

has been made of a bill and the secretary has had nothing to do.

"The stenographers have been busy since Wednesday working with the revenue committee, but the remainder of the employees may just as well have remained at home, where they should remain, if it is not the fault of the employees that this vacation was given them, but of the senate."

### TRAIN PUPILS FOR TRADE

Schools Should Limit Studies to Useful Arts and Sciences, Say Speakers at Educators' Convention.

ANN ARBOR, Mich., Feb. 6.—The first session today of the convention of educators and business men, who are here discussing higher commercial education, was given over to papers by prominent educators. Prof. W. A. Scott of the University of Wisconsin declared that detailed commercial courses must be introduced into colleges.

Chesman A. Herick, principal of the Central High school of Philadelphia, said there was no inducement nowadays for young men to go through high schools in view of the lack of studies in the curriculum.

Prof. E. D. Jones of the University of Michigan declared that business men were needed as special lecturers in commercial courses, and said:

"We must bring the students to the business men by means of summer schools located in industrial centers, where actual contact may be had with industrial conditions."

Prof. R. H. Thurston of Cornell spoke tonight on "To What Extent and in What Way Should Studies of Commerce Study Science?"

He said:

"The constant endeavor of school boards to crowd the curriculum with a liberal education into a common school system never succeeds. In general, where the pupil is to go directly into business, the technical science of the curriculum should be mathematics, the sciences of physics, and particularly chemistry."

He said:

### RAILWAY STRIKE AVERTED

Katy Grants Demands Made by Trainmen and Conductors

OTHER ROADS TO SETTLE ON SAME BASIS

Agreement Reached Whereby Arrangement Signed Today Binds All Other Western Lines to Ratify Similar Peace Treaties.

ST. LOUIS, Feb. 6.—General Manager Allen of the Missouri, Kansas & Texas railway stated this afternoon that the differences between his company and the trainmen had been settled and that there would be no strike.

Grand Master Morrissey of the trainmen and Grand Assistant Chief Carleton of the conductors, after the conference with the Missouri, Kansas & Texas officials, said:

"Our demands were conceded. The freight men and all the other western lines and the passenger men of 12 per cent."

There is an understanding between the other four roads, to which similar demands were made, that whatever the Missouri, Kansas & Texas should decide would be accepted as indicating the basis on which a general settlement with the employees will be made, to avert a strike.

Behind the scenes four other southern roads, it will be the keynote to the settlement of wage grievances on every road west of the Mississippi river. "Committees are now waiting at the headquarters of the Burlington, the Great Northern and the other western and northern roads, to follow the action in St. Louis."

The "Katy" settlement will be the basis of settlement on all the roads by agreement already entered into by the roads and the men.

Allen Takes Up Dispute.

Mr. Allen had his office in the Missouri, Kansas & Texas headquarters in the Waterfront building today. He at once went into executive session with General Superintendent Maxwell, who had in hand until the general manager's return the ultimatum of the 1,900 trainmen and conductors of the road for an increase of wages, amounting to 15 per cent.

It was stated that all the steps taken and all the facts bearing on the situation were being gone over carefully, a report which was borne out later when the settlement was officially announced.

Just before General Manager Harding of the Missouri Pacific went home last evening the Missouri Pacific grievance committee waited on Mr. Harding with an ultimatum demanding 15 per cent.

President Ramsey, who is west, is expected here to confer over demands made on the Wabash.

Grand Master Morrissey of the trainmen and Assistant Chief Carleton of the conductors issued a statement to the public before the happy ending was reached. They say the men had voted for an increase of pay to 20 per cent, and with that authority at their back a concession was made, the greatest that has been made by men similarly situated.

This concession was a reduction of the demand to 15 per cent. The Missouri Pacific made an offer of 11 1/2 per cent increase and the Missouri, Kansas & Texas one of 11 1/2 per cent.

Negotiations have been going on twenty-four days. "During that time," says the address, "we have heard much of the effect the granting of the increase would have on the financial future of the railways, but it is worth the careful consideration of those handling the properties what effect a refusal is going to have on the stock values of the properties concerned."

Effect Upon Securities.

"We are not altogether ignorant of the fact that the effect of a refusal will be to cause a shrinkage of value in railway securities in one day that will more than equal the amount necessary to meet the increased cost of operation involved for the period of years, and that if it should embrace any great extent of mileage Wall Street will be in a predicament to meet the financial barometer, and an offset that refusal may serve as the best corrective that has yet been found for the policy of a consolidation that has been popular of late and for which a legal remedy has been vainly sought."

From first to last we have given full consideration to the rights of others, and of the public, but we cannot accept the findings that all the obligation lies on us to conserve the interests of both the properties interested and the public, at the expense of our own, and we propose that others shall bear their share of the 'White Man's Burden'."

Telegraphers Get Increase.

ST. PAUL, Feb. 6.—The Great Northern has granted a revised schedule to its telegraph operators, whose committee has been in conference with officials here since January 9. The new schedule makes a number of increases in pay, amounting to about \$1,600 a month for the system, besides a number of modifications in the rules.

WED WHEN MAD DOG BITES

Iowa Couple Seek Clergyman and Then Enter Chicago Pasture Institute.

CHICAGO, Feb. 6.—Mr. and Mrs. Perry H. Gloom of Ames, Ia., a bride and groom of a day, arrived at Chicago today for treatment at the Pasture Institute. On Thursday night, while walking at Ames, they were attacked by a large dog, which bit both of them several times.

It was feared that the dog was mad, and Mr. Gloom and the girl, who at that time was Miss Georgia Clayton, determined to come to Chicago for treatment. Before starting for this city they decided that they wished to live or die together and accordingly got married.

A first treatment had at the institute

### STRIKE LASTS LESS THAN DAY

Montreal Street Car Men Riot and Win All Demands

STOP TRAFFIC ON ALL CITY LINES

Most of Men Involved Were French Canadians, Who Received Support of Their Fellow Countrymen.

MONTREAL, Feb. 6.—The street railway strike was settled tonight. The officials of the street railway company met a committee representing the men and offered them a 10 per cent advance, recognition of the union and reinstatement of all men discharged for belonging to the union.

A meeting of the men is being held to ratify the acceptance of the terms.

Rioting by the striking employees of the Montreal street railway and their sympathizers started early in the day. A car was wrecked less than two hours after the mass meeting held after midnight, at which the action of the union in ordering a general strike was endorsed.

More than 1,000 street railway employees attended the meeting and an equal number of their friends waited outside the hall to hear the result of their deliberations. The men that a general strike had been declared was received with cheers and the strikers, accompanied by their friends, marched toward the different car yards, shouting and singing.

A large crowd assembled at the head of Court street. The word was passed around that a car was running on one of the principal streets. A crowd of strikers and their friends went to meet it.

When the car reached the corner it was met with a volley of stones. The car was roughly handled and forced to leave the car.

The mob hurled stones and bricks at the car, completely wrecking it. A hurry call was sent to the police. A patrol wagon was loaded with officers and dispatched to the scene of the riot, but before they arrived the crowd had dispersed and there was no further trouble at that point.

Later a motorman who attempted to run a car out of the yard was assaulted and so badly injured that in all probability he will die.

A majority of the strikers are French-Canadians and have the sympathy of that portion of the community. Between 1,000 and 1,500 men are employed on the line.

WATERBURY, Conn., Feb. 6.—All was quiet in the trolley strike situation this morning. Last night was more quiet than any during the last week. There were no indications of an early settlement of the strike.

### MINERS' WAGES STILL IN DOUBT

Scale Committee Hits All Day, but Fails to Reach Agreement.

INDIANAPOLIS, Feb. 6.—The miners and operators joint scale subcommittee again went into a closed session today.

The subcommittee received discretionary power and were relieved of instructions to insist on the demands that the miners' convention had set forth. The battle behind closed doors today is entirely over the question of differential.

It was thought today that an agreement would be reached that a general conference of the 700 miners and operators here would be immediately called and an agreement ratified and signed for another year for Ohio, Indiana, Illinois and western Pennsylvania by tomorrow night. After being in session all day, however, the subcommittee of the scale committee failed to reach an agreement. The question of the differential between machine and pick-mining is still the obstacle.

Illinois is the district that is preventing an agreement now. It now has the seven differential and the miners say they never will relinquish it. The operators are still standing firmly against the narrowing of the differential and as no agreement was reached tonight it is not expected that one will be reached this week.

### PROPOSE TO MERGE UNIONS

Officers of Iron Moulders and Core-makers Submit Vote for Combination of Members.

PITTSBURGH, Feb. 6.—A proposition for the union of the Iron Moulders' Union of North America and the International Core-makers has been submitted to the various locals of both unions.

The iron moulders have the older and larger organization and for several years have been trying to bring about a union with the core-makers, whose work, it is said, is so similar to their own that there is no need of two organizations.

A vote will be taken throughout the country tomorrow.

### LOCOMOTIVE TURNS TURTLE

Open Switch Derails Illinois Central Southbound Passenger Train.

SPRINGFIELD, Ill., Feb. 6.—A south-bound passenger train on the Illinois Central was derailed at Hidalgo, thirty miles south of Mattoon this morning. The locomotive turned over and the baggage car piled on top of it, but the other cars remained on the track.

The accident was due to an open switch, responsibility for which has not been determined.

Several of the train crew and a number of passengers were injured, but none of them dangerously.

### STRIKE TIES UP SMELTERS

Arizona Railroad Men Stop Supplies Reaching Works, Which Are Closed Down.

TUCSON, Ariz., Feb. 6.—The tie-up of the railroad of the Arizona Copper company is complete. Not a single man remains at work. The smelters are idle and it is estimated that the cost to the company from failure to run the smelters is \$15,000 per day.

Superintendent Burchard held a conference with a committee of the strikers today, but no agreement was reached.

### SUPPORTS STATEHOOD BILL

Colorado Senate Urges Congress to Admit Territories to Sisterhood.

CANADA LIFTS CATTLE EMBARGO.

OTTAWA, Ont., Feb. 6.—At a meeting of the cabinet today an order in council was passed removing the embargo on Canadian cattle passing through the state of Maine to St. John, N. B. The order allows the shipment of cattle from any point in Canada over the Canadian Pacific to a Canadian port.

OTTAWA, Ont., Feb. 6.—At a meeting of the cabinet today an order in council was passed removing the embargo on Canadian cattle passing through the state of Maine to St. John, N. B. The order allows the shipment of cattle from any point in Canada over the Canadian Pacific to a Canadian port.

### CATCHING COLD

MORE DANGER FROM BAD VENTILATION THAN FROM DRAUGHTS.

Many Serious Diseases Have Arisen From Neglected Colds—Some Fatal Hints.

"Most colds," said a well-known physician, "are caught by infection, generally from the breath of some one else who has cold."

"When you are in a close room with a person who is sneezing and sniffing, open the window a little or you may catch that cold yourself." More colds are caught through being in ill-ventilated, stuffy rooms than from draughts.

Don't neglect a cold. It may run into influenza, rheumatism, consumption or any of a number of diseases. As an instance, take the case of William H. Lovett, a farmer of Galva, Kan. He says:

"I caught a 'little cold summer' before last. I didn't do anything for it and before long my health began to run down. Then I began to have twinges in my legs. They grew worse and about the twentieth of June I had to take to my bed, with rheumatism."

"What cured me? Dr. Williams' Pink Pills for Pale People. For four months I was unable to do any of the work about the place, my legs ached, I had terrible pains and the doctor didn't help me a bit. Then my brother-in-law recommended Dr. Williams' Pink Pills and, oh, about two weeks after beginning with them I felt better. They did wonders for me and now I recommend them to every one, who suffers as I did."

The cure of the several cases of rheumatism by Dr. Williams' Pink Pills for Pale People has occurred all over the land and their power in ordinary cases is proportionately greater. These marvelous vegetable pills go directly to the seat of the trouble and exert a powerful influence in purifying and enriching the blood by eliminating poisonous elements and renewing health-giving forces. They are a specific not only for rheumatism, but for all ailments arising from a disordered condition of the blood or shattered nerves, such as locomotor ataxia, partial paralysis, St. Vitus' dance, neuralgia, nervous headache, the after effects of the grip, palpitation of the heart, pale and sallow complexion and all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are sold only in boxes of fifty cents a box or six boxes for two dollars and fifty cents, and may be had of all druggists or direct by mail from Dr. Williams Medicine Company, Schenectady, N. Y.
