M BROADWAY, COUNCIL BLUFFS, IA. LEWIS CUTLER

MORTICIAN. Pearl St., Council Bluffs, 'Phone 27,

FINDS HIS STORE LOOTED

Troubles of Storekeeper Are Coming Much Faster Than is His Due.

BOYS GIVE HIM A CHASE IN THE EVENING

Store Robbed at Night, but Fortunately Most of the Goods Are Recovered-Boys Are Credited with the Job.

E. Pill, who conducts a small general store at Twentieth street and Sixth avenue, of the United States district court in the has for some time been on bad terms with a number of boys in that neighborhood. The boys in question have seized every opportunity of annoying Pill and as far as possible making life a burden to him. The climax was reached Thursday night when the gang of youthful tormentors invaded his place of business and started to raise a rough house. Pill, anxious to get rid of hem, gave chase to the gang, but they were too swift for him and he gave up the pur-

He returned to the store out of wind and likewise short on patience, and decided to close up the store for the night. When he opened it up yesterday morning he discovered that during the night the place had been robbed of about \$80 worth of goods. Not only had the thieves made way with a quantity of mittens, underclothing and canned goods, but evidence was there to show that they had held carnival in the place. They left traces to show that while in the building they had enjoyed an impromptu supper of ple, canned goods and other delicacies supplied by the store.

Pill estimated that the goods taken from the store amounted to about \$80. With the exception of some cheap jewelry the police yesterday recovered most of the stolen goods. Part of the plunder, consisting of the mittens and underwear, was found in a freight car on First avenue, while the greater part of the balance of the stolen articles was found under the electric light tower at Twenty-first street. Some of the canned goods were recovered nearby on Fifth avenue. The police are of the opinion that the robbery was the work of the boys who had been tantalizing Pill, and several arrests are expected today.

mission was to reform the world. Hancher ONE-HALF OF THE CORN REPORTED SOFT

Excessive Hains Had Bad Effect on the Farmers-Some Compensations Are to Be Found.

(From a Staff Correspondent.) DES MOINES, Dec. 12 .- (Special.) -- Following is a summary of crop reports re eived from the correspondents of the lowa DES MOINES, Dec. 12 .- (Special.)-The Weather and Cçop Service, showing the average yield per acre and total for the state tent with the decision of Judge McPherson of staple farm products for the last season and the average prices at the farms or nearmatter of the injunction against strikers est station December 1, 1902. As the larger issued by Judge Sanborn at St. Paul. Judge McPherson threw the case out of portion of the season's output will be concourt for lack of jurisdiction. The suit was sumed on the farms, and marketed in the form of beef, pork, mutton, horses, dairy brought not by the telephone company proper, but by the trust company which and poultry products, etc., the actual value has a mortgage on the property. Judge of the crops is materially higher than is McPherson held that the interests of this shown by the figures representing the local

McPherson held that the interests of this it rust company in the securities of the telephone company were not sufficient to establish jurisdiction for this court in such a case, but he gave the attorneys fifteen a case, but he gave the ten-year average the yield prices obtainable at his time:

The Corn Crop—In bulk, expressed in bushels, the corn crop is reported to be a little above the ten-year average the yield prices obtainable, and the corn crop is reported to be a little above the ten-year average the bushels, and the total for the state, grown on an area of about \$,700,000 acres, is 198,550,220 bushels. On account of the unfavorable character of the crop sesson and the unusually variable condition of the corn crop, a special report was called for in answer to inquiries as to the accuracy yield of hard and soft corn, the percentage that is sound and merchantable, the local price of sound corn and the feeding value of the softer portion of the crop. The tabulated reports show trust company in the securities of the tele- prices obtainable at this time: 94,000,000 bushels. is wanted in Omaha for the theft of two

Average Local Price.

valuable sealskin coats from one of the The average local price of the sound corn is reported to be 35 cents per bushel and the average feeding value of the softer portion is estimated at 22 cents per bushel. This serves as a basis for estimating the total value of the corn crop this year in round numbers at \$83,900,000. Last year the yield was 227,000,000 bushels and the value 313,000,000. In 1900 the total yield was 345,000,000 bushels and the value at the current prices \$83,000,000.

Wheat—The acreage of winter wheat is small and the total yield appears to be only \$25,045 bushels, an average of eighteen bushels per acre. In apring wheat the yield is thirteen bushels per acre and a total of 12,680,800 bushels. The total yields of both winter and spring wheat is 13,532,845. The quality of wheat is generally poor, on account of the very wet harvest, and the price of winter wheat is reported to be 55 cents and spring wheat is reported to be 55 cents and spring wheat is cents. The total value of the crop appears to be \$7,062,640. Last year the yield was \$19,976,000.

Onts Suffer Greatest Damage. leged to have made way with the coats and left the city immediately and have not been seen since. Mrs. Prince was formerly well known here, having lived here with her husband for several years. He was The State Board of Control and the superintendent of the state hospital at Clarinda have arranged for the placing of | pital, the first of its kind to be in operation for the state of Iowa. The building for this purpose is now nearly completed at a cost of \$7,450. During the winter the plant will

Oats—This crop suffered greater damage than any other cereal from effects of excessive rains, and it has been impracticable to secure reports as to the extent of total loss and the quality of the grain that was secured in condition to repay the cost of threshing. The returns from correspondents indicate an average yield of thirty-one bushels per acre from the portion of the crop that was secured and threshed. Making a liberal deduction from the acreage planted in each county, we have a total of 92,907,990 bushels, as against 114,000,000 bushels last year and 128,000,000 bushels in 1900. The average local value of this year's product appears to be 24 cents per bushels and the total 322,297,390. Last year's oats crop was valued at \$40,209,000.

Barley—Estimated yield per acre twenty-five bushels and the total yield 15,380,940 bushels, valued at 32 cents per bushel, or a total of \$5,057,710. Last year's crop was 14,654,000 bushels, worth \$6,447,000.

Rye—Average per acre seventeen bushels and total yield 82,330 bushels, worth 40 cents per bushel, or a total of \$33,132. Last year's crop was 859,630 bushels, valued at \$411,762.

Flax—Product, 725,350 bushels, valued at \$411,762. Onts Suffer Greatest Damage. The board of directors of the State Hormorning ordered the secretary to prepare and issue bulletins from time to time on matters of interest to horticulturists. This is a new departure for the society. The bulletins will not in any sense take the place of the regular annual reports. It is probable, also, that the society will hold an annual summer meeting hereafter, something which has not been done for some years. If this is done a popular program will be arranged for. The calling of this

year's crop was \$59,630 bushels, valued at \$411.762.

Flax—Product, 725,350 bushels; yield per acre, eight bushels; value about \$1 per bushel. Last year's crop \$16,530 bushels. Worth \$1,182,000.

Potatoes—Product ninety-one bushels per acre, or a total yield of 12,061,670 bushels. Price, 31 cents; total value, \$4,97,567. Last year's product 5,098,000 bushels, valued at \$4,588,000. In 1900 the crop was 10,850,000 bushels, worth \$4,340,000.

Tame Hay—Product, 4,439,040 tons, an average of 1.8 tons per acre. Value \$6.90 per ton, or a total of \$30,171,592. Last year's output was 3,711,000 tons, valued at \$30,721,000.

Wild Hay—Average yield 1.3 tons per acre, or a total of 1,202,560 tons, worth \$5.50 per ton, or a total of \$6,615,780. Last year's product 1,268,700 tons, worth \$7,302,000.

The estimated value of sweet potatoes is about \$120,000. Sorghum, \$250,000. Beroom corn, \$40,000. Timothy seed, \$750,000. Clover seed is unknown and not ascertainable as to value.

Corn fodder in shock and fields probably worth half as much as last year, or about \$10,000,000.

Pasturage was bulky early and late and worth at least \$35,000,000. Fruits and vegetables are estimated at \$9,500,000 which is a conservative figure.

Tabulated Crop Summary. Total Product, Bushels. 296,950,220 13,532,845 52,907,960 15,380,940 Dec. 1, 1902 5 \$3,432,708 7,062,640 22,297,900 5,075,710 12,051,670 *4,439,940 *1,202,860 orghum Broom corn Telegram.)—Stephen Kinney, a farmer, was Timothy seed.

killed today while moving a barn on his Total value \$215,722.339 As to the corn crop, it is proper to add that a considerable percentage is still ungathered and subjected to the vicissitudes of the weather, which at this time is unfavorable for securing the full product. The figures as to all the crops are subgram.)-A. R. Ahrens, merchant, has assigned. Assets, \$9,036; liabilities, \$16,860.

nitted as the best that can be secured at this time, under exceptional conditions.
The grand total for last year was \$274,000,000, and in 1900 it was in round numbers
\$220,000,000.
