WHEAT SALES ARE ENORMOUSLY HEAVY

Values Break When Long's Leader Strives to Realize Heavy Holdings of May Delivery-Other Grains Fall in Sympathy,

CHICAGO, Jan. 27.—There was an enormous trade in wheat today and heavy realizing by the leader of the longs caused a break of over 2c in the May delivery, and the close was weak and at a loss of 2%c from yesterday's close. May corn closed %c lower, with oats down 1/2%c. Provisions closed weak, the May products being from 10c to 22%c lower.

Lower cables and liberal receipts, especially in the southwest, caused a weak opening in wheat and local longs unloaded freely. There was a temporary rally shortly after the start, brought about by buying by the leading long, and May sold up to 81%282c, after opening 1/2%c to 1/2% lower at \$15,000,000. The support was only momentary, however, but when it was learned that the chief long interest was selling through brokers there was a wild scramble to secure profits, and the price broke sharply, the low point being reached at 78%c. Covering by shorts late in the day caused a slight raily, but the close was weak and 2%c lower at 78%79%c. The news was generally bearish, with the failing off of the export demand the principal influence. The volume of business was something enormous, it being reported that the leading bull disposed of anywhere from 16,000,000 to 15,000,000 bu., while commission houses were also heavy sellers. The world's visible showed a decrease of \$25,000 bu., compared with a decrease the same time last year of 1,082,000 bu. Clearances of wheat and flour were equal to 245,000 bu. Primary receipts were 643,000 bu. against 488,000 a year ago. Minneapolls and Duluth reported receipts of 334 cars, which, with local receipts of 35 cars, made total receipts for the three points 429 cars, against 427 last week and 472 last year.

Corn was remarkably firm early, considering the weakness in wheat, and it was rumored that the same firm that unloaded the big line of wheat had taken on a large line of corn. Commission houses and brokers were also active buyers. Later wheat started on its last downward course, the offerings became very liberal and a weak feeling developed, and May closed %c lower at \$15,5c, after selling between 44%c and 45%c. Local receipts were 746 cars.

There was only a light trade in oats and the market sympathized with other grains, closing weak. Commission houses and brokers were the best buyers, while local traders sold. May closed 4,27%c lower at \$16,67%, May lard down 12%c at 39.50, while ribs were 410 cars.

Provisions ruled duil and easier, the liberal receipts of hogs and lower prices at the yards contributing to the early weakness, while selling by packers added to the decline. Commission houses bought moderately. The close was weak, with May 199ck 22%c lo

market did not improve, though, to any extent, and as a result sellers had to take extent, and as a result sellers had to take the morning prices.

The cow market was fully as bad as the trade on steers, and the decline could safely be put at 10615c on the great majority of the cattle. Something that just suited the buyers, perhaps, did not sell over a dime lower, but as the big bulk of the cattle consisted of cows, packers had things very much their own way. It was late in the day before anything like a clearance was made.

HOGS—There was a heavy run of hogs here this morning, and in fact receipts were the heaviest they have been in some little time. Other markets were well supplied also, so that prices naturally took a drop. The market here opened rather slow, with the heavier weights selling from \$5.65 to \$5.70 and as high as \$6.75 was paid. Buyers though did not look at anything but the heavy hogs at first, and when they did start on the medium and light stuff their bids were safely \$670c lower. Sellers did not like to take off that much, so that the day was well advanced before much was done. The situation though did not get any better, and if anything the close was not as good. The bulk of the medium weights sold from \$6.69 down. It was late before a clearance was made. Representative sales:

FROM SULLIVAN'S

RED LETTER

WHEAT

CHICAGO, January 28.

The Armour concern manipulated wheat down on the crowd to catch stop-loss orders. The small fellows well shaken off and the wheat has passed to strong hands. May wheat will not sell below 78c this year. If you are in doubt as to your position consult THE RED LETTER at once.

MAY CORN

May corn is oversold by the professionals and elevator men. It will not sell below 44c during the life of

George T. Sullivan.
