject, however, left the cotton trade in a nervous frame of mind, and the forthcoming statement from Washington is looked to with much anxiety by all classes of operators. The local market for spot cotton advanced 5 points. The nearer positions on the future list continued to attract the attention of spot buyers, with some evidence of a large remaining special interest in January, which renewed careful attention to that particular position. The market was finally steady at an advance of 7611 points. Total sales estimated at 200,000 bales.

HOGS—There was the heaviest run of hogs here today that has arrived in some little time, but in spite of the fact that other markets were quoted considerably lower, prices here held very nearly steady It was rather un uneven market, though, so that while some sales were steady others of were fully 2½c lower. The general market could best be described by calling it a shade lower. The bulk of the hogs sold at \$5.07½
s and \$6.12 and a few choice loads sold at \$6.12½. The heavy packing grades sold from \$6.07½ down. Trading was quite active, so that the bulk of the early arrivals was disposed of in good season. As usual, though, many trains were late in arriving, so that the market did not come to a close until a late hour. The later sales were as a rule not as good as those made earlier in the day, as packers wanted to buy the last books around \$6.07½. Representative sales:

CHICAGO. Dec. 2.—WHEAT—The market has been strong and higher, notwithstanding the large zeiling by Armour yesterday and in spite of the open selling by the same interest today. The strength has been mainly on the large clearances—1.531-600 bushels, on the moderate increase in Bradstreet's and on the lessened primary receipts. Prices were also helped by supposed Armour buying through commission houses later in the day, and the market advanced about a cent for the May. The December discount widened to about 3½c under the May. Cables were relatively firm. World's visible increased 1.120.000 bushels, against 5.220.000 last year. Primary receipts, 1.328,000 bushels, against 1.492,000 a year ago. In the northwest 1.617 cars, against 1.015 last year. Contract slock. 3.335,000 bushels, increase 285,000. Minneapolis in three days increased its stock 990,000 bushels. New York reports 18 loads taken for export. Duluth says 200,000 bushels sold for shipment. Local receipts, 86 cars, with 2 cars contract. Argentine crop advices favorable. Weather had for movement; rain and snow predicted. Sample market has been active and strong. Estimates for tomorrow, 40 cars.

CORN—Market has been strong, helped by unfavorable weather, a small estimate for Wednesday and an advance of 1c in samples. The futures advanced %@1c. The trade has not been very large, but the buying has been better than the selling. Some of the local bulls who bought yesterday have taken profits. Local receipts, 302 cars, with 3 cars contract. Estimates for Wednesday, 180 cars. Clearances, 183,000 bushels. The contract stock is only 501,000 bushels. The contract stock is only 501,000 bushels, an increase of 85,000 bushels. East of the Rockies corn increased 226,000 bushels. East of the Rockies corn increased 226,000 bushels. The contract stock is only 501,000 bushels. The c Telephone 1516. Cables were steady, except for spot, which was 1503 c lower.
OATS—The market has been steady, with May oats 150 higher and cash up 150. The main feature has been buying by Howe. Local receipts, 181 cars, with 10 contract. Estimates for Wednesday, 125 cars. Contract stock, 1,590,000 bushels standard, increase 25,000 bushels. East of the Rockies oats decreased 32,000 bushels. Public and private stocks, 3,428,000 bushels. Public and private stocks, 3,428,000 bushels. decrease 537,000 bushels. Weather has been a factor in oats as well as in corn.
