LONDON, Dec. 26 .- The Hamburg Chamber of Commerce has published its annual report of the commercial situation in Germany.

It comments with regret on the continuance of a condition of economic depression, condemns the protectionist demands of the agrarians and asserts that an unfavorable conjuncture has been gravely accentuated by the uncertainty prevailing in regard to the future commercial treaties.

Concluding its review of the situation, the chamber addresses an energetic appeal to the German press to refrain from attacks on Great Britain and urges that in an economic respect, and especially in regard to its colonies, Great Britain must continue to be the model which Germany should strive to imitate.

In the Expansion of Every Line of Business. Says Bradstreet.

UNPARALLELED ADVANCE EVERYWHERE

To Say Year Was Best Country Has Experienced Does Not Suggest Enormone Steldes United States Took in All Callings.

NEW YORK, Dec. 30 .- Bradstreet's review of the business year, to be issued Saturday next, will have the following:

view of the business year, to be issued Saturday next, will have the following:

To say that 1902 was the best year this country has ever experienced, while truthful enough in the main, does not suggest fully the enormous strides which the United States took in the year just clossed.

Practically every branch of ordinary trade and manufacture shows an increase above the best of previous years and yet this immense enlargement of output was not sufficient of fixelf to satisfy the growing, it unight be even termed insatiable, demand for all grades of materials.

In many cases the usual foreign outlets for our products was, perforce, neglected by American producers, who confined their efforts to supplying insistent domestic demand, while in others foreign production was called upon to reinforce domestic output with the result that new currents and channels were created in our foreign trade.

Our export trade, therefore, shrunk, while our imports expanded to unprecedented figures. The railroads of the country, in their efforts to handle the business offered them suffered as never before from congestion, and complaint of interference with products of the farm and the loom was practically universal.

Universal unrest was naturally marked as it always is in times either of prosperity or of depreasion, and serious disorganization of the country's basic industries resulted for a time. In many cases, however, resort to extremes was avoided or rendered unnecessary by ilberal recognition, by changes in the manner of living, and it is safe to say that two men obtained higher wages, or had their working time reduced without resorting to strikes for every one who quit work.

Speculation, it is true, felt the checks imposed on it by conservatism, by short crops in the preceding year and last, but not least, by high rates for money; but despite the fact that stock market operations were only about one-half those of 1901.

All this was accomplished with a minimum of friction, as reflected in the form of business embarrassments.

ng of the cabinet was brief, the session consuming less than half an hour. All the members, excepting Secretary Shaw, who is in New York, were present. The president and his advisers exchanged felicitations upon the results of the last year's administration and looked forward with hopeful anticipation to the events of the new year. Secretary Hay had little new to present to the cabinet on the Venezuelan

GOODNOW IS UNDER CHARGES American Consul General at Shanghai is Alleged to Have Demanded

Excessive Fees.

WASHINGTON, Dec. 30 .- John Goodnow, United States consul general at Shanghai, has been made the object of formal attack by the American pasociation at Shanghal, and the charges will be duly investigated. The principal charge is connected with the transfer from the Chinese to the American flag of a vessel. It is alleged that the consul general charged excessive fees for his part in the transfer. Again it is charged that he refused to perform his basis, owing to the recent great fall in the duty in ordering a court of inquiry to examine into the facts connected with the wreck of the ship

Mr. Goodnow has put in a vigorous defense, asserting that the first charge, based principally on the affidavit of a Chinaman, is untrue. To the second he replies that 1903 provides for laying down immediately he was not approached by any authorized we battleships, one armored cruiser, two person to order the court. Gambling resorts and disorderly houses. the report says, flourish just outside the yards, especially when one of the war vessels is in port, and as the government has no other means of protecting the men from the attendant evils it was decided to force the local authorities to take action by keeping ships away from the yard.

WHIPPING POST FOR STRIKERS That is Punishment Which Chinese Judge Imposes on Engineer Who Quit to Force Wages Up.

WASHINGTON, Dec. 30 .- Punishment of 100 blows and two weeks' imprisonment was the sentence of a Shanghai court in a recent case of an engineer who left his employers without due notice. Because other employes of the company profited by an advance of wages in which the engineer was omitted, the defendant, in company with seven other engineers, struck. The company prosecuting the case con-

tended that as the men were employed by the month they should have given a month's notice of their intention to leave, a position which was upheld by the court. Warrants are out for the other strikers.
