

CONFERENCE ADJOURNS AGAIN

Negotiations for Settlement of Union Pacific Strike Are Protracted.

LEADERS MEET OFFICIALS NEXT TUESDAY

Comparison of Proposed Agreements Show Company Holding Out for Piecework and Retention of Local Breakers.

From this message, which left New York at 10:40, eastern time, last night, it is evident that the Union Pacific officials have not come to a settlement with the strikers...

Mr. Wilson, fourth vice president of the International Association of Machinists, is in New York as one of the conferees...

This dispatch comes through the Associated Press: NEW YORK, Jan. 2.—Another conference was held this afternoon at the Union Pacific railroad office in New York...

Local strike leaders have been advised by their representatives in the east that indications point to the piecework proposition...

SAVE FOR SCHOOL DISTRICT

Superintendent Finlayson and Chairman Stubbendorf Are Credited with Good Work.

Said a member of the school board, in speaking of the last annual report:

"Public account, perhaps, ought to be taken of the fact that while the expense of running the public schools in Omaha has largely increased during recent years, at one point there has not only been no increase, but a material cutting down of expense.

The figures speak for themselves when it is noted that the buildings were never in so good repair as at the present time. More than to any other one man credit is due for this favorable showing to Superintendent of Buildings Finlayson, who may not be much of a politician, like some others of the school board employees...

Mr. Wilson, fourth vice president of the International Association of Machinists, is in New York as one of the conferees...

GREAT LOCOMOTIVES ARRIVE

Four of the Largest Size Made Are Put on Burlington.

SIXTEEN MORE TO COME FOR SAME ROAD

Each of New Engines Has Total Weight, Counting Tender, of Over Two Hundred and Fifty Thousand Pounds.

Four of the largest size locomotives made came into Omaha yesterday. They are the property of the Burlington, the first installment of a consignment of twenty which have recently been completed in the east.

The other engines are to come as they can be released by the makers and put into use without delay. The need for them is imperative. The Burlington, like every other growing railroad in the country, has been in dire straits for motive power for many months.

Each of the new engines pulls down a total weight, counting the tender of 233,450 pounds. The drive wheel is of the 54-inch standard and there are 85,850 pounds on the drivers. The weight of the tender, loaded, is 99,400.

Comparison with Old Engines. These figures show a mammoth structure. Some of the heavy engines now in use by the Burlington weigh in the neighborhood of 185,000 pounds. It can be seen what a difference in the capacity there is between the old and new locomotives.

The rule now is with all roads to increase the engine capacity, and with many to reduce the number of engines. As a result of the annual report of the Union Pacific that road reduced its number of engines during the fiscal year ended June 30, 1932, about 5 1/2 per cent and at the same time increased its aggregate motive power by 9 1/2 per cent.

These facts account in a measure, if not entirely, for the serious financial straits in which the Burlington finds itself. With the enormous increase of engine power comes to them more arduous tasks and for this they naturally want more pay. But one of the worst features from the trainmen's standpoint is that it means the material reduction of train crews. Larger engines will haul larger trains and fewer trains will require fewer train crews.

These facts account in a measure, if not entirely, for the serious financial straits in which the Burlington finds itself. Our Great End-of-the-Season Sales

Are Now in Full Force. Saturday They Reach the Very Height of Bargain Giving Strength.

We are making short work of all broken lines and odd lots and have priced everything accordingly.

These sales affect every section, and there is hardly an article in the entire store that cannot be bought at a great saving.

Of course there's a loss, but then that's a penalty we expect to pay where such an enormous business is carried on.

The losses of today are offset by the profits of the past, and that's why you'll find in a great many instances merchandise priced at less than half.

It's an unwritten law in this store that goods must not be carried over from one season to another.

Hence the unparalleled values.

Nebraska Clothing Co. CLOTHES FOR MEN & WOMEN

Unlike all the So-called Creams, Lotions and Cures

HOWELL'S ANTI-CHAPPIN 25c Bottle. Howell Drug Co., 16th and Capitol Avenue.

After washing the hands and face and drying use

KUHN'S GLYCEROLE OF ROSES 25c Per Bottle. Ask for it.

ATTENTION!

NO POISON Has Ever Been Found in the Enamel of AGATE NICKEL-STEEL Kitchen Utensils

The BLUE LABEL Protected by Decision of United States Court Pasted on Every Piece PROVES IT.

If substitutes are offered, write us This trade-mark is on every piece of genuine Agate Ware.
