CATTLE—There were several cars of cars of the in the yards this morning, but very few of them were offered for sale, so there practically was no market. For the week receipts have been very liberal in spite of the big storm, and quite an increase is noted over the corresponding week of last year. The table above will show the exact brures. figures.
The week opened with the beef steer mar-

El 1 20 COWS. 800 3 10 30 BULLS 1970 1 56 2 1945 1 66 CALVES. 555 T 25 STOCK CALVES. STOCKERS AND FEEDERS.

HOGS—There was a liberal run of hogs here today for a Saturday and the market ensed off a little. The decline, however, would be covered by Night. The weights of the hogs here today were a little heavier than yesterday, which heips out the appearance of the sales on paper. The bulk of the medium weight hogs sold from \$6.70, to \$6.70, with the heavier hogs selling from \$6.70 to \$6.70, with the heavier hogs selling from \$6.70 to \$6.574. The light stuff sold from \$6.70 to \$6.574. The light stuff sold from \$6.70 to \$6.574 the harrivals was disposed of in good season. Several of the trains were late in arriving, though, so that the market did not come to a close until afterneon.

The receipts for the week nave not been very heavy, as there is quite a decrease as compared with last week and also with the same week of last year. The tendency of prices was upward until Thursday, when the average cost was \$6.8%, but since that time prices have been going down. At the ciose of the week, however, there is affil a gain over the close of last week amounting to \$67%. Representative sales:

SHEEP—There were several cars of sheep reported this morning, but up to a late hour not enough of them had arrived to make a test of the market but it is easie to say that good stuff would have brought steady prices. The supply for the weeks has been very heavy as there is a big gain over the same week of last year, but as compared with list week there is not much change.

The demand on the part of local nackers has been of very liberal proportions all the week, so that good stuff has met with ready sale. It is eafe to quote the general market active and steady to strong, which of course, means that a good many sales have been fully a dime higher than the wethers, and yearings in particular, have seen for gravity and the week prime wethers, and yearings in particular, have seld to good advantage. The common stuff on most days sold at satisfactory prices, but still whenever receipts were more liberal than usual packers would round the half fat stuff to a greater or less extent, but that is to be expected.

The demand for feeders has been fully a qualt to the supply all the week and prices may be quoted strong.

SPECIAL CARLOAD OF THIRTY-TWO IN-VESTORS just returned from a trip to the property. Write for a copy of their indorsements. Homestake started with about 30 acres of ground, practically no ore in sight, had to haul in all machinery and supplies by ox teams, had to experiment upon treatment of ores. COLUMBUS starts with 655 acres of ground, MILLIONS OF DOLLARS' WORTH OF ORE IN SIGHT, two lines of railroads at hand and the past twenty-five years' experiments of the Homestake to guide them. Columbus should certainly equal the Homestake. Write for finely illustrated prospectus. Reference-Western Bank, Denver; others if desired. Approved stocks sold on intaliments.
