FRENCH ADVICES AID MAY WHEAT SALES

Corn is Dreary, Upward Tendency Being Mere Reflection of Other Pits, but Provisions Improve on Strong Market for Hogs.

CHICAGO, Feb. 3.—Wheat was fairly active today and after a weak opening the close was strong. May being up %c. May corn was a shade higher and oats up lac. Provisions closed strong, the May products being from 7%c to 22%c higher.

Advices from France overgaianced all other news teatures in the wheat pit, the closing prices at Paris being from 1%c to 2chigher, with reports of damage by frost still coming in. There was a good demand the latter half of the day on these bullish French advices, while the offerings were only moderate, resulting in a strong clore. The decline at Liverpool, after a strong opening, was a weakening influence at the opening here and May was down %6ffec to %c at 7%6ff%c. The market quick, rallied a little later on the news from France and May gold up to 7%6ff%c, but on heavy solling due to Bradstreet's report showing an increase of 2,100,000 busnels in the world's visible supply there was a decline again to 7%c. A good general demand the latter part of the day caused another rally and the close was %c higher at 7%4ff%c. Small primary receips and fears of camage to the crop, together with a fair cash demand, were strengthening influences; clearances of wheat and flour were equal to 36,000 bushels. Against 40,000 bushels a year ago. Minneapoils and Duluth reported receipts of 88 cars, which, with local receipts of serious against mall and the market exhibited considerable dreariness, the local sentiment being bearish on larger receipts, coupled with the increase in public and private stocks of bil,600 bushels, although later in the day a firm feeling developed on the strength in wheat and the close was steady, with May a shade higher at 44%444. The price for the day ranged between 44%2646c and 44%c Local receipts were 5% cars, with nine contract grame.

Onts experienced such a trade as has characterized the market for the last week the day ranged between 440,245% and 44%c Local receipts were 531 cars, with nine contract grade.

Onts experienced such a trade as has characterized the market for the last week or ten days, no important orders being filled, and the business for the most being of a scalping order. There was little change in prices and the close was steady, with May %c higher at 354,25%c, after welling between see and 35%c Local receipts were 339 cars.

Provisions developed fair strength on good local buying and light offerings. The mniffment was helped some by a stronger hor market. There was an especially good cash demand for lard, which helped prices. The close was strong, with May pork up 22%c at 316,72%; May lard closed 7%c higher at 32,42%, while ribs were 12%c05c higher at 29,15.

Estimated receipts for tomorrow: Wheat, 20 cars; corn, 155 cars; oats, 110 cars; hogs, 1,000 head.

The leading futures ranged as follows: Articles. | Open. | High. | Low. | Close. | Yes'y 74% 77%-8% 74%03% 7514 7416 7514 7514 77176 7416 7416 7416 7416 7416 7416 74% 78% EF% 4314 4314 4314 4494 44141294 449694 4314 4294694 4314 4354 4134014 42340143

Following were the receipte and ship-ments of flour and grain:

SHEEP—There were not quite as many sheep and lambs here today as arrived yesterday and as the demand continued brisk and active a steady market for all desirable grades resulted. A large proportion of the offerings consisted of ewes and while the better grades were steady the half-fat kinds were a little slow and weak. There was another shipment of McCullough yearlings on the market and they sold for \$5.50, or a dime higher than was paid last week. There was also a prime bunch of western lambs offered that brought \$6.00, or the highest price of the season for western lambs. These prices were a little strong, so that choice sheep and lambs could be quoted steady to strong.

There were very few feeders on saie, but those that did arrive sold freely at steady prices.

GOVERNMENT NOTICE.

FORT RILEY, KAN., FEB. 1, 1903.—
Sealed proposals in cripicate will be received here until 11 a. m., March 3, 1905, for construction of two double sets of non-commissioned staff quarters. Information-furnished upon application, here; also at offices of Depot Quartermasters, Chicago, Ill.; St. Louis, Mo., and Omaha, Nebraska. Bidders will state in their bids the time in which they will complete the work, as time will form an important consideration in the award. United States reserves the right to accept or reject any or all bids, or any part thereof. Envelopes to be indorsed "Proposals for Public Bulldings," and addressed Captain G. O. Cress, Q. M.

OFFICE CHIEF GUARTERMARTER

OFFICE CHIEF QUARTERMASTER—Omaha, Neb., January 30, 1902. Sealed proposals, in triplicate, subject to the usual conditions, will be received at this office until 10 a. m.. February 28, 1903, and then opened in the presence of attending bidders, for printing required at Headquarters Department of the Missouri during the fiscal year commencing July 1, 1903, and ending June 30, 1904. U. S. reserves the right to reject or accept any or all proposals or any part thereof. Blank forms for bidding and circular giving full information and requirements will be furnished on application. Envelopes containing proposals should be marked "Proposals for Printing," and addressed to Lieut, Col. JNO. W. PULLIMAN, C. Q. M.

WHY WHEAT WILL SELL AT \$2.00.

Measure wheat by money and it is worth \$1.00; measure it with money and prosperity and it is worth \$1.25; measure it with money, prosperity and statistics and it is worth \$1.50; measure it with all these combined with a bull speculation and it should sell at \$2.00. Since 1871 the bread eating population of the world has increased 45 per cent, while there has been an increase in the production of wheat of only 26 per cent, and a decrease in buckwheat of 44 per cent; rye, 5 per cent, mazlin and other bread foods, 22 per cent. Our exports of wheat for the past twelve months are second largest in history. Our wheat crop for 1902 was only fair-sized, of poor cuality. 1901 crop was consumed on the farm and for export, owing to no coarse grain crop. The Pacific coast market this year is the sensation of the wheat world. The Chinese rice crop was a total failure last year, with a famine in Australia. Again the average price for cash wheat in Chicago for the past thirty-five years is \$1.28 per bushel. Foreign cash stocks of wheat are the smallest for the past thirty-five years. Argentine crop is positively overestimated, and when the fact becomes known that she has no exportable surplus of fine grade wheat it will cause a great surprise to the trade. The total crop of wheat of the United Kingdom is only about 40,000,000 bu., against an average crop of 65,000,000 bu, for the past thirty years, and against 85,000,000 three years ago. Again there is an established rule in the speculative world, and that is that wheat advances 40c per bu. or more every seven years. It did so in 1860, 1867, 1874, 1881, 1888, 1895, and it will do it again this year. "THE RED LETTER." Those who are interested in crops, professional movements in the speculative markets or desire a true guide should send for SUL-LIVAN'S FAMOUS RED LETTER issued at the close of business daily and mailed free to any address.

George T. Sullivan,

W/L E. WALSH. Manager, Tel- 3372.
