The conduit ordinance which was sidetracked at the meeting of the city council Monday night was brought up again at the adjourned session yesterday afternoon and was passed. Alderman Olson, who assisted in defeating the passage of the measure Monday night, changed his mind yesterday and voted for its passage. Alderman Tinley was not present, so Alderman Casper was left alone to oppose the ordinance which he did with considerable vigor and warmth of oratory. The ordinance passed yesterday provides only for the placing of telephone wires in underground conduits action being deferred on the ordinance relating to the wires of the telegraph electric light and motor companies until the measure can be redrafted by the city attorney.

telephone wires within a prescribed area must go underground before August 1, 1904. The district covered by the ordinance is as follows: Commencing at the south side of the alley between Broadway and First avenue at a point on the west line of Pearl street; thence west on the west line of said alley to the west side of Ninth street; thence north along the west line of Ninth street to the center line of Indian creek; thence easterly along the said center line of Indian creek to the west line of lot 1 is block 2. The committee to which the matter fireescapes had been entrusted reported through Member Cooper that contracts for the erection of spiral stairway escapes had been let to J. C. Bixby & Son for \$295 for the Bloomer school and \$285 for the High school building. On the recommendation of the committee the secretary was instructed to advertise for bids for a spiral fireescape for the Washington Avenue school building. Member Gorman suggested a plan for disinfecting all the pencils, blocks and other material used in the kindergartens as a preventative against the spread of diphtheria. He gave it as his opinion that the

ST. LOUIS, Jan. 20 .- Jay Lahmer, manager of the D. R. Scott Soap company, is statehood for Oklahoma, Arizona and New dead at the City hospital. He was shot accidentally, it is believed, while alighting from a street car at High and Franklin streets, but by whom it is not known. The police are looking for a saloon

keeper and a gang of four negroes who participated in a pistol duel at the place named when Lahmer was wounded. The saloon keeper, whose name is John McGilicuddy, is still at large and the entire police force is looking for him on the suspicion that he fired the shot that killed John H. Lahmer. McGilicuddy is a constable and well known local politician.

Claibourne Mosby, one of the negroes men-

tioned, is under arrest.

Or Julius Remmson on this subject says

Nervous persons, people run down in health and of low vitality should est mest and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these creellent tablets taken after dinner will digest several thousand grains of mest, ages or other animal food in three hours and no cantter how weak the stomach may be no trouble will be regular practice is made of using Stuart's Dyspepsia Tablets, because they supply the pepsin and disstase necessary to perfect digestion and every form of indigestion will be overcome by their use."

That large class of people who come under the head of nervous dyspeptics should eat plenty of meat and insure its proper digestion by the daily use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets composed of the natural digestive principles, pepsin, diastase, fruit acids and calts, which actually perform the work of digestion. Cheap cathartic medicines, masquerading under the name of dyspepsia cures are uscless for indigestion, as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its many forms is simply a failure of the stomach to digest food and the sensible way to solve the riddle and cure the dyspepsia is to make daily use at meal time of a preparation like Stuart's Dyspepsia Tablets, which is endorsed by the medical profession and known to contain active digestive principles.
