Close of Last Week. NEW YORK, Dec. 8.-Business on the Stock exchange today dwindled to an ag-gregite of barely more than 200,000 shares sold. Even with this small total transacsold. Even with this small total transne-tions were considerably congested in a few prominent stocks. These were firm as a rule and their tone had a sympathetic effect upon the general list. Amaigamated Cop-per was a conspicuous teature and rose in common with the copper stocks at other important financial centers. A rumor of an approaching interests in the copper trade accompanied the advance. These rumors were denied in statements to which a semblance of omicial authority was given. trade accompanied the advance. These rumors were denied in statements to which a semblance of official autority was given. There was a rather violent advance also in the price of raw copper in London. Other centers of strength were the local Trac-tions, in which Alanhattan was the leader. St. Full was also advanced. The Hocking Valley stocks rose 2% for the common and 2% for preferred on renewed rumors of a project for change of control. A jump of 5 points in Great Northern preferred accom-panied an active demand for Northern Se-curities on the curb. At the same time there was some heavy selling of Oregon Short Line participating 4 per cent bonds, the collateral for which consists of North-ern Securities stock. The movement in the stock seemed designed to facilitate realiz-ing in the bonds. Today's market was practically made up of such movements in a few special stocks. Some favorable ef-fect was produced by the coid wave, owing to the stimulating effect likely to be pro-duced upon seasonable business. A large day's business was reported in exports of both wheat and corn, which served to em-phaiste the tavorable effect of last week's outward movement. Mexican securities were still under pressure on account of the depression in the silver market. The in-crensing supply of grain bills in the ex-change market was favorably regarded and there were large offerings also of loan bills by bankers, which the advancing rates for

## Whisky Market.

There was a liberal sprinkling of corn cattle in the yards and as Chicago was urally rather bearish. It was evident, how-ever, that they wanted the cattle, so that while some saics were fully low cover thers did not look much if any lower. It was rather an uneven market, with packers bearish on the good as well as on the com-mon stuff. So marky of the trains were late in arriving that the market was slow. Packers all beemed to have quite liberal orders for cows, so that all kinds sold freely at good steady prices. Buyers wanted the medium grades and canners as well as the better grades and there was very little change from the close of last week in the prices paid.

the medium grades and canners as well as the better grades and there was very little change from the close of last week in the prices paid. Bulls, veal calves and stags also sold without material change. There was not a very heavy supply of stockers and feeders and the market could safely be quoted steady on anything de-cent. Speculators carried very few cattle over Sunday and as a result they all though, was limited largely to the better grades, with the common stuff slow sale tor some time past. There were a few bunches of western grass steers offered that were good enough for killers and packers seemed to be quite anxiols for them and paid good steady prices. Range cows also sold freely at ast week's quotations and the same was true of anything desirable in the way or range stockers and ieeders. Kepresentative sales: BEEF STEERS.
