

TILLMAN DEFENDS LYNCHING

New York Press Club Has Invited Guest Speaking at Banquet

SENATOR PROPHECIES RACIAL WAR

Says Blood Will Flow if Negroes Are Not Kept Down and Made Subject to Whites They Would Master.

NEW YORK, Feb. 14.—Something of a scene resulted at the Press club banquet tonight, when Senator Tillman defended the summary way in which southerners punish negroes.

At first he listened to with silence, if not enthusiasm, but after a few minutes hisses became more and more frequent and finally someone called out, "What about your nephew?" The remark created a momentary uproar, but that was all.

Lynchings Forced Upon Them.

After an impassioned recital of the perils to the white population of the south threatened by the increase of the power of the negroes, Senator Tillman said:

"We were compelled by the exigencies of the situation to use the shotgun and the lynch law and we used both. Why? Because in the state of South Carolina there were 30,000 more negro voters than there were white voters."

South Carolina, he continued, had established free schools and ever since there had been more negro children in them than white children.

"Do you think it was our purpose to raise these negro children to a condition of enlightenment in order that they might govern us?" he asked, and then in answering his own question, he thundered out: "By the Holy God, no!"

"Three months ago," he continued, "the president wrote a letter in which he said that when a negro showed himself qualified to fill public office he was unwilling to shut the door of hope to his race."

Foresees Mulatto Race.

Commenting on this the senator said if the present condition of education continued and the negro gained possession of the state of South Carolina and subordinated the white, the deplorable result would be that in a hundred years the population would be half mulatto. He had no practicable solution of the problem, unless the north took its share of the blacks.

His address grew more impassioned as he continued to defend the summary measures adopted for the punishment of negroes guilty of crime and especially against women.

"What about your nephew," shouted someone, and thereby raising a momentary uproar.

"There is much I could say and would like to say, but I regard it as highly inappropriate to refer in public to family affairs," responded the senator when silence was restored.

Before concluding his address he said that if the policy of raising the negro to

power in the south was carried too far the result would be bloodshed, which would be heaped upon the heads of those who tried to force the white population into submission to the black.

This was not a threat, but simply a statement of what he knew from his acquaintance with the conditions in the south.

TELLS TALE OF HOLD UP

Prisoner Says Burlington Robbers Would Have Succeeded Better but for Drink.

BUTTE, Mont., Feb. 14.—George Cole, under arrest here, has made a confession of the Burlington holdup of Wednesday and implicates George Howard, alias Joe Kirby.

He says they sent a boy to Morrow's livery stable on South Main street, to hire a rig about 9:30 Tuesday night. They drove to the scene of the holdup and held up the train. Kirby had two guns, but was too drunk to use them. Kirby is the man who jumped onto the engine as the train was nearing Homeside and compelled the engineer to stop and made the freeman get down. But for Kirby's drunken condition, Cole says they would have met with better success. Cole and his companion were arrested yesterday.

POLICE SEEK HANNA'S SON

MORGAN'S REPRESENTATIVE ALSO SOUGHT

Young Men Returning from Banquet Said to Have Brutally Used Legislator, Throwing Him from Hack They Wanted.

CHARLESTON, W. Va., Feb. 14.—John H. Winder, general manager of the Kanawha & Hocking Coal company, Dan Hanna, son of Senator Mark Hanna, and others are charged with assaulting Hon. O. Caldwell, a member of the legislature from Ohio county, early today while the latter was going home from the legislative club during the night, so it is charged.

They were on their way to the Kanawha and Michigan depot and wanted a hack. They hailed the hack in which Representative Caldwell was riding and attempted to enter. Caldwell protested and said the hack was his. Winder and Hanna are said to have entered the hack, and it is charged, Winder dealt Caldwell a hard blow in the face, rendering him unconscious. Representative Caldwell was thrown out of the hack and the others took charge of it.

Caldwell was picked up by friends and taken to the hotel in a serious condition. Winder, Hanna and others left on a train for Columbus, O. A warrant for their arrest was sworn out by Caldwell and telegraphed to Point Pleasant, W. Va., but there has been no response up to this afternoon. The affair has caused a sensation here.

Representative Caldwell is resting well under the care of physicians. He was badly hurt and may lose one eye, it is announced that the friends of John H. Winder in the coal business here secured the countermanding of the messages for the arrest of the parties and that their private car passed over the Ohio river bridge at Point Pleasant unimpeded. The warrant was sworn out by Captain J. B. White.

Winder represents the interest of J. Pierpont Morgan in Ohio and West Virginia and all the coal operators here, it is said, pleaded to have the order of arrest rescinded. Winder is here frequently on business, but it was the first visit of Hanna, and the others. It is stated that Caldwell's friends will offer a resolution in the house of delegates inquiring into the reason for the countermanding of the order for the service of the warrant.

COLUMBUS, O., Feb. 14.—Messrs. Winder and Hanna arrived here over the Toledo & Ohio Central at 2:45 p. m. Mr. Winder was shown the Associated Press telegram and denied the charges. He had not been to a banquet in Charleston, and had not seen the man alleged to have been assaulted.

A special from Point Pleasant says Winder and Hanna were locked in their private car when the train passed that point. Before the doors could be broken into, the train pulled across the bridge into Ohio.

A number of valentine parties were given by high school girls in the evening. The parties were given by Miss Sarah Martin for the Browning club. Anyone looking for enthusiasm among the students will find it at the Omaha High school. The double quartet, with the melodious voices, pleased the audience greatly by singing "The Maiden with the Dreamy Eyes." Messrs. Fairbank, Hartley and McFarland sang "Politeness is a Gentle Art," composed by Leslie Greenleaf. "Don't Mind Me," by the same author, was sung beautifully by Miss McDermid. S. A. Patterson, one of the directors of the Monmouth Trust company, said: "Whether the trust company will ever open its doors again depends on the stability of the securities held by the officers. Just how much money was advanced to the Prater Mountain Copper company of New Mexico, which was promoted by President Twining of the trust company, I cannot say. I do not know the value of those securities."

Mr. Patterson stated that \$30,000 worth of copper stock had been sold in the vicinity of Asbury Park.

DRUNKENNESS IS A DISEASE

"WILL POWER" WILL NOT CURE IT

The curse of drunkenness is the besetting sin of the land. The demon of intemperance makes no discrimination in his victims, striking down rich and poor alike and blighting the lives of millions every year.

Many a young man of brightest promise and greatest mental and physical gifts has found the dishonored grave of a drunkard, instead of the honorable place to society for which his attainments would have fitted him, and to which his station in life would have entitled him.

In days gone by it was thought that a drunkard was a drunkard merely because he wished to be so, the popular opinion being that any man could stop drinking if he would only exert sufficient will power.

The medical profession has long since recognized the fallacy of attempting to cure a drunkard of his intemperate habits by moral suasion. It has been for years a well-known medical fact that continued indulgence in alcoholic stimulants causes the stomach and digestive organs to become diseased. Physicians will tell you, therefore, that in the vast majority of cases habitual drunkenness is a physical disease, requiring physical treatment.

This is far too practical an age for "faith cure" fallacies. It will not now be contended by many sane persons that organic diseases can be cured by mental processes.

The secret of the proper way to treat the abnormal craving for drink has been discovered by a chemist of many years' standing, and after thorough test, during which it has been demonstrated that it never fails to perform its mission, a preparation has been placed on the market which will positively and permanently destroy the craving for liquor, at the same time that it restores the normal condition of the nerves of the stomach and the digestive organs, toning up and improving the health of the patient.

"ORRINE" is the name of this wonderful preparation, which is now on sale all over the United States, sold and recommended by the leading druggists of the country.

"ORRINE" IS ENDORSED BY THE U. S. C. T. U. Physicians, clergymen, public men, many members of the Y. M. C. A., and thousands of others. The good work which this remedy has done has made its name known from Maine to California, and has caused such a demand for it that its manufacturers, who are well-known and prominent men of Washington, D. C., have been unable to supply that demand.

"ORRINE" is now on sale in Omaha by Sherman & McConnell Drug Co., wholesale and retail druggists, corner 16th and Dodge streets.

In every package there is a registered guaranty that this remedy, if taken according to directions, will permanently destroy the craving for liquor, with the distinct agreement to REFUND THE PURCHASE MONEY if it ever should fail, which it never has done and never will. For the drunkard unwilling to be cured, "ORRINE" can be given in food, tea, coffee, water or milk, WITHOUT THE PATIENT'S KNOWLEDGE. It is in the form of a small powder, tasteless, odorless and colorless. Thousands of cures have been effected in this way, and thousands of letters have been received from grateful wives and mothers, all speaking in the

highest terms and most positive way of the complete effectiveness of this remedy. In every case the patient's health has been improved.

Prepared by expert chemists, on principles recognized as correct by the medical profession, and endorsed by the best physicians "ORRINE" leaves absolutely no bad effect of any kind. In fact the medical principles upon which it is founded would easily warrant its use as a tonic. It cures the drink habit by removing the craving for liquor, soothing the nerves, curing the diseased stomach lining, bringing back a normal and healthy appetite and restoring normal conditions. There are absolutely no poisonous drugs, opium, cocaine or other injurious ingredients in "ORRINE". In fact, a child could take it without the slightest risk. But it does the work, and THE CRAVING FOR LIQUOR NEVER RETURNS.

Thomas S. Hopkins, post commander of the G. A. R., of Washington, D. C., writes: "Personal investigation has proven to me that 'ORRINE' cures the liquor habit. I think all the temperance organizations in the country should take it up and distribute it." Hundreds of other similar testimonials have been received from prominent persons all over the land, and will be published from time to time, by consent of the writers thereof. Sealed booklet mailed free.

The price of "ORRINE" is \$1 per box, six boxes for \$5. Mailed in plain sealed wrapper on receipt of price, by ORRINE COMPANY, Washington, D. C. Sold and recommended by
