

Cancerous Ulcers

At first have nothing about them to indicate their true nature. They look like ordinary sores and are usually treated as such, some simple salve, wash or powder being used in the hope of drying them up and stopping the discharge...

SSS

All ulcers, even the smallest, should be looked upon with suspicion and treated promptly before they become cancerous.

The severe weather has brought a serious problem to many of the principals and teachers of the city schools, not only in necessitating the absence of many of the poorer children, but in bringing to their attention the suffering of the many little ones, too young to be in school, that are in a large measure their charges.

SOUR STOMACH (Acid Dyspepsia)

Now Recognized as the Cause of Serious Diseases. Acid Dyspepsia, commonly called heartburn or sour stomach, is a form of indigestion resulting from fermentation of the food.

It is now well known among able physicians that the whole constitution is gradually undermined and weakened, that the various vital organs are seriously affected by any form of dyspepsia. This is plain, as every organ, every nerve in the body is nourished by the blood and the blood is replenished from the food digested.

Stuart's Dyspepsia Tablets have been placed before the public and are sold by druggists everywhere at 50 cents per package, and while it promptly and effectually restores a vigorous digestion, at the same time it is perfectly harmless and will not injure the most delicate stomach.

THE SUGGESTION HAS BEEN MADE BY ONE OF THE teachers that an annual exhibition be inaugurated of the work of the city schools; that it be held down town, where it may be convenient to all, and especially that the children be encouraged to attend it.

Many other efforts are being made among the pupils that are wholly misunderstood by many parents, and it is believed that if the results of this training, together with the various steps as accomplished in the different grades, might be exhibited and intelligently explained to the patrons, teachers and pupils would receive their much-needed encouragement and help in place of the frequently severe criticism that they now have.
