

DOCTOR DENIES THE CHARGE

Nothing to Do with Robbing Graves at Indianapolis.

BAD CHARACTER OF NEGRO WITNESSES

Anxious to Obtain Subjects for College, but Only Such as Are Legitimate and Within the Law.

INDIANAPOLIS, Feb. 9.—The defense in the trial of Dr. J. C. Alexander, charged with being implicated in the grave robbing case, called its witnesses and took its case to court today. The opening statements were made by Mr. Spain.

The defense proposed to show that Dr. Alexander was of good moral character, while the negroes who testified against him were disreputable and worthy of belief.

The defense offered to prove that at the time this conversation occurred Dr. Alexander was writing to doctors in different parts of the state asking for material that could be furnished under the law.

The defense also proposed to show that the money expended by Dr. Alexander for Cantrell in the way of board and other expenses was deducted from the amount that Dr. Alexander agreed to pay Cantrell.

The defense said it would show that Cantrell was before the grand jury who went to a telephone and called up Dr. Anderson, whose office was across the hall from the office of Dr. Alexander.

The defense said it would show that Cantrell had received \$55; that this money came to him at different times in a white envelope, with no signature, and the address printed in a disguised hand.

The theory of the defense as set forth to the jury was that some one had sent this money to Cantrell to pay him for the testimony he was giving before the grand jury.

Dr. Alexander will take the witness stand tomorrow in his own behalf. It is necessary to advise from his testimony there is little evidence to be introduced except that of a few character witnesses and witnesses to prove that Cantrell is of unimpaired mind.

Three physicians testified today that he was insane, all of whom have made the subject of insanity a specialty. The court has permitted the introduction of records from the War department, showing that Cantrell was discharged from the army for confusional and suicidal insanity.

The great question whether the Philippines are ultimately to be admitted as territories or whether they should be given independence is now before us for settlement. I believe that constitutionally one or the other of these courses must ultimately be adopted and that the result should be sustained by the supreme court of the United States.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that beautiful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits.

Remember, the full name of the Company— CALIFORNIA FIG SYRUP CO.— is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only.
