

CASTRO PROPOSES A PLAN

Wants Question Left to One of the American Republics.

HE IS NOT LIKELY TO BE INSISTENT

Sincerely Any Doubt is Felt that All Parties to Controversy Will Finally Agree Upon The Hague Tribunal.

WASHINGTON, Jan. 2.—The condition which President Castro attached to his response to the allies' arbitration proposal was in the nature of an alternative proposition.

Almost from the beginning showing an aversion to The Hague tribunal, Castro, while accepting the principle of arbitration, asked that the case be tried by one of the American Republics.

As President Roosevelt already had declined to act in the capacity of arbitrator and as some of the reasons which inspired him in his declination would apply with equal force to the chief executive of any other American state, the United States, he was obliged to withhold any endorsement of this proposition of President Castro.

Therefore it may be disclaimed from the field of possibilities, and unless Castro is unexpectedly insistent upon his own plan the original proposition in reference to The Hague tribunal will carry.

CENTRAL LABOR UNION BALKS

Declines to Endorse the Grocers' Plan for Amending the Exemption Statutes.

Members of the Central Labor Union succeeded Friday night in arriving at a decision regarding intended legislation, which was presented before the body for its consideration, being the proposed amendment to the exemption laws now on the statute books of the state.

The union has been in conference with the Retail Grocers' association, that some decision might be obtained relative to the matter, and at the session last night, after the proposed amendment to the present law as drafted by the grocers was read before the union, that body went on record as flatly refusing to be in direct accord with or sanctioning the amendment, voting against it, principally, that it might be made a matter of course in the minutes of the union and also that the grocers might not mistake the action taken.

Allen's restaurant, Sixteenth and Webster, and Brown's Quick Lunch house were replaced on the "fair list," the proprietors of these establishments having signed up with the union.

The date of the semi-annual election of the Central Labor Union was fixed for January 15.

Will Insist on Equality. Woman Will Object to Her Assessment if Those of Corporations Are Reduced.

Among the documents which will go before the city council when it meets as a board of equalization to perfect the assessment for the tax levy of 1903, as returned by the tax commissioner and Board of Review, is a communication on behalf of Mrs. Sarah E. Hartman, which is somewhat unusual and possesses some elements of originality. Mrs. Hartman, who is the owner of a considerable amount of real estate in the city, including her homestead at Thirty-fifth and Franklin streets, is the aggregate assessment upon which is in the neighborhood of \$40,000, signifies to the board that she is satisfied with her assessment as it has been fixed by the Board of Review, provided the franchise corporations and railroad companies are to be assessed according to the schedule as approved by that body, but in case those figures are to be reduced, she will object.

The communication, after describing in detail the property assessed in the name of Mrs. Hartman, continues as follows: You are further notified that this applicant will be satisfied with the values placed on each of said pieces of property and on said personal property by the tax commissioner only on condition that the assessments of railroad property, Omaha franchised corporations and other property in said city remain substantially as your board has fixed and approved. But if the assessments of such other property for the taxes of the year 1903 is hereafter reduced, either by the Omaha city council, sitting as a board of equalization, or by the courts, or otherwise, then, and in that event, said Sarah E. SHAW SEEKS A SECRETARY

Finds it a Difficult Task to Secure a Successor to R. B. Armstrong.

APPLICATIONS ARE PLENTIFUL ENOUGH

Major Turner Not Enthusiastic Over Location of Cavalry Post at Fort Des Moines—Making Slow Progress.

(From a Staff Correspondent.) WASHINGTON, Jan. 2.—(Special Telegram.)—Secretary Shaw, now that his private secretary, R. B. Armstrong, is going to leave him for the position of second assistant secretary of the treasury, is casting about for his successor and he is not finding it an easy task. He has had nearly half a hundred applications, but today resolved itself into the choice of one of two men and one of these applicants came from Iowa. As this seems to be the era of young men, it is thought Secretary Shaw has some bright and active young newspaper man in mind to succeed Mr. Armstrong.

Major R. B. Turner, in charge of construction work on Fort Des Moines, is in Washington under orders to report tomorrow to the quartermaster general. Major Turner is not particularly enthusiastic over the site chosen for the new cavalry post at Des Moines. He thinks there has been too much politics for a cavalry post. "As yet we have hardly a shack erected, and the reasons which called me here," he says, "are all sorts of things to contend with. Strikes and weather have kept us back until I am almost ready to give up in despair of getting things done. Contracts have been let, but with strikes on it is mighty hard to move. I expect to know more tomorrow as to the reasons which called me here."

Postmasters appointed: Iowa—John H. Berks, Halbur, Carroll county. South Dakota—Hannah Bastian, Grobb, Spink county; Howard G. Finney, Robey, Aurora county.

Clyde E. McCormick has been designated as a member of the civil service board for the Nebraska City postoffice and Carl O. Melnburg at Red Oak, Ia.

Mrs. Ida M. Copenhaver of Omaha has been appointed a commissioner in the government printing office.

Receipts and Expenditures. The receipts for the month are about \$100,000 in excess of those for December, 1901, and the expenditures \$798,000 less than for that month. The receipts from the several sources are given as follows: Internal Revenue, \$23,679,094, an increase as compared with December, 1901, of \$2,163,000; Internal revenue, \$20,979,318; decrease, \$2,215,000; miscellaneous, \$2,510,886; decrease, \$326,000.

The expenditures on account of War department are small, decrease and amount of the navy an increase of about \$1,123,000. For the first half of the present fiscal year a surplus is shown of \$24,134,000, as against a surplus of \$42,821,897 for the corresponding period last year. Although the receipts from the internal revenue were \$284,929,784, an increase for the year of \$24,640,058, and an increase for the month of \$7,370,270; the circulation based on United States bonds amounted to \$342,127,144, an increase for the year of \$17,115,538 and an increase for the month of \$1,027,435. The circulation secured by lawful money amounted to \$43,801,940, an increase for the year of \$7,921,520, and a decrease for the month of \$952,163. The amount of United States registered bonds on deposit to secure circulating notes was \$344,552,120, and to secure public deposits, \$153,384,070.

Circulation Statement. The monthly circulation statement issued by the comptroller of the currency shows that at the close of the calendar year the total circulation of national bank notes was \$284,929,784, an increase for the year of \$24,640,058, and an increase for the month of \$7,370,270; the circulation based on United States bonds amounted to \$342,127,144, an increase for the year of \$17,115,538 and an increase for the month of \$1,027,435. The circulation secured by lawful money amounted to \$43,801,940, an increase for the year of \$7,921,520, and a decrease for the month of \$952,163. Australia Needs Breadstuffs. One hundred thousand pounds of breadstuffs must be imported from wheat-producing centers to Australia during the coming season to meet harvest deficiencies, says United States Consul Goding at Newcastle in a statement dated November 11. The crop in New South Wales, he says, will not reach 50 per cent of the quantity reaped last year, and Victoria will require imports of 2,637,920 bushels of wheat to supply her needs. The situation is not so bad in South Australia, though the crop there is less than last year. About 15,000 tons of California flour are about for New South Wales, but the consul says the price of California flour has risen so greatly that the effect will be to divert a great deal of the trade to Canada, which raises

The War department has made public the report of the uniform board, headed by General Young, of which Colonel Patton is the recorder, setting out in detail the changes made in the army uniform, some of which were seen for the first time at the White House reception yesterday.

The first recommendation is that officers on duty in Washington should be required to wear their uniforms during office hours. Other recommendations, all of which have been approved and are consequently now army regulations, provide for the substitution of the bronze sleeve ornaments for those of embroidery and metal for full dress. Chaplains are to wear black overcoats. The embroidered gold oak leaves on officers' visors must come off, except on ranks above that of major. The United States coat of arms in gold is to be added to all shoulder knots of officers above captain.

An important change is the abolition of the capeau, the service helmet and service cap for officers and a service trousers for enlisted men. Provisions are made for a combination sash and belt for brigadier generals.

A significant recommendation calls for a more detailed description of the shoes to be worn by officers, for it is rumored that the board's labors were begun as a result of the detection of an officer, otherwise properly uniformed in full dress, wearing a pair of russet shoes. Hereafter chevrons are to be worn midway on the sleeve between the elbow and the shoulders.

Other recommendations are that belts and cartridge cases are to be worn outside the overcoat, that a marching shoe shall be provided for the men and that the bureau of insular affairs shall provide a device.

Physician as Commissioner. The American Association for the Advancement of Science today agreed to request President Roosevelt to appoint a physician as a member of the Isthmian Canal commission. A commission was also appointed to procure a suitable memorial to Dr. Reid, the army surgeon who performed notable work in improving the sanitary conditions in Cuba.

The feature of the sessions of the section on social and economic science was a review of the work in various bureaus of the Department of Agriculture by their chief, Prof. Willis L. Moore, chief of the weather bureau, who said he cost \$1,250,000 a year to make the forecasts; that the frost warnings of a few days ago in Florida saved millions of dollars to the people of that state and the forwarding of a single cold wave recently saved shippers \$4,000,000.

Statement of Public Debt. The monthly statement of the public debt shows that at the close of business December 31, 1902, the debt, less cash treasury, amounted to \$47,164,679, which is a decrease for the month of \$10,332,492, which is largely accounted for by an increase of nearly \$10,000,000 in the amount of cash on hand.

The debt is recapitulated as follows: Interest bearing debt, \$94,541,240; debt bearing no interest, \$395,777,109. Debt on which interest has ceased since maturity, \$1,255,710. Total, \$1,311,074,059.

This amount, however, does not include \$78,574,069 in certificates and treasury notes outstanding, which are offset by an equal amount of cash on hand for their redemption.

The cash in the treasury is classified as follows: Gold reserve, \$150,000,000; trust funds, \$876,574,069; general funds, \$156,290,512; in national bank depositories, \$150,216,598. Total, \$1,333,081,200, against which there are demand liabilities outstanding amounting to \$966,611,820, which leaves a cash balance on hand of \$384,469,280.

No Interference with Church. The attention of the officers of the administration charged with the direction of Philippine affairs being called to a dispatch from Rome to the effect that Secretary Hay has written the vatican that Mr. Messmer of Green Bay, Wis., is impossible for the position of bishop of Manila, because of the firebrand speech which he recently made before the Catholic Truth Federation, the statement was made in the most emphatic terms that there was absolutely no foundation for the story. It was further declared that in no single instance has the United States government allowed itself to be placed in the position of dictating the personality of any priest or church official who was to go or stay in the Philippines.

Bolivia and Peru Arbitrated. The Bolivian minister has received a telegram saying that the Bolivian government has signed a treaty for arbitration with the republic of Peru to settle the boundary question. The arbitrator selected is the Argentine government.

Red Cross Moves Offices. The American National Red Cross society has removed its headquarters from Washington to No. 19 East Fifth street, New York City. Miss Barton already is there.

Western Men Get a Raise. LOS ANGELES, Cal., Jan. 2.—Locomotive engineers and firemen employed in the local jurisdiction of the Santa Fe and Southern Pacific systems have been granted an increase of wages averaging 10 per cent. This action was taken in compliance with a request for higher wages made by the railway employees.

New Orleans Out of Fuel. NEW ORLEANS, Jan. 2.—New Orleans is now without a supply of fuel and all the furnaces recently converted to the use of oil burners are being changed back so that coal may be used.

Price of Coal Goes Up. NEW YORK, Jan. 2.—The price of soft coal advanced another notch today, reaching \$8.40, wholesale, freightage not included. Anthracite averages \$10 to the consumer.
