Volume of Business on Board of Trade is Only Moderate.

WHEAT RULES EASIER MOST OF THE DAY

Corn Suffers from Over Supply, While Oats Pause in Upward Tendency and Provisions Exhibit Much Weakness.

CHICAGO. Jan. 2—There was only a moderate trade in wheat today and the market was easier most of the day. Ut on reports of good export business there was a raily toward export trade and may corn was a shade higher and oate. Was or shade in the respect of the day of changed. It is a strength in the wheat pit early in the day, but under the influence of better at 18% of the day. Ut under the influence of better at 18% of the day. Otherwise trade and many a reaction followed. May selling down to 75%, after opening unchanged to isc lower at 18% of to 75%. At the decline the market ruled rather lower, although there was a fair demand from commission houses and accapters. An increase of 1,890,000 bit, in the exports for the week, as reported by Brustered, compared with the corresponding week last year, called a the clone was first good. The corn of the day. Clearances of wheat and flour were equal to 484,000 bit. Primary receipts were \$82,900 bit. against 581,000 a year ago.

Corn ruled easier the greater part of the day on liberal offerings from locals, while the demand was only limited. Weather conditions were beartsh, being favorable for the grading, but the car situation continued to play an important part in the trading, the shortage of cars restricting the receipts, which were only 389 cars, with five of contract grade. Late in the day a good demand developed on reports of a big cash business at the seaboard, commission houses and shorts buying freely, which resulted in a firmer feeling. May closed a shade higher at 63%64c, after ranging between 45%c and 46c.

There was a pause in the advance in eats and reactions occurred in both the active deliveries on profit-taking by small longs and lack of adequate support by the buils. While the weather was favorable for the movement, receipts were rather light, lack of ears being largely responsible for the decreased receipts. A recovery ogo. Corn ruled easier the greater part of the cats and reactions occurred in both the active deliveries on profit-taking by small longs and lack of adequate support by the buils. While the weather was favorable for the movement, receipts were rather light, lack of cars being largely responsible for the decreased receipts. A recovery occurred in the last hour on the strength in other grains and the close was about steady, May being unchanged at 34%c, after selling between 34%c and 34%c, after selling between 34%c and 34%c. Local receipts were 174 cars.

Provisions were dull and exhibited considerable weakness. There was rather free selling for outside account early, brought about by a decline of from 10c to 15c in prices for hogs. Buying by locals later in the day, with offerings rather light, caused a slight raily, part of the early loss being recovered. May pork closed 10c lower at \$16.15, May lard was 567½c lower at \$2.456 as \$16.15, May lard was 567½c lower at \$2.456 as \$16.15, May lard was 567½c lower at \$2.456 as \$1.50.

BERLIN, Jan. 2.—Prices on the bourse today were firmer. Mine shares were largely bought, speculatively, and Canadian Pacine was actively purchased on New York advices. Toward the close prices were generally slightly easier, but the undercurrent had a good tone. Exchange on London, 20m 45% pfgs. for checks. Discount rates: Short bills, 2% per cent; three months blils, 2% per cent.

NEW YORK, Jan. 9.—COFFEE—Spot Rio, steady. Muid, firm. Futures opened steady at an advance of 5 points under shorts covering, which continued on a moderate scale throughout the session. The bearish factors were the higher European markets, smaller primary receipts, reports of a better jobbing trade and the relative strength of the spot market. Speculation was light and there was some liquidation, however, and importers continued to sell, so that the upward tendency was backward, with the close steady at the opening level, and sales of 32,590 bags, including: January, 4,36; February, 4,35c; March, 4,5c; July, 4,75c; September, 5c; October, 5,65c; November, 5,65c; December, 5,15c. be put at about a dime, but a good many sales looked worse than that, while some of the better kinds were not that much lower. Sellers did not like the idea of selling out for less money, so that the morning was well advanced before the bulk of the offerings was disposed of.

Bulls and stags felt the effects of the decline on cows and steers and were a little slow and weak. Veal calves, though, held about steady.

The few bunches of stockers and feeders that were offered sold at just about steady prices in spite of the fact that it was Friday. The light receipts all the week have made speculators anxious for good cattle, and sellers experienced no trouble in disposing of those kinds. The common stuff was rather slow and weak. NEW YORY, Jan. 9.—COTTON—Opened firm at an advance of 395 points on favorable cables and indications for small receipts and sold off to the previous day's prices in the absence of public support of a leading bear operator trying to undermine long contracts and force a decline. From this there was a quick rally to the highest on a run of outside buying, but as soon as this demand was met prices again declined until at the lowest point a loss of 10 points was apparent on January and 1 point on other months. There was some pretty active covering and renewed investments on the week end, but the market closed to a decline of 5 points. January contracts held a weak relation of the general list under "notices," which some placed as high as 10,000 bales. The selling today was on the claim that the market was brought to a stand on the strength of the statistical position, which has become too generally recognized. The buying at this point is largely on the ground that the spot markets of the country show stability on the support of a good apinning and export demand. A good deal of cotton was bought in the afternoon on Hester's report. Total sales reached 8,000 bales.
