REVOLUTIONARY HEROES ARE EXTOLLED

Statues of Carroll and Hanson Accepted to Adorn Congressional Halls Call Porth Brilliant Words of Praise,

.CASHINGTON, Jan. 31 .- The senate devoted most of I's session today to exercises in connection with the acceptance from the state of Maryland of statues of Charles Carroll and John Hanson, which will henceforth stand in Statuary hall at the national capitol.

A number of bills were passed, including the house bill providing for the creation of a general staff of the army. The statehood bill was not considered, but holds its place on the calendar.

Mr. Quay (Pa.) favorably reported his amendment to the agricultural appropriation bill, embodying the statehood bill. Mr. Beveridge (Ind.) immediately called attention to the rule requiring reports of committees to lie over for a day, and the report went over. Similar action was taken on the same amendment to the sun-

dry civil bill. A house bill was passed appropriating \$2,850 for the improvement and care of Confederate Mound" in Oakwood cemetery, Chicago.

### Army Bill Is Amended.

The bill creating a general staff in the army also was passed, after an amendment was added providing that officers now on the active list below the grade of major general who served with credit as officers during the civil war before April 9, 1865, shall, when released be retired with the rank and pay of the next higher grade.

The section is made to apply to officers who have been retired on or since August 11, 1898, but shall not apply to any officer whose service on the active list does not exceed thirty-five years, and shall not apply to any officer who has been placed on the retired list by virtue of any act of congress, nor to any officer who already has received an advance of grade at the time of retirement or with a view to retirement.

Bills were also passed appropriating \$282,943 for the payment of overtime claims of letter carriers; establishing a port of delivery at Salt Lake City, Utah; to confirm certain forest reserve sections made under the act of June 4, 1897.

Mr. Berry (Ark.) then made a motion to reconsider the vote by which the general staff bill was passed, and said he would ask for action later.

These bills were also passed: Extendlaws to certain lands segregated from Indian reservations; conferring jurisdiction on the court of claims to determine al laims of the confederated bands of Uto Indians of Colorado; also a number of private bills.

At 2 o'clock, under the special order, exercises were conducted appropriate to the acceptance of statues of Charles Carroll end John Hanson

### Eulogize National Fathers.

Mr. McComas (Md.) offered a resolution tendering the thanks of congress to Maryland for presenting the statues. The subsequent delivery of eulogies required almost three hours. All the killed. The train was derailed and several

speeches were elequent and replets with freight cars were badly smashed. patriotid kentiments. Mr. McComas spoke at length of the services of the two men, but dwelt especially upon the career of John Hanson, who as president of the continental con-

gress had, he said, performed invaluable services to the country. Mr. Dolliver (Ia.) told of a recent inspection of the original manuscript of the Declaration of Independence and said he had found that all the signatures had

CLAIMS BILLS GO THROUGH Payne Opposes Some, but House Adopts Most Money Measures Reported Thursday.

ours of general debate upon the postoffice appropriation bill, which was made notable by a speech in favor of tariff reform by Mr. Williams (Miss.), who is a candidate for the democratic leadership of the next house, the house today suspended public business and listened to three addresses by Mr. Pearce (Md.), Mr. Dalzell (Pa.) and Mr. Schirm (Md.) on the life and public services of Charles Carroll of Carrolton and John Hanson, two signers of the declaration of independence, where statues have been erected by the state of Maryland in Statuary hall. Resolutions, also were depted formally accepting the statues on

behalf of the government Mr. Grosvenor (O.) presided during these xercises and there were many Marylanders in the galleries, two sections of which had been especially reserved for their ac-

The death of the late Representative Rumple (Ia.)' was reported, the usual resolutions adopted and a committee appointed to attend the funeral. And then, as a further mark of respect, the house adjourned until temorrow, when a memorial dession will be held to pay tribute to the late Senator McMillin of Michigan.

When the house reconvened this morning it was still the legislative day of Friday and the consideration of claims bills was proceeded with.

There was not a quorum present and the situation was at the mercy of Mr. Payne (N. Y.), the republican floor leader. He allowed the bills to which he was not opposed to be passed, but everyone to which he raised objection was laid aside. Thirtytwo of the forty-five bills were passed. It was then agreed by unanimous consent that the remaining thirteen should be considered next Tuesday. At noon the house convened for the reg-

ular Saturday session. After the routine business the house proceeded with the general debate on the postoffice appropriation bill. Mr. Pou (N. C.) discussed the trust question, arguing that the bill of the judiciary committee was inadequate. Mr. Williams (Miss.) concluded the de-

bate with a speech in advocacy of the general theory of the tariff reform. At 3 o'cock, public business was suspended and the exercises in connection with the acceptance from the state of Maryland of the statues of Charles Carroll of Carrolton and John Hanson, erected in Statuary hall, took place.

Much Opposition to the Document is Threatened in Senate

MORGAN IS IN DOUBT OF LEGALITY

WASHINGTON, Jan. 31 .- After three Amendments Are to Be Offered to Searly Every Section of Treaty. and Delay in Ratification is Inevitable.

> WASHINGTON Jan. 31 .- An Important conference was held at the White House today, the participants being the president, Secretary Hay and Senator Cullom, chairman of the foreign relations committee of

the senate. The subject under discussion was the status of the Panama canal. The situation with regard to the treaty as it has developed in the senate is giving the administration and its supporters grave concern. The president is exceedingly anxious that the treaty should be ratified at the earliest possible moment, yet the indications now are that serious obstructions may be placed in

the way of ratification. The conference held today was with a view of ascertaining if possible what could be done to hasten consideration of the treaty by the senate. An effort is to be made to get the treaty out of committee with a favorable report. That the effort will be successful is reasonably certain, but then its troubles in the present view of the matter will only have begun.

Senator Morgan, chairman of the committee on interoceanic canals, takes the ground that the negotiations conducted by the State department with Mr. Herran, representing Colombia, are not valid, as he holds that Mr. Herran did not possess the necessary authority to make a treaty binding upon his country, and it is understood he will use his utmost efforts to defeat the treaty in its present form.

## To Offer Amendments.

Indeed, the information has reached the president that when the treaty is called up for consideration in the senate amendments will be offered to almost every sec-

Such action, it is well understood, will gan. seriously delay final action upon it, even if it should not result in the defeat of its ratification. It is stated definitely that any amendment to the treaty would 'compromise the entire canal project, as the government of Colombia might hesitate to accept amendments made to it, particularly if they involved essential details or prin-

During the conference today the situation was considered carefully, but what decision, if any, was reached could not be ascertained. It is known only that an earnest effort is to be made in the senate to secure ratification of the treaty at the present session, but the method of procedure is not disclosed.

While the treaty will not fall even if it hould not be ratified at this session, the officials fear that the delay which would result from failure of the senate to take final action might involve serious consequences.

The senate committee on foreign relations again today discussed the Panama canal treaty. The discussion was based entirely upon the amendments to the treaty which were offered yesterday by Senator Morgan and

Hence its constant into the pallor of age, disease dots the use, assisted by an occasional use of Cutiplexion, the softest, whitest hands and the flushes, moth, if not rust, corrupt the glory most luxuriant, glossy hair within the domain of the most advanced scientific knowledge to supply. Sale greater than the world's product of other skin soaps.

Cuticura Cintment is the most successful external curative for torturing, disfiganointing with it, preceded by a hot bath

Cuticura Cintment possesses at the same time the charm of satisfying the simple orturing disease and piqued vanity give wants of the toilet of all ages, in caring place to real suffering. A little wart on for the skin, scalp, hair and hands far more palm of the hand or on the limbs, suddenly lients, while free from every ingredient of envelops the body in its flery embrace, a a doubtful or dangerous character. Its "Single Treatment of the Hair," or use af-

Of all remedies for the purification of the proaches in specific medical action Cutieura Resolvent. In forty minutes after taking the first dose it may be detected by chemical analysis in the saliva, sweat, fat and blood, showing it has entered the circua pore in the skin in his or her face be-comes clogged a little blackhead appears of the human labyrinth. Chemical tests dozen pores become clogged there are a in which the patient has bathed on arising also show it to be present in the water in the morning, which proves that it has become a part of those fluids which pass through the skin to the surface of the body. It neutralizes and resolves away (hence its name) scrofulous, inherited and other humors in the blood which give rise to swelling of the glands, pains in the bones and torturing, disfiguring eruptions of the skin and scalp, with loss of hair.

Cuticura Resolvent extends its purifying influence by means of the pores to the surface of the skin (as above noted), allaying irritation, inflammation, itching and burning and soothing and healing eczematous humors. Hence its success in the treatment of distressing humors of the skin, scalp and blood, with loss of hair, which fail to be permanently cured by external remedies alone. Cuticura Resolvent is, therefore, not only most important in the cure of all external humors, as well as internal, but is most economical, hastening the cure and insuring its permanency. It further exerts a gentle, but constant in fluence upon the bowels, liver, kidneys and uterine system, purifying these organs and maintaining them in health, thus removing a common cause of yellow, mothy head, dandruff, belong to this scaly and greasy skin and more or less of pimples, blotches and blackheads. Mothers are modern leprosy, with its mother-of-peart assured of its freedom from any ingredient that is in the least objectionable in action taste or odor. It is, therefore, readily taken by children of all ages and conditions and should be given on the first appearance of severe humor, whether simple scrofulous or hereditary. It is also

The grandest testimonial that can be mendations of those who have used them. It is difficult to realize the mighty growth figuring humors and affections of the skin, of the business done under this name. From a small beginning in the simples the Cuticura remedies have achieved their form, against prejudice and opposition tion, scientifically compounded, absolutely trade indifference, Cuticura remedies have time and, in fact, of all time, for nowhere ception. The confines of the earth are the caravan, by pack and saddle and on the backs of human beings they have made The cuticura treatment is at once agree- their way to the farthermost parts of the

ness and debilitating humors.

There seems to be something about Cutleura remedies which invites the confidence of mankind. National peculiarities. be among the passengers of Cedric when it the thickened cuticle. Dry, without hard European, Eastern and Asiatic teachings rubbing and apply Cuticura Cintment to and traditions seem to have no adverse influence upon them. Hence they are to be and soothe and heal, and lastly, take Cu- found in every part of the world and the ticura Resolvent to cool and cleanse sight of them in the stores, bazars and MANILA, Jan. 31.—Governor Taft has the blood. This treatment affords instant native shops has inspired the American pardoned Isabel de los Reyes, the Filipino relief, permits rest and sleep in the sever- traveler in foreign lands with patriotic emotions second only to those inspired by laws forbidding combinations to enhance burding and scaly humors and points to by the contemplation of his country's fing. While it is true that prosperity to an abundant degree has blessed those conrashes and inflammation, from infuncy to nected with the manufacture of the Cuilage, when all other remedies and the cura remedies, yet it is equally true that physicians fail. The remedies con-full value has been given the public in stituting the Cuticura system will repay an return. That this latter statement is true putable record of their world-wide popu-
