measure finally gets into the house. There is no slight ground, so far as is known here, on which to base this theory and yet some think that owing to the apparent apathy of the Douglas county delegation and the outright desertion and repudiation of the bill by the Lancaster county delegation, this might be undertaken.

Protest on Elevator Bill. Ex-Governor Boyd and other grand men are in the city and it begins to look as if they were going to raise a rather emphatic protest against the elevator bill.

Legislative Gossip. House of Hall, one of the unsuccessful candidates for speaker, certainly is the "watch-dog" of the house.

House is a critical judge of parliamentary law and he makes the other members, probably less skilled or careful than he, toe the mark in doing things just so.

House, as a member remarked the other day, doesn't seem to have any pot scheme of legislation, but is there to take an active hand in everything that goes.

Today was what is known as a "stamp day" in the house. Each member received his first installment of postage stamps from the state, provided for under a resolution adopted at the first of the session.

Former Omaha Man Endorses Bone-Setter's Good Work. Dr. L. M. Rheem, Osteopath

Dr. Rheem's Reputation and Standing When He Was Located in Omaha, Gives His Statement Public Credence Among the Business and Professional Men of This Community.

This is Certainly a Strong Commendation.

"Dear Doctor: I have read your letter of the 11th inst. and I am glad to hear that you are so well. I have been very much interested in your work and I have been thinking of writing you for some time."

"From the time I first visited your office, I saw the work done by you, and I have since then had a large number of patients under your care. I have been greatly impressed with what you have accomplished in the relief and removal of apparently incurable conditions."

"NOTE—Before visiting Hudson, Wis., to see the Bone-Setter, it is best to write first and describe how you are crippled. Then the Bone-Setter can form some idea as to what may be done for you, or whether it will be necessary for you to come to Hudson or not, and give you other information which you would naturally like to have. In writing, be sure and enclose stamp for reply. Address BONE-SETTER, Hudson, Wis., and mention The Omaha Bee."

"Public correspondence is invited with the patient who make public statements, as the Bone-Setter's testimonials are all genuine."

"I have never seen the Everett's equal for tone and endurance."

NEW YORK TURF MEN HELD

Metropolitan Police Now Raid Get-Rich-Quick Firms. MANY IOWA MEN REPORT HEAVY LOSSES.

Hawkeye State Helps to Enrich Betting Concerns to Tune of Many Thousand Dollars in Chicago and Elsewhere.

NEW YORK, Feb. 14.—Detectives today raided a number of get-rich-quick concerns which claim to operate for their customers on the turf.

Among the concerns raided are: Crawford & Co., 115 Nassau street. The Reliable Investment Bureau, 99 Nassau street.

Those arrested were: Henry T. Cartwright, alias Crawford, and William Treadwell, alias George E. Stone, brokers of Brooklyn, and Charles Goodrich.

The first two were arrested at 99 Nassau street and Goodrich at 115 Nassau street. They are charged with fraudulent use of the mails.

Cartwright and Treadwell placed advertisements in the papers for subscriptions to a single-horse wire and three-horse wire on the races, and agreed to return profits of \$67.50 in seven weeks on each \$100 invested.

Cartwright also publishes a magazine purporting to deal with financial questions. The complainants as far as known are Moses O. Harr of Berwick, Me., Mrs. Gilroy of Montclair, N. J., Samuel P. Duffell of Dearborn, Mich., C. S. Kellogg of Clinton, Ark., E. A. O'Brien of Dayton, O.

The police say Cartwright and Treadwell wrote prospective clients over their own names explaining the scheme and referring to the Crawford company and George F. Stone for references. A specialty was made of profiting by the sale of shares in six stocks being found in the offices of Crawford & Co., which contained the names of none but physicians.

Cartwright is said to live in expensive style in Brooklyn, where he has a large aggregate of \$100,000. These demands, the police say, would never have been granted, for Broilaki had the previous day declined to refund an investment of \$5,500 to an express company.

Claims All Will Be Paid. WASHINGTON, Feb. 14.—The Washington branch of the E. J. Arnold company of St. Louis has closed. A bulletin posted yesterday by the St. Louis office stated that Broilaki and signed L. A. Gill, one of which says: "Had to suspend during the run occasioned by attack of a local paper. We are all right, 'brother' and will pay everybody."

There are 200 subscribers in this city, each having from \$50 to \$500 invested. From the correspondence and literature of the firm filed as evidence by the grand jury, it develops that Postoffice Inspector George A. Dice recommended a fraud order against this concern after his investigation.

Instead of the order, it is stated, Arnold & Co. received a letter from an influential postal official, which they used as an advertisement. The writing of this letter and the reasons for overruling the recommendation of Inspector Dice will be made the subject of a sweeping investigation.

Two run free lottery routes will be established March 2 at Waubay, Day county, S. D. area covered, eighty-one square miles; population served, 1,000.

LOVES THE AMERICAN PIANO

Gabrieliwicz Uses an Everett and Says He Has Never Seen Its Equal for Tone and Endurance.

SAN FRANCISCO, Cal., Feb. 14.—(Special Telegram.)—Ossip Gabrieliwicz, the Russian pianist, has completely captured the hearts of the San Francisco audience.

He has appeared with his orchestra in four public and several private recitals. No pianist has ever exceeded his phenomenal success, or, perhaps, equaled it.

He is a brainy young man, admires the country and its resources and can talk entertainingly in perfect English.

"What do you think of American pianos?" asked a reporter.

"I love them," he answered, "they are wonderful. In Europe an artist often has to use two at one concert, but I use the same piano night after night and it still falls me. At the Everett factory in Boston, in New York, Cincinnati, Chicago and San Francisco are reserve concert grands for my use, but they are unnecessary. I have used an Everett piano in St. Petersburg the last three years and in its perfect. I have never seen the Everett's equal for beautiful tone and endurance."
