There was an active trade in wheat and the market at times exhibited considerable excitement. In spite of heavy liquidation by locals and outsiders prices maintained a higher level, although there was a slight decline early on general selling, brought in by the rumor that the leading long was unloading his enormous holdings. Instead of disposing of any long stuff, however, the leader of the bulls added still further to his long line, which fact was mainty responsible for the strength in the situation. May opened the colors are also another decline to 70 kg, but a good export demand resulted in a late bulge, and the close was near the top, with May the ligher at 1846/18/3c. The early strength was on higher cables and reports of unfavorable weather in Argentine. Exports of wheat and flour for the week, according to Bradertest, were 457,000 bushels, against 4,500,000 bushels last year. Cleacances of wheat and flour were equal to 325,000 bushels. Primary receipts were 570,000 bushels, against 4,600,000 bushels last year. Cleacances of wheat and flour were equal to 325,000 bushels. NEW YORK STOCKS AND BONDS.

Market Seems Bewildered, Backing and Filling All Day.

NEW YORK, Jan. 16.—Backing and filling was the favorite term to express the condition of today's stock market, which reflected the same state of bewilderment that has been evident in the speculative mind for several days past. The trade was later quite apathetic.

The few stocks which developed a show of strength had very little sympathetic effect upon the list in general and their gains were but poorly held. The most prominent of these was Missouri Pacific, which seemed to be effected by prevailing gossip that the great "Missouri" project was to be announced at an early date. Reading was advanced, and Southern Railway, Atchison, Sugar and a few less conspicuous stocks had their period of strength.

CATTLE—There was only a small run of cattle here today, and besides that the quality was rather interior. Packers, though, took hou in good snape, and the market ruled active from start to finish, everything being disposed or in good season. on.
The quality of the cornfed steers on sale was poorer than on any provision day this week, and in fact there was nothing oftered that could be called good. The market, though, could be quoted generally about steady, although buyers were not particularly anxious for the kinds that

about steady, aithough a particularly anxious for the kinds that a were offered.

The cow market was quite brisk and the prices paid were a little stronger than yesterday. The demand seemed to be active for canners and cutters, as well as the cattle began pesterday. The demand seemed to be active for canners and cutters, as well as for the better grades, and the cattle began moving toward the scales at an early hour. The big bulk of the receipts consisted of cow stuff, but the supply was none too large to meet the demand and the pens were cleared in good season.

Bulls, veni caives and stags were all easy to dispose of at yesterday's prices. There was not much change in the stocker and feeder situation. Supplies were very light and so also was the demand. As noted yesterday, country buyers are all looking for the cattle of good quality, so that the inferior grades are almost unsalable. The market yesterday took a big drop on the common kinds, and the few that arrived today were again extremely slow sale at still lower prices. Representative sales:
