COMMERCIAL AND FINANCIAL

Board of Trade Displays Little Interest in Any Line.

ALL COMMODITIES GO UP SLIGHTLY

Anxious Shorts Make January Corn Strong in Spite of Large Deliveries of Low Grades and Higher Cables.

CHICAGO, Jan. 6.—Trading on the Beard of Trade today was almost featureless, and wheat, after an easy tone the greater part of the day, closed firm, with May lac higher. May corn was up harks and oats were a shade higher. May provisions close!

of the any, closed firm, with May lachigher. May corn was up 100 lack were a shade higher. May provisions closed from 7549125c higher.

Wheat ruled extremely dull and with no special feature in the market; fluctuations were confined within a narrow range. There was considerable long wheat for saie and the commission houses which bought yesterday were liberal sellers today. Firm cables, a decrease of 3,400,000 bushels in the world's stock, as reported by Bradstreets, and small receipts, all contributed to the builtsh sentiment. A good cash demand was responsible for the late strength and the close was near the top. May opened unchanged to a shade higher at 754,6754c to 70%c, sold off to 756754c, but rallied toward the close, and final figures on May were the higher at 754,6754c to 70%c, sold off to 756754c, the top price of the day. Clearances of wheat and flour were equal to 215,000 bushels. Primary receipts were 640,000 bushels. Primary receipts of 378 cars, which with local receipts of 378 cars, which with local receipts of 378 cars, which with local receipts of 55 cars, with 1 of contract grade, made total receipts for the three points of 434 cars, against 350 cars last week and 384 cars a year ago.

The feature in the corn pit was the strength of the January option, which was caused by the anxiety of shorts, who found it extremely difficult to get the stuff to fill their contracts. Receipts were quite liberal, but the grading continued poor owing to the damp weather. The local crowd generally was on the buying side and the offerings came mainly from commission houses and pit scalpers. Higher cables and

generally was on the buying side and the offerings came mainly from commission houses and pit scalpers. Higher cables and a good cash demand were instrumental in keeping up the prices. The close was strong, with May 140% higher at 43140 strong, after selling between 4314c and 4336c, January closed 136c up at 47c. Local receipts were 538 cars, with only one of contract grade. ract grade. Oats were rather unsettled, with consid-

Cats were rather unsettled, with considerable pressure to sell by longs, with profits. Commission houses were fair buyers and checked the declining tendency. The close was steady, with May a shade higher at 34½c, after ranging between 33½c and 34½c. Local receipts were 30% cars. Higher prices for hogs, in spite of liberal receipts, caused strength in provisions at the opening, but the liquidation by outside holders caused an easier feeling and part of the early morning gain was lost. Packers were good buyers of May products. The close was firm, with May pork 7½c higher at 116.62½, May lard was up 12½c at \$1.92½, while ribs were 10c higher, closing at \$8.57½. Estimated receipts tomorrow: Wheat, 135 cars; corn, 270 cars; oats, 155 cars; hogs. Estimated receipts tomorrow: Wheat, 13: cars; corn, 270 cars; oats, 155 cars; hogs, 42,000 head.

Wool Market.

BOSTON, Jan. 6.—WOOL—The market held rather quiet over the holiday season as a whole, but some houses report a good week's business. Manufacturers are still buying freely. There are indications that some buyers think that the market is as high as it is likely to go, but there is certainly nothing in the present condition which would indicate that the price limit has yet been set. There was a tremendous advance, especially in pulled and combing wools, which were relatively below the market. These wools show an advance of 256c per pound and are now fully on a parity with the balance of the market. The request for territory wools continues excellent. Prices are fully maintained. Fine staple territory, 556@5c; strictly fine, 1665c; fine and fine medium, 5065s; medium, 4694sc.

There is a firm market for Texas wools. Quotations are firmly held. Fall, cleaned basis, 4695sc; tweive months, 5565c; six to eight months, spring, 5365c.

For California wools the demand is steady, with no change to note in prices. Northern county, cleaned basis, 5565c; middle counties, 4596c; southern counties, 4596fc; fall, free, 4691c; defective, 4395c. Oregon wools show no change either in tone or prices.
