Officer Rue followed just in time to see the man turn south down the alley between Main and Fourth streets and get a shot at him, but his bullet went wide of the intended mark. The fellow then crossed a vacant lot into Fourth street and continuing south was soon lost in the darkness. The officers failed to get sight of the second man, but pedestrains who had been attracted by the shooting stated they had seen a man running north on Broadway. It is supposed he ran west through the alley and out onto Pearl street and then doubled back on Broadway.

A diamond brooch, valued at \$165, was picked up at the corner of Main street and Broadway by Eugene Snodgrass, a Western Union messenger boy, about two hours after the robbery. With the exception of four men's watches and a few brooches the remainder of the jewelry stolen was found yesterday morning in the alley between

It is supposed that the man whom the officers chased down the alley was carry-ing the greater part of the plunder and that being hard pressed he decided to get rid of it and the revolver. The police believe that the fellow after getting onto Fourth street through the vacant lot made a bee line for the old carriage factory, which is unoccupied, and after throwing away the jewelry and hiding his revolver, as he evidently thought, in the shed, made his escape by climbing the bank at the rear, and thus made his way to Bluff street.

The window was smashed with a heavy block of wood, which was found afterward in the gutter in front of the store. The police are inclined to the opinion that the robbers were amateurs at the business, otherwise they would not have thrown away the plunder as they did.

#### N. Y. Plumbing Co., Perophone 526. Preparing Library Ordinance.

Owing to the repairs at the library not being completed the regular meeting of the library board this afternoon will be held in the office of the president, M. F. Rohrer. The most important matter to come before the board will be the ordinance which is now being drafted, pledging the city to provide annually at least \$5,000 for the support of the library so as to secure the donation of \$50,000 for a building from Andrew Carnegie. This ordinance will be submitted to the city council at its meeting tonight when it undoubtedly will be passed by the

unanimous vote of the aldermen. President Rohrer of the library board is anxious that the business men who are prominent in the movement for the organigation of a commercial club, and in fact all citizens interested in the welfare and progress of the city, attend the meeting of the city council tonight and thus by their presence ratify the action of the aldermen.

Pearson, a member of the fourth class from

Concord, N. H., and Francis G. Blasdel of New York, the former is in the hospital with a broken faw and Blasdel is locked The affair occurred last Sunday and was the result of Pearson's refusal to be hazed by the upper classmen. The upper classmen had been "running" him and some time age he is said to have fainted under the ordeal. He was accused of cowardice

and was required to fight a third classman.

Blasdel was pitted against him and in the

first round broke his jaw. He, however,

continued to fight until the fifth round, when a first classman present stopped the It is reported that a first classman was referee and that seconds were chosen by the men from their respective classes. Blasdel has been placed under arrest and others connected with the affair will probably be arrested also by the academy authorities, who are determined to punish the

guilty parties. Young Pearson's father, Edward W. Pearson, secretary of state of New Hampshire, arrived tonight and visited his son. Mr. Pearson will not meddle in the affair, but will leave it entirely in the bands of the naval authorities.

Mr. Sargent said in part:

The large number of persons who seek a home in this country makes it inevitable that at times a few cases of injustice will arise. It is the purpose of the bureau of immigration to deal fairly with every case that is presented. Ellis Island has been a place for the harbering of vultures who preyed upon the immigrants and people began to look upon the place as the hell hole of America. Last April the president placed a gentleman of his own selection is charge at the Island. He made changes in the administration and introduced sanitary measures.

Abuses which had existed for years unchecked were stopped. I don't presume to say that conditions there today are ideal, but we are trying to make them so. We are asking congress for 1800,000 for extensions to buildings and better facilities for caring for those who are detained.

smoot Seems Safe in Utah, While Re sult in Other States is Doubtful Owing to Plethora of Willing Candidates.

DENVER, Jan. 11 .- The confusion existing in Colorado as the result of the fight for successor to United States Sepator Henry M. Teller is puzzling even to the most acute political minds. Mr. Wolcott and his friends Insist that action to unseat certain democratic members of the house because of alleged fraud in the ballot and returns be taken before balloting is begun on the senatorship. He charges his republican onponents with deliberate delay in this matter because of a deal with the democrats. In a statement issued by Mr. Wolcott to night he says:

Gross frauds, concerning which the evidence is indisputable, should lead to the unseating of seventeen fraudulently elected democrats in the house.

Every friend of mine, including the seventeen members who asked for a caucus, is anxious to have a speedy vote on unseating these fraudulently elected democrats, but there is grave danger that no action ing these fraudulently elected democrats, but there is grave danger that no action will be taken until after the 20th, when voting on the senatorship commences. If the legislature is made republican on joint ballot before a senator is elected, all that I or my friends ask is that he shall be chosen in free and fair conference or caucus by the republican members.

The anti-Wolcott republicans have maintained all along that no deal between the democrats and the anti-Wolcott forces has been made, and that they will never vote for a democrat for United States senator. Among the several candidates of the anti-Wolcott people, Frank C. Goudy of Denver has probably the largest following. Some say the split in the republican party will result in Mr. Teller's return to the senate and should the contested seats in the house be given to the democrafs there is little doubt that he will be thosen, as he was endorsed by the democratic state convention and by nearly all the county conventions. However, former Governor Alva Adams of Pueblo looms up as a possibility. The following telegram has been received by William Stapleton, editor of the Denver

OLYMPIA, Wash., Jan. 11 .- A republican uccessor to Senator George Turner will be elected by the legislature which convenes tomorrow. The leading candidates are Levi Ankeny, the millionaire banker of Walla Walla; Harold Preston, a well known lawyer of Seattle, and ex-United States Sen-

ator John L. Wilson. Probably the most important piece of legislation to come up at this session will be a bill to provide for a railroad commission to be appointed by the governor. Governor McBride championed the railroad commission bill on the stump during his recent campaign and has announced that he will endeavor to have it passed by the legislature. Preston, in his campaign for the senatorship, also championed the railroad con nission bill and consequently has the hearty support of Governor McBride. # Omega Oil

# Rheumatism F The Proper

Treatment

We advise sufferers from Rheumatism to eat no sweet or fatty foods. Leave spices and coffee alone. Eat sparingly of meat but once a day - never pork. Fresh vegetables are always in order. Drink plenty of pure water and milk. Keep the bowels regularly open. Keep the feet warm and dry, and avoid wet clothing.

At bedtime bathe the affected parts freely with Omega Oil. Then dip a towel in hot water, wring it

out, wrap it over the Oil and thus "steam it in." The hot towel opens the pores and drives the Oil in better. When the towel cools, remove it, dry the parts and put on more Omega Oil. Then cover the parts with a cloth to hold the Oil in its place throughout the night. In the morning wash the parts in warm water, wipe thoroughly dry, and briskly rub in some more of the Oil. A thorough, persistent treatment of this kind will come pretty near curing any case of Rheumatism that is curable.

I have suffered with the rheumatism for seven years and tried most every remedy. but none gave me relief. A friend told me of Omega Oil and I bought it, and after using one bottle I found great relief. I continued to use it, and seven bottles have made me nearly well. M. CHEYENNE, Wyo., Jan. 11 .- (Special.) -factional trouble between the Shoshones and Arapahoes, sooner or later, however, The recent arrest of James Tosiah, an Arapahoe, and the action of the Shoshone Indian police in assisting Deputy United States Marshal Joe La Fors has left the young men of the Arapahoe tribe in no

pleasant frame of mind. It develops that La Fors, although brave officer and capable of handling a dozen Indians, had a narrow escape from death when he was making his way to the agency in a buggy with Tosiah. A number of Tosiah's companions gave chase. Only one man was armed, and he was stopped while his horse was at full gallop by Acting Agent Frank S. Smith and disarmed. The Indians were in an ugly mood and but for the prompt action of Agent Smith, La Fors might have been stoned to death. He could probably have killed a number of the Indians, but there were so many that they

would have reached him. The drunken Indian policeman with whom Acting Agent Smith had a fight last Wednesday, and whom Dick Washakie, chief of police, struck on the head with a six-shooter, is the son of a man who was killed by old Chief Washakie years ago over a squaw, and as a result of Chief of Police Dick Washakie's action the feeling between the two factions is naturally intensified.

#### ST. LOUIS RAILROADS BOOM Eighty-Five Million Dollars is to Be Expended in Improvements

Before Fair Opens. ST. LOUIS, Jan. 11 .- The railways in St. Louis have set aside \$85,000,000 to be expended for improvements in this City. Many of the extensions are already under way and the great bulk of the money will be paid out before the opening of the World's fair.

The fact that seven states in the southwest, all of them strictly in St. Louis' business territory, built 2,500 of the 5,500 miles constructed in the whole country last year, and that construction in this section this year will be still larger, explains the true reason for the terminal ex-

tensions. Among the notable improvements are the building of the subway and extension of the Union station, the proposed construction of a mail depot at the station and the widening of the rights-of-way along the levee. For the latter condemnation suits have been instituted, involving about ten city blocks.

The Terminal association will also complete and extend a belt line around the city, and is adding to its yard facilities in every quarter of St. Louis.
