How to Avoid the Dangers of a Cold.

Everyone must realize the dangers attending a severe cold and that it is always prudent to remain indoors until the danger is passed. Many, however, do not feel able to lose the time and will be interested in knowing that a severe cold may be broken up and all danger avoided by the prompt use of Chamberlain's Cough Remedy. It not only cures, but cures quickly and counters any tendency toward pneumonia.

Announcements of the Theaters.

At the Boyd this afternoon and tonight will be presented one of Hoyt's most successful comedies, "A Stranger in New York," with special scenery, catchy music, handsome costumes and novel effects.

The piece is in three scenes. The first act is an exact representation of the ladies' parlor in the Hoffman house, while the second act is laid in the tower of Madison Square garden, New York, showing the hallway and three working elevators. The cast is said to be strong.

The Orpheum will give its regular Saturday matinee this afternoon, and this week's bill will be brought to a close tonight.

Valerie Bergeron will open her engagement of a week commanding matinees tomorrow. She is no stranger here, having appeared as "Madame Butterfly" in the curtain raiser of that title. She was also seen here as Cora in "Naughty Anthony." For the coming engagement she will present "Billie's First Love," a playette by Grace Griswold. In her supporting company are Munife Johnston and Miss Bella Stoddard. Another prominent feature of the bill will be the Miles Stavordale quintette, an organization unique of its cast. It is a banjo organization, and to hear them without seeing them the impression would be created that they were playing on violins. They make use of the instruments that are a feature of the English "Joss," and with them produce sounds that attract widespread attention. At the Empire Music, London, and Hammerstein's Olympia, New York, they were big "hits."
