Wheat is Nervous, May Closing Three-Eighths Down, While Provisions Fall from Seven and One-

Half to Ten Cents.

CHICAGO, Feb. 5.—There was only a moderate business on the Board of Trade today and wheat rutes nervous, with a weaker tendency, May closing a lower. May corn closed a snade lower and May onts were off ic. May provisions closed easier, being from The to be lower.

Trading in wheat was rather light and local longs were disposed to sell, offerings being quite liberal throughout the day. The lower cables, both Liverpool and Paris showing a marked dectine, were the chief ractors in causing the depression. The opening was weak, with May off in the opening was weak, with May off in the close was made. A fair export demand caused a rally later to 19%c, but local realizing brought about another decline and the close was weak, with May at the low point at 18%c, a loss of ic. Argentine shipments for the week were a weakening influence, being estimated at 1,600,000 Sushels, against 650,000 the same week last year. Cleafances of wheat and flour were equal to Las,000 pushels. Minneapolls and Duinth reported receipts of 25 cars, 2 of contract grade, made total receipts for the three points of 30 cars a year ago.

Corn ruled steady in spite of the weak-

year ago. Corn ruled steady in spite of the weakcorn ruled steady in splite of the weakness in wheat, but the trading was extremely light and the market lacked any
special features. The freight blockade was
sold a prominent factor in the situation
and was one of the causes for an easier
opening, although the lower cables also
contributed to the early depression. There
was little change in prices during the day
and the close was steady, with May a shad
lower at 4% 094% of aiter selling between
4% cand &c. Local receipts were 23 cars,
with only 1 of contract grade.

Irading in oats was dull and uninteresting the greater part of the day, the busireas being largely of a local character. A
prominent long was a fair purchaser late
in the day, which caused an advance, and

ling between 364c and 364c. Local receipts twere 125 cars.

1 Frovisions showed a moderate advance, early influenced by the smaller receipts of hogs and an advance of 5645c in the price lat the yards, but the market failed to hold and the close was casier. Traie was only moderate, with free seiling of lard and ribs by commission houses. May park closed two lower at 18.55, May lard was also off 75c at 25.40, with ribs down loc at 39.124. Estimated receipts for tomorrow: Wheat, 39 cars; corn, 159 cars; oats, 85 cars; hogs. 10.000 head.

NEW YORK, Feb. 5.—COTTON—Opened steady at an advance of 183 points and after a brief interval of casiness due to profit-taking, which affected chiefly the March and May options, ruled generally firm under indications for less liberal sales than had been expected for iomorrow, continued favorable accounts from various dfy goods centers, good speculative demand from the north, strong advances from spot markets and covering. The market was firm finally and net 259 points higher thus being within about 1 point of the highest level of the day. Sales of futures estimated at 250,000 bales. The early cables came just about as expected and had little effect on local sentiment, which for a time was disposed to be governed by the heavy receipts, which were expected to exceed those of last year by about 10,000 bales, while the "in sight" for the week was likely to reach around 250,000 bales, against 14,351 last year. Trouble with wires led to predictions that weather was unfavorable to a continued full movement. The Houston estimate for tomorrow showed a considerable failing off as compared with the recent average and the pool closed firm at an advance of 5 points.

1. In an action to recover damages for an alleged breach of contract where the defense interposed is a termination of the agreement, according to the terms and in the manner provided for therein, the verdict of a jury will not be set aside unjess it is unsupported by the evidence, and is clearly wrong.

2. In instructing juries the practice of copying the pleadings in order to state the issues to be determined is not to be commended. It might confuse the jury, where the issues are numerous and the pleadings.

issues to be determined is not to be commended. It might confuse the jury, where the issues are numerous and the pleadings complicated, but unless we can fairly say that such was the result, a verdict will not be set aside for instructing in that manner.

3. One cannot complain because an instruction is too general in its nature, unless he has requested the court to give one which is more explicit, and the same has been refused. Carter White Lead company against Kinlin, 47 Neb., 409; Barr against Omaha, 42 Neb., 541.

4. A party cannot complain of an instruction for stating an issue therein which was properly made by the pleadings and which was accepted and tried without objections on his part.

5. Instructions examined and held that they were properly given and fairly submitted the case to the jury.

6. Assignments of error on account of receiving and rejecting evidence, although too general to require consideration, examined and held not to contain reversible error.
