Two Thousand of Sultan's Troops Blain or Wounded by Rebel.

REPORT OF TAZA BATTLE CONFIRMED

Imperial Assembly Drives Away in Greatest Disorder.

GATES OF FEZ CLOSED AGAINST ENEMY

European Colony of 500 Persons Are Be-leaguered in Town.

POPULACE IS SAID TO BE DISLOYAL

Pretender is Advancing Upon the City with a Horde of Followers and Situation is Decidedly Critical for Those Within Walls.

LONDON, Dec. 28.—The complete rout at Taza of the Moorish imperial assembly by rebels under the leadership of the pretender to the throne, which was reported December 23, has been officially confirmed. The imperial forces abandoned their guns, rifles, ammunition, tents and beasts of burden and fled precipitately to Fez.

TANGIER, Morocco, Dec. 28.—On December 23, 10,000 Moroccan troops, commanded by a brother of the sultan, minister of war, received orders to concentrate and take the offensive against the pretender at Taza. Before the Sherifians moved upon him the pretender attacked them with large bodies of cavalry. The imperial army was surrounded, completely routed and fled in disorder toward Fez, abandoning all materials of war. The first fugitives arrived at Fez on the morning of December 24.

The gates of Fez at present are shut. Shops there are closed and the population is greatly excited, but there has been no disorder.

The European colony of Fez, embodying about 500 persons, is taking no steps to leave the town and appears to be satisfied that it is in no imminent danger, although the situation is regarded as serious. It is said that the pretender's followers have received numerous additions since his success and he is already negotiating with the tribes of the Wadnaweb valley. The population of Fez is reported to be generally hostile to the sultan and ready to acclaim any pretender who will guarantee the town from pillage.

No details of the imperial losses have yet been received here, but it is rumored that 2,000 of the sultan's soldiers were killed or wounded. The rebels are now trying to minimize the disaster. It is said that a section of the imperial troops sent as reinforcements deserted to the rebels and aided in driving the local troops back to Fez.

REBELS ADVANCING UPON FEZ

So Says London Times Correspondent Who Flees from City, Which He Declares is Disloyal.

LONDON, Dec. 28.—In a dispatch from Fez, dated December 23, the correspondent of the Times declares he believes the situation to be critical.

"I have reasons to doubt the loyalty of the inhabitants of Fez," says the correspondent. "Both the government and the Europeans here ridicule my anticipation of an acute crisis and my estimate of the pretender's strength. I am leaving Fez immediately."

"The Times is publishing a dispatch from Tangier, dated December 27, in which the correspondent says:

"I got away from Fez just in time. I arrived here this morning with the first news of the advance of the rebels. It is reported to be marching on Fez, which is incapable of defense for more than a few days, owing to its position, the absolute lack of a supply of provisions and the ruinous state of the town walls.

"The population will remain loyal only as long as the sultan can protect and feed them. A few days of siege means starvation. The sultan may attempt to escape, but in that case the populace will recognize the pretender.

"The sultan's troops were disastrously routed, the remainder fled to Fez, abandoning everything, artillery, tents, rifles, ammunition, money and stores. Practically the whole army was routed, as comparatively few troops were left in Fez.

"The road from Fez to Tangier is open and safe at present, but the pretender's prestige will receive an enormous stimulus and loyal tribes will join his cause. If the sultan escapes or can defend Fez, the south will support him, in which case civil war is inevitable.

Mr. Harris, the correspondent of the Times at Fez, is said to be a confidential adviser of the sultan of Morocco.

MANILA, Dec. 28.—The United States transport Sherman struck a rock near San Bernardino light, south of Luzon, Friday night.

The transport sustained a heavy shock and some of its plates were damaged. The accident, however, was not serious. The ship was damaged in its forward bilges, but was controlled by steady pumping. The steamer proceeded for Manila under its own steam and arrived here today.

When Sherman struck the passengers on board were terrified, but their nerves were promptly taken their stations with life preservers on in the small boats. The officers of Sherman handled the situation splendidly.

The ship was not damaged and it probably will not be necessary for it to dock at Hong Kong.

The tea merchants, jobbers, grocers and others interested will endeavor to induce the government to withhold such action, which has come upon the market like a thunderbolt. HUMBERTS NEARING PARIS

French Capital Agog with Expectancy Over Their Approach.

AUTHORITIES ARE GROWING ANXIOUS

Attempts to Bring Them Secretly Behind When Train Crossed Spanish Frontier and Its Delay Became Known.

PARIS, Dec. 28.—The train bringing to Paris the members of the Humbert family, who were arrested in Madrid, was due to arrive at 4:32 tomorrow morning, but owing to its some attractive features, was tendered me. I asked time to consider, which was granted, following which I accepted.

There has been no friction between myself and the Humbert & Rio Grande officers. Salary was the paramount issue with me. There is absolutely no friction as between the Colorado & Southern and the Denver & Rio Grande interests. I have placed my resignation as director of the Colorado Fuel and Iron company in the hands of Mr. Clement, who is Mr. Gould's representative in that company, for such action as he deems advisable.

Mr. Herbert said further that the report that General Hawley had in any way influenced his appointment with the Hawley roads is unfounded.

"It has been said," said Mr. Herbert, "that such was the case, and that the recent Colorado Fuel and Iron company fight prompted this. There is absolutely no particle of foundation for such a report. I am Mr. Trumbull's appointee. I never had any conference with Hawley, and will have nothing to do with him when I accept my new position."

HE APPEALS FOR PUBLIC'S AID

Caleb Powers Seeks Assistance from People Outside of Kentucky to Pay for His Defense.

GEORGETOWN, Ky., Dec. 28.—Ex-Secretary of State Caleb Powers, who has had two trials and now awaits in jail here his third trial for complicity in the murder of the late Governor William Goebel, today issued the following appeal to the public:

"I have had written a number of letters to different states asking for financial aid in my coming trial for alleged complicity in the Goebel murder. A portion of the press has, through a misunderstanding of the facts, attempted to thwart my plan for raising the money needed to enable me to defend myself, by circulating a report that these letters were not genuine because signed by different persons for me.

"It is true that many of the letters were signed by different persons, because it was impossible for me to get to any one of them in the limited time before my next trial, but all of these letters are genuine. I have been continuously in the jail of this state for nearly three years. My name is on the list of the names of the men who have had the honor of being tried in the Goebel case. I am a former so-called trial. In a few weeks I am again to be tried for my life. Hence my appeal now to my friends outside of Kentucky."

IMPETUS TO COKE INDUSTRY

Cessation of Service of Frick Company to Consumers Results in Establishing New Ovens.

PITTSBURG, Dec. 28.—With the closing of the present year the H. C. Frick Coke company ceases from the service of the general coke consumers of the country and will devote its energies to supplying the constituent companies of the United States Steel corporation.

The removal of this large supply of coke from the independent field has done more to stir up capital for new coke operations than anything that has occurred in years. During the past month or six weeks there have been several public announcements of the plans of new corporations to develop coking plants in the western Pennsylvania field, as well as in West Virginia.

The latest to appear is that of the Union Coke and Coal company of New York. This corporation has been formed during the past few weeks by eastern men and has secured 2,300 acres of fine West Virginia coal land along the line of the West Virginia Central railroad. The first part of the coal was shipped to the new company will contain no less than 1,600 ovens. The capital of the company for the present will be \$2,000,000.

St. Paul Citizens Witness Opening of Magnificent New People's Church Costing Over \$100,000.

ST. PAUL, Minn., Dec. 28.—The new People's church, which replaces the structure burned about a year ago, was opened today with appropriate religious ceremonies. The church is an imposing structure, erected at a cost of over \$100,000, and is unique in that its interior decorations pay tribute to great teachers of all recognized religions and creeds. Placed at intervals around the semi-circle of the auditorium are two tiers of stained glass windows that have been given to the church by the various nationalities and religious denominations of St. Paul. There, in their own Hebrew, Roman Catholic, Italian, Swiss, German, Methodist, Congregationalist, Unitarian, Baptist, Presbyterian, Bohemian, Sweden, French, Irish, English, Norwegian and Afro-American.

Other windows represent missions, patriotism, labor, the great teachers (which bear the names of Zoroaster, Confucius, Buddha and Mohammed), philanthropy and invention.

The great pipe organ, to cost \$10,000, is to be installed later.

MEXICO'S PLAGUE ABATES

MATZLUNG, Mexico, Dec. 28.—There is better feeling now that the plague has somewhat abated. The energetic measures taken by the authorities had excellent results. The deaths are diminishing, only four being reported on Thursday last and during the subsequent days but few cases.

MINERS WILL ASK MORE PAY

Secretary of Illinois Workers Says Operators Are Making Greater Profits Than Ever Before.

SPRINGFIELD, Ill., Dec. 28.—W. D. Ryan, secretary-treasurer of the United Mine Workers of Illinois, in a statement today, says that the miners of the United States will make a demand for a material increase in wages at the national convention at Indianapolis on January 19.

Mr. Ryan says that the operators are receiving a larger price for coal than ever before, and they cannot make the excuse that the mines are not paying expenses.

Mr. Ryan says that the convention will produce figures to show the total cost of mining a ton of coal and give the public an idea of the profit being reaped by the operators. Mr. Ryan will attend the convention and no doubt lead the fight for higher wages.

IRRIGATION MORE POPULAR

East is Waking Up to the Fact Reclaiming of Arid Land Helps All.

FIGHT WITH SPECULATORS COMES NEXT

Already This Class is Grabbing Up Every Acre Possible and Some Means Must Be Taken to Head Them Off.

(From a Staff Correspondent.) WASHINGTON, Dec. 28.—(Special.)—The great work which the national government is just embarking upon (the subjugation of the American desert) is being discussed by the entire western half of the United States, and was brought into particular prominence by the recent national irrigation congress held at Colorado Springs.

The west has so long striven for some assistance from the government that its people can hardly realize that congress actually did make an appropriation of about \$5,000,000 for constructing irrigation reservoirs and providing, further, that the proceeds from the sales of all western public lands, as received year by year, shall be used for such development. Even western senators and congressmen who might be thought to have known the temper of congress on this subject, have expressed the greatest astonishment that such a bill should have really received the votes of a majority of congress. They had, however, upon the change of sentiment, as the question became better understood, and the support which eastern men have been giving the irrigation movement the past few years since the capture of the great manufacturing centers have considered the possibilities of arid America and have actively forwarded the proposed plan to reclaim the western deserts and thus create new home markets for the sale of their goods.

The eastern agricultural opposition, too, it seems, has largely disappeared since it is seen that irrigated products will not come east to compete with eastern farm products, but will find a market in the Orient, and that when the eastern manufacturer sells additional goods in the west he will have to employ more factory hands and that eastern agriculture will be stimulated to feed them. Trade is the life of the land, and the motto suggested by speakers at the recent irrigation congress that "trade follows the irrigation flag," is appropriate and ardent.

Keep Speculators Out. Now the great question is to save these irrigable lands from speculators. While the people of the country are completely sitting back, waiting for the national irrigation act to go into operation and populate the deserts, the land grabbers and speculators are absorbing, by fair means or foul, and as rapidly as possible, every acre of good land which there is any possibility of irrigating.

The national irrigation act is as well guarded against speculation as it was possible to frame a law under the existing conditions, but the men who have had the interests of the west and the nation at heart pointed out at the time of the passage of the act that to safeguard the public domain and their reservation for actual settlers the desert land law and the conditions of the Homestead law must be repealed. The activities of the land sharks since the passage of the irrigation law show the necessity for their repeal forthwith. Under these laws millions of acres of the nation's best remaining lands have been during the past year absorbed by big stock concerns and fraudulently acquired, at that.

A strong effort will be made at the present session of congress to secure the repeal of these laws. Several bills looking to such a result have been introduced, and they will be urged. Needless to say, too, they will be urged by those who have interests which wish no interference with their schemes for gaining control of as much land and water in the west as possible.

FRATERNALS NOT INTERESTED

Denial of the Statement They Are Behind the Prosecution of Mrs. Lillie.

DAVID CITY, Neb., Dec. 28.—(Special.)—The Lillie murder case is the chief topic of conversation, and some heated discussions are held. An Omaha paper of yesterday morning stated that the fraternal order of which Mrs. Lillie was a member were responsible for the arrest of Mrs. Lillie. The Bee reporter yesterday interviewed the head officers of these orders and they all say the statement is incorrect and unanimously say that they had nothing to do with the matter either directly or indirectly.

Some of the members of the Women's Christian Temperance union are taking quite an interest in behalf of Mrs. Lillie, and boldly assert that she is wholly innocent of the crime charged. A large number of the members of the Women's Christian Temperance union are keeping "hands off," and since Mrs. Lillie's arrest, want a complete and thorough investigation made, that her guilt or innocence may be determined by the court. It is asserted that Mrs. Lillie is ready to furnish her with funds to aid in procuring the best legal talent obtainable.

Mrs. Lillie went to Bellwood Wednesday evening to spend Christmas with her father, James Hill. She will return tomorrow morning in time for the preliminary hearing.

It is expected that a large crowd will be in attendance when court convenes tomorrow morning.

WOMAN CHANGES MIND AGAIN

Renews Charge of Murder Against Her Husband, but Authorities Do Not Believe It.

GRAND ISLAND, Neb., Dec. 28.—(Special.)—In the case of G. A. Baxter, the aged negro charged by his wife with the murder of their 4-month-old babe, who was induced to plead guilty to the charge of manslaughter, though he insisted on innocence of the crime, was now said to have inclined to ten years in the penitentiary and then exonerated by the testimony of the same woman who had made the charge, an application has now been filed in the district court asking to withdraw the plea of guilty, and asking that the case be reopened.

Judge Thompson will take the case under advisement until January 5. County Attorney Horth states that he will not prosecute the case any further; if the plea is set aside and the sentence canceled, he will permit that, to set the case, though the woman is now said to have inclined to her first story. Since then, however, she has been in the jail with her husband, having for a time no other place to be housed.
