NEW YORK, Feb. 4 .- An army of revolutionists is now almost at the gates of Caracas, says the Herald's Caracas correspondent, and everywhere in the city preparations are being made to repel an attack. Trenches are being dug and citizens are

being drafted into the military ranks. Animals are being selzed for the government service.

President Casiro is as cool as the proverbial cucumber and is displaying a statement that the pedestal would be sent tireless energy. He is on horesback directing the defensive operations.

Despite the dark outlook many persons believe that the government will triumph over the divided revolutionary loadership and the unsoldierly crowds of the insurrection

The Matos revolution has at last reached a point where some decisive action must take place within a very few days.

The blockaders have notified the La Guayra authorities that if they se Venezuela soldiers in town they will shell the fort. This notification is inexplicable to Mulford, Captain Elenter, on January 16. the La Guayra authorities, as Venezuelan The captain of the 1 ... er vessel represented soldiers occasionally pass in the streets on their way to fight the revolutionists. La Guayra residents look upon the notification as a new tactic of the Germans to assist the Matos revolution and are asking Where is the peaceful blockade?"

Britain Will Not Back Down.

LONDON, Feb. 4 .- It might be fairly said that the allies now feel the absolute necessity of forcing from Venezuela at least some apparent concessions.

Officially it is pointed out that the pow ers have now conceded everything they are willing to grant, so far as the time, the amount and the methods of payment are concerned. The ministers of the three governments feel they cannot go before their countrymen admitting that they did not even secure separate consideration for their claims. Rather than do so Gormany is in favor of letting the whole question go to The Hague court. Great Britain is inclined to support this determination, feeling that the outcome at The Hague could not be worse than the effect of a complete backdown at this stage of the proceedings.

Disappointed with Bowen.

BERLIN, Feb. 4 .- Some disappointment is felt by the German Foreign office officials at Mr. Howen's attitude in his conferences with the ambassadors in Washington.

Mr. Bowen, It is said here, impresses the representatives of the allies as allowing his fighting upirit to overbear his desires for a peaceful settlement. His demeanor at the conferences is described as that of an advocate defending an innocent, persecuted client. Besides, the foreign office regards Mr. Bowen's first proposition as, having been changed after it was accepted and it

held that it was not clearly stated and for that reason was misunderstood. The British and German governments 30 per cent of the customs of La Gunyra and Puerto Cabello for the liquidation of their claims alone, and also accepted it provisionally. Later on, figuring on the future re-

ceipts, on the basis of receipts in the past it was estimated that it would take six years to pay the first-class claims. The two governments then replied to Mr.

Bowen in substance "Six years is rather a long time, but we

accept. Then they learned that the 50 per cent was to include the claims of all countries. This Great Britain and Germany said was not enough, as instead of six years It would take twenty years to pay all the claims. It is also averred here that Mr.

Water Works Company Interested.

It is more than probable that the city of Omaha will not get possession of the water works plant of that city without first ollowing out the usual line of procedure n Omaha affairs, a trip through the courts. Today E. M. Fairfield secured from the clerk of the house and the secretary of the senate certified copies of the proceedings of the days during the pending and

CHEYENNE, Wyo., Feb. 4 .- (Special passing of the bill known as H. R. 67, an act to compel the city council of Omaha to purchase the water works. In addition evening providing for the appointment of to that Mr. Fairfield secured certified

a comittee of three citizens of the state copies of the house and senste journal of to confer with the proper authorities of the 5th, 6th. 9th, 10th, 13th, 15th and 16th days. It is believed it is the intention of the water works company to contest the bill on the manner it was passed, or on some technicality connected with its passage. The records were carefully gone over by the secretary of the senate and by the clerk of the house, and while no irregularity or errors were noticed by them, it may be, under the examination that will be

given the records by the water works representatives, a flaw will be discovered. Secretary Keim of the senate hat returned to his post and many of the employes of the senate have followed suit.

Dates of Committee Meetings.

From now the standing committees of the senate will meet as below. Senator Hall arranged the meetings today:
