**OUTLOOK IS GROWING MUCH BRIGHTER** 

Prospect Good for Agreement as to the Basis on Which Terms of Settlement May Be Appronched.

CINCINNATI, Jan. 9.—All the members of the joint peace committee of the National and American Base Pall leagues met here today. The National members are at the St. Nicholas and the American members at the Grand hotel. They met separately during the forenoon with the owners and managers in their respective leagues, many of whom are present, as well as President Harry Pulliam and Ban Johnson.

The American members want the dispute over the players passed on first. Chairman Herrmann, after spending the night with Robison, Dreyfus and others, met James A. Hart and other National leaders this morning and afterward called on Charles Comiskey, Henry Killiles, Charles Somers and others at the headquarters of the American conferees.

Session Lasts Eight Hours.

tive session at 2 and Presidents Johnson bers of the committees of the American and National leagues respectively. eight representatives were the only ones admitted to the conference.

The discussion lasted from 2 until almost 7 this evening, when a recess of an hour was taken. The conferees then went to another room, where dinner had been orfered, and the executive session was prac-

should be executive session was practically continued while they were dining. A crowd of reporters and base ball measurement of the control of the control of the Chrismati National league club and Manager Frank C. Banters and Manager Charles Nichols of the Kansas City Western league club. The peace commissioners were interviewed as they passed into the public dining room and stated that no action had been taken, although they had discussed all the questions in dispute. They had not yet agreed on the extent or even the character of an agreement, and were therefore unable to fecide on the order of business or what questions should be taken up first.

There seemed to be a consensus of opinion that it would be necessary to reach a local training and treasurer. The following racing officials were appointed for 1903: C. J. Fitzgeraid, starter: The following racing officials were appointed for 1903: C. J. Fitzgeraid, starter: The following racing officials were appointed for 1903: C. J. Fitzgeraid, starter: The following racing officials were appointed for 1903 were set as follows: Washington Jockey club, May S. Scotkly Jo

ion that it would be necessary to reach a compromise on the questions of territory and disputed players.

One proposition discussed was that about tracts with both leagues should remain where they were at the time of the "peace" meeting in New York last month. It was also proposed that the American league should hold its franchises for clubs in Pittsburg and New York.

As to Pittsburg, there is some doubt, but it seemed to be understood that the Amercan league would gain a foothold in New York.

One of the conferees said that the exchange of opinion had done much toward establishing confidence between the opposing forces. Before the meeting each side had mistrusted the other, as there had been considerable misrepresentation.

The general discussion was opened by each one of the eight conferees being calle? on to explain just what he favored, what he thought ought to be done, how it could be done and how far the conference should go. Then a general discussion followed, of the opinions thus expressed, some taking sharp

seemed to be getting together.

Chairman Herrmann said the conferess spent the evening in general discussion, without any motion or action, but that they

In response to a question he admitted that amalgamation had been freely discussed, with specific plans for a twelveclub league and other changes, and special consideration had been given to contract jumpers.

It was conceded by all that the conference rould complete its work tomorrow, and this was generally interpreted as indicating that the conferees were really getting together on the principal terms that would enter into a peace agreement. It is even stated that drafts of such an agreement have been drawn up and presented, while it is known that a number have drafts of different provisions that they want meorporated into the peace treaty. Although it was recognized that the conferees have hnal power it is generally understood that they adjourned sooner than expected tonight, in order to confer with others of

heir respective leagues. The representatives of both leagues said that It was by no means time to arrange for a jolification, but the prospects for such an occasion were much better tonight than they were this morning.

The joint conference went into execu- SET DATES FOR HORSE RACES

Donovan Remains with St. Louis. ST. LOUIS. Jan. 9.—It was authoritatively announced today that P. J. Donovan will continue to manage the St. Louis National league base ball team during the coming season, at a salary of \$9,000. The contract is said to have been signed yesterday by Donovan, who reconsidered his decision to retire from the base ball field and enter commercial life.

Opportunity for American Firms. NEW YORK, Jan. 9.—Alfred Chasses of New York has been appointed commissioner to the International Engineering. Hardware, Machinery and Allied Touries expected, to open at the Crystal palace, longest mess, ongest mess, and the will afferd American firms a new opportunity to introduce their specialities to consumers in England and its colonies.

FAMINE IS OFFSET

The conference closed before 10 to meet Dun Says General Prosperity Minimizes Coal Bhortage Evil.

> TRADE OPENS EXCEPTIONALLY WELL Tardy Deliveries Lend to Advance Or-

ders, Collections Come in Promptly and Everything Points to Year of Success.

NEW YORK, Jan. 9 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will

Collections are notably prompt at all leading centers, bearing testimony to the fine financial condition of the nations industries at the opening of the year. Distribution of merchandise is heavy and manufacturers are pressed for prompt delivery. Orders for spring goods come treely and in some lines there is more than a sample business in fall weights. Tarty deliveries in the past lead purchasers to anticipate requirements more than heretofore and orders are being placed far in advance of actual needs.

Fuel Situation Still Serious.

The fuel situation is still the one seriously disturbing element, rendering abnormally high the cost of manufacturing and restricting the purchasing power of almost the entire population. Fortunately, this comes at a time of exceptional prosperity, or there would be a general contraction of consumption in other lines. There is little interruption because of the labor disputes, but many operations are interrupted by the delay in transit of needed materials. Rallway treight rates were advanced, and one result will be a loss of

materials. Rallway freight rates were advanced, and one result will be a loss of exports from eastern cities, the traffic being deflected to New Orleans.

In the iron and steel industry the most significant event of the week was the discussion regarding the profit sharing proposal by the leading producer. Inadequate supplies of coal are still restricting operations. Contracts for the new year were made at \$4 a ton, but prompt deliveries often commanded \$5 or \$i\$ and at Chicago some sales were reported at \$10. Pig fron often commanded \$6 or \$1 and at Chicago some sales were reported at \$10. Pig iron continues scarce, prices generally advancing during the past week, and the expected advance of \$1 a ton was made in wire products. Much new business has come forward, especially in bars and sheets, which had been comparatively quiet, while there is a vigorous demand for structural material to be used in oridge work and car shops. Another year of unprecedented activity in this industry is confidently atticipated. Partially because of the published statistics of supplies, but more on account of London speculation, there was a sharp advance in prices of tin and copper, followed by some reaction, due to resilking sales.

Footwear is Light.

Footwear is Light.

New England producers of footwear are

New England producers of footwear are busy on spring business and a few deliveries have already been made, although shipments are light in these lines as yet.

Exceptional activity in rubber goods has reduced supplies to an unusually low point. Some varieties of leather have advanced slightly and tanners of hemlock sole have only limited holdings. Exports of hemlock sole continue beavy.

No new features have appeared in the domestic demand for dry goods. The best event as to cottons has been the continued buying for export, which has exceeded expectations largely. The print cloth market has ruled firm, with business restricted by the reserve of sellers, who show no disposition to make concessions. Ac tr, woolen goods the demand for overcoatings for next fall has not come up to expectations, which may be attributed in part to the fact that the season opened unusually early. Prices are fully maintained at the opening level of the season.

Fallures for the week numbered 350 in the United States, against 373 last year, and 21 in Canada, compared with 27 a year ago.

WEEKLY BANK CLEARINGS.

Summary of Business Transacted by the Associated Banks.

NEW YORK, Jan. 9.—The following table, complied by Bradstreet, shows the bank clearings at the principal cities for the week ended January 8, with the percentage of increase and decrease as compared with the corresponding week last year:

Each succeeding number contains new pictures and new matter on topics of general interest. and all prepared in a way that is pecultarly The Bee's own. It is this steady endeavor to give the people the very best all the time that has made The Hlustrated Bee so popular. Some splendid new features have been court revision matters. planned for the current year, one of Last night Mayor Koutsky reiterated his which will be found in the next

FOUR GENERATIONS OF GRANTS Is the title under which Mr. Edward Rosewater contributes a chapter of personal recollections of members of this distinguished family. It is illustrated from family photographs, showing representatives of five generations, as well as twenty-one members of the family.

TWO UNIVERSITY PRESIDENTS is a handsome picture showing Jacob Gould Schurman of Cornell and Rev. M. P. Dowling of Creighton together. It is accompanied by a short biographical sketch of the two men who are so prominently indentifled with educational affairs.

CBUCATIONAL VALUE OF MOTHERS' CONGRESS is a special article on the general topic of the American mother's task in rearing and educating her offspring. It debates the matter in a broad and interesting way, and is worth the reading.

BELGIAN MARKET FOR AMERICAN MANUFACTURES is the title of Mr. Frank G. Carpenter's weekly let-In it Mr. Carpenter recounts the experience of some well informed business men of Brussels in the way of handling and introducing American goods and wares. Illustrations are from photographs made in Belgium.

STURBY MEN WHO FIGHT THE SEA KINGS gives a vivid description of the life of the modern whaler. Some account of the dangers and hardships daily encountered and endured by these men, apparently incredible, in the pursuit of the leviathan, is set forth by the writer.

K-SAR-BEN FESTIVAL CHORUS, or-A ganized and being drilled by Thomas J. Kelly, is shown in a splendid group photograph, and there are a number of other fine independent pictures. Every department of the paper has been carefully looked after, and not a thing has been slighted or omitted. If you are not now a subscriber, you should leave your order with your newsdealer today.

ILLUSTRATED

true, notes something of the lull usual at this period of the year, but even here the uniformity is broken by advices that salesmen already on the road are receiving good orders for spring and that in compliance with urgent instructions shipments of spring goods are being forwarded liberally. Among the industrials activity reigns, the only deterrent features being the scarcity of cars and of fuel, limiting production of iron and steel or curtailing shipments of lumber and grain.

Prices as a whole show aggressive strength, present levels being the highest in over two years. Corn and cotton have weakened, but the only apparent result is that of encouraging and expanding export trade, a movement long and anxiously awaited.

Cotton goods remain firm, and it is a sell-

awaited.

Cotton goods remain firm, and it is a seller's market for print cloth. The feeling of confidence in the cotton and cotton goods trades extends also to woolen goods, while raw wool is strong, with supplies on hand generally small.

Liberal snows are helping lumbering operations in the northwest and in Maine, Cold weather effects the movement of white pine, while the southern yellow pine movement is restricted by the scarcity of cars. A feature is the activity in hard woods, which are in demand at all leading markets.

cars. A feature is the activity in hard woods, which are in demand at all leading markets.

Eastern shoe manufacturers report that liberal sample orders are not being followed by solid orders to the extent expected and shipments are smaller than last year and last week, but leather is quiet and firm. The scarcity of anthractic ccal is a feature of large expense. Efforts to keep prices down to a reasonable level seem to have failed and speculators are reported in control of the situation.

The iron and steel market is classed as quiet, but symptoms of activity are numerous. Pittsburg reports pig iron scarce and good sales have been made at nearly top prices, while heavy engagements of steel billets, bars and structural material are also reported. Coke is especially scarce at Chicago. Foreign importations of iron and steel are heavy. Cleveland reports that so active is the demand for iron ore that the immensely reduced supplies brought down from the lakes last year promise to be well cleaned up by spring.

In the hardware trade the outlook is classed as good. Copper and tim have made good advances this week.

Wheat, including flaur, exports for the week ending January 8 aggregate 5.028,851 bushels, against 3.495.286 bushels last week.

Wheat, including flaur, exports for the week ending January 8 aggregate 5.028,851 bushels in this week a year ago and 5.861,866 bushels in 1901. Wheat exports inon yally 1 aggregate 15.028,851 bushels in 1902.

Corn exports aggregated 2.856,858 bushels.

874,914 bushels in 1999. Cvrn exports aggregated 2,856,586 bushels, against 2,537,532 bushels last week, 136,873 bushels a year ago and 4,897,349 bushels in

bushels a year ago and 4.87.38 bushels in 1991.

Business failures in the United States for the week ending with January 2 number 335, as against 200 last week, 346 in the like week in 1992. 322 in 1991, 295 in 1990 and 294 in 1899. The failures in Canada number 39, against 39 last week and 32 in this week a year \$20.

JEFFERSON CITY, Mo., Jan. 3.—Governor Dockery is not quite so well today, but his lilness is still not considered dangerous. The attending physician has instructed that he remain indoors for several days yet. Ex-Governor William J. Stone, who yesterday was nominated for senator to succeed Senator Vest, also is confined to his room with a cold.

LOS ANGELES, Cal. Jan. 9.—The Farmers' and Mercants' bank today changed its title to the Farmers' and Merchants' National Bank of Los Angeles. As a national bank the capital stock of the institution has been increased to \$1,000,000, fully paid, with a surplus of \$500,000 paid up.

Neglect of a Cough or Sore Throat may result in an incurable Throat Trouble or Consumption. For relief use BROWN'S BRONCHIAL TROCHES. Nothing excels this simple remedy. Sold only in boxes.

Mayor Koutsky Again Announces His

Several days ago Mayor Koutsky stated to members of the press that he was willing to appoint a meat inspector just as soon as the city council passed the ordinance City Attorney Murdock has been instructed by the council to draft an ordinance for the appointment of a meat inspector and defining the duties of the official. So far the ordinance has not been drafted, as Mr. Murdock has been engaged in court and on

former statements and said that just as soon as the council sees fit to pass an ordinance declaring the necessity for a meat inspector he will make an appointment. "As far as I am concerned," said the mayor, "the government inspection is a fair guarantee that all meats handled at the stockyards are in good condition. Should I be called upon to appoint an inspector I assure the public that I will place a man in the position who thoroughly understands meats and one who will make inspections according to the ordinance passed."

The mayor declines to even intimate who he will appoint, should the council pass the ordinance needed. The ordinance, when it is passed, will have to have the approval of the city attorney before it is signed by the mayor. After Bank Robbers.

The authorities at Louisville, Neb., have sent to the South Omaha police descriptions of the persons supposed to be implicated in the bank robbery of a night or two ago. Chief Briggs was a busy man yesterday and last night. He declined to give any details but said that the officers after the robbers were on a trail and would most likely report before long.

Some Alterations Wanted.

In the amendments to the city charter which City Attorney Murdock will take to Lincoln and submit is the change proposed for lights and water. Figures for years past show that not enough money has been provided for either of these funds, and the statement of Murdock for an increase will not be considered as sufficient by another committee which will go down to induce the legislature to provide the city with plenty of funds for proper fire protection and the supplying of the street lights absolutely needed.

Retail Clerks' Union.

There was a well attended meeting of the Retail Clerks' union at Labor hall on Thursday night. Several new members were initiated. It is expected by the present members of the union that before long every retail clerk in the city will join the organization. An organizer is to come here some time during the present month for the purpose of securing additional members to the present union. Another meeting of the clerks' union will be held on January 22 at Labor hall. At this meeting there will be an election of officers.

Fitle Expresses Thanks.

Frank Fitle, temporarily located in Lincoln in the office of the commissioner of public lands and buildings, writes The Bee to express his thanks for the acts of kindness and the flowers, etc., on the occasion To all friends who remembered the deceased he wishes to extend his sincere

Camp Elects Officers.

Russell, chancellor; Mrs. M. Conley, recorder; Mrs. E. Southwick, receiver; Mrs. J. Bowley, marshal; Mrs. B. Watts, inside sentinel; Mrs. M. Nagle, outside sentinel. The managers are J. J. Breen, Mrs. M. Clinchard, Mrs. E. Carey. The physicians of the order are W. J. McCrann and Thomas Kelly.

Annual Charity Ball.

At a meeting of the directors of the hospital association hald yesterday afternoon it was decided to hold the annual charity ball at the spacious dining room at the Exchange building on the evening of February 9. This annual ball of the association is considered quite a social affair in the annals of South Omaha, and a large number of tickets are usually sold. It is expected that this year the sale will be larger than usual, as more interest seems to be taken in hospital affairs than heretofore. While plans for a new building are being talked of no definite steps will be taken this winter unless a certain amount of money for a

meantime ashes are being strewn on the

The annual meeting of the State Farm-ers' Insurance company of South Omaha will be held at the company's office, Twen-ty-fourth and M streets, on Tuesday, Janu-ary 13, when officers will be elected and other business transacted.

## $\mathbf{WHY}$ ?

The reason One Minute Cough Cure relieves a cough in one minute, is because it acts first on the muccus membrane right where the cough troubles—in the throat or deep-seated on the lungs, destroying the microbes or cough germs and clearing the philogen.

One Minute Cough Cure not only destroys the disease germs, and clears out their paison, but it gives strength and visaticity to the delicate membranes which protect the throat and lungs. Opens the sir passages and promotes unobstructed breathing, Causes the blood to receive its natural supply of cayges, thus exhibitating the pulmonary organs with such strength and vigor that the lungs and bronchial tubes become bulwarks against the inception of disease. Ashma, Bronchitts, La Grippe, Cold on the Lungs and all Pulmonary Complaints that are curable we quickly cured by the use of
