Common sense would suggest that if one wishes to become fleshy and plump it can only result from the fod we eat and digest and that food should be albuminous or flesh forming food, like eggs, beefsteak and cereals; in other words, the kinds of food that make flesh are the foods which form the greater part of our daily bills of fare.

But the trouble is that while we est enough, and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is reason so many people remain thin and under weight; the digestive organs do not completely digest the flesh forming beefsteak and eggs and similar wholesome

Court Blames Major Ayres.

The record of the court of inquiry appointed to investigate allegations made against Captain Barnum by Major Charles G. Ayres, Eighth cavalry, has been received from General Bates, commanding the Department of the Missouri. The court met at Fort Riley, Kan. Its findings were favorable to Captain Barnum, the allegations of Major Ayres not being sustained by the evidence.

The court found that there was no discbedience of orders and that Major Ayres in making his assertions was hasty and intemperate, and that while not imputing to him any intention of making a false statement, the assertions made and reiterated by him were misleading, inaccurate and unwarranted.

General Bates approve the findings, saying: "A court of inquiry could only properly use the language they did in speaking of his conduct; he evinces a disposition absolutely opposed to military efficiency and discipline and contrary to the best interests of the service."
