

THE VALUE OF CHARCOAL

Few People Know How Useful It is in Preserving Health and Beauty. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature...

Charcoal is a remedy that the more you take of it the better it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines...

Charcoal sweetens the breath after smoking or drinking or after eating onions and other odorous vegetables. Charcoal effectively clears and improves the complexion...

It absorbs the injurious gases which collect in the stomach and bowels. It disinfects the mouth and throat from the poison of catarrh. All druggists sell charcoal in one form or another...

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood...

A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Absorbent Lozenges to all patients suffering from gas in the stomach and bowels, and to clear the complexion and purify the breath, mouth and throat..."

NEW LIFE TO MEN

The Long Sought "Elixir of Life," Discovered by German and English Physicians Not Only Prolongs Life, But Gives Man the Vigor and Vitality of a Bull.

Sample Sent Free to Any Man Who Will Write For It.

After years of research, eminent physicians have at last discovered a remedy which is endorsed by the leading members of the medical profession as permanent in its effect.

This company will send every person who is lacking in vitality of the nerves or sexual organs a sample treatment absolutely free.

After years of research, eminent physicians have at last discovered a remedy which is endorsed by the leading members of the medical profession as permanent in its effect.

WIN HONORS IN GYMNASIUM

Young Athletes Get Their Names on the Y. M. C. A. Bulletin.

WHAT IS NECESSARY TO WIN A PLACE. Individual Tests that Make the Records on Which Awards Are Made Require Skill and Strength.

Three sturdy High school lads, Harry B. Couseman, Ben Cherrington and R. C. Patterson, are the first to have their names placed on the athletic and gymnasium honor roll at the Young Men's Christian association gymnasium.

On Monday five events were completed. These were the relay race, the tug-of-war, the broad jump, the crab race and the under-throwing. Of these the broad jump and the under-throwing were individual events.

In addition to the scores by rank in the contest the presence of each man on a team counts 5 points to start with on each evening of the series. This is done to put an actual premium on attendance and steady team No. 4 has benefited by it.

It is hardly expected that a full attendance on the part of all teams will ever be secured, as there are so many men participating that some are sure to be absent. But this causes no embarrassment to speak of save in one or two of the team events.

Of the twenty-three events four are gymnastic. They are the parallel bars, the horizontal bars, the horse and calisthenics. In these, of course, no record or mark can be set, but the candidates undergo an examination in technique on each piece of apparatus involved.

Harry Couseman was the first on the list. He has seven points, five thirds and one second. They are third in two standing broad jumps, parallel bars, horizontal bars, horse, fence vault, and second in the under-throwing. Ben Cherrington was second on the list. He has ten points already, leading the others. Cherrington made first in the under-throwing and third in the standing high jump, standing broad jump, running high jump, fence vault, parallel bars, horizontal bars and horse. R. C. Patterson is the latest man on the roll. He has seven points, having made first in the under-throwing and third in the fence vault, the parallel bars, the horizontal bars and the horse. It is thought that this honor roll will prove a great incentive at the gymnasium, and that it will be the most popular mode of exciting interest in athletics and gymnastics ever tried here.

On last Monday night the first section of the mid-winter athletic carnival occurred at the Young Men's Christian association gymnasium. This affair will extend in a series of three sections throughout the month. The next night for meeting will be Wednesday, February 18, and the next after that on Friday, February 27. The carnival is another of the diversions planned by Athletic Director Pentland to encourage and stimulate interest in athletics. It is participated in by ten teams of eight athletes each, chosen from the gymnasium devotees. Twelve events are to be held during the progress of the carnival. The contesting teams are scored as follows:

Table with 2 columns: Team Name and Score. Includes teams like Dunbar, McCully, and others with their respective scores in various events.

A DAILY NUISANCE

A Simple Remedy Which Will Interest Catarrh Sufferers.

In its earlier stages catarrh is more of a nuisance than a menace to the general health, but sooner or later the disease extends to the throat, bronchial tubes and even to the stomach and intestines. Catarrh is essentially a disease of the mucous membrane, the local symptoms being a profuse discharge of mucus, stoppage of the nostrils, irritation in throat causing coughing, sneezing, gagging and frequent clearings of the throat and head.

The usual treatment by local douches, snuffs, salves, etc., often gives temporary relief, but anything like a cure can only be obtained by a treatment which removes the catarrhal taint from the blood and the disappearance of the inflammation from the mucous surfaces.

A new remedy which meets these requirements and which so far has been remarkably successful in curing catarrh is Stuart's Catarrh Tablets. These tablets act upon the blood and mucous membranes only. They can hardly be called a secret patent medicine, as they are composed of such valuable remedies as Blood Root, Hydrastis, Red Gum and similar cleansing antiseptics, which cure by eliminating from the blood and mucous surfaces the catarrhal poison. Stuart's Catarrh Tablets are large, pleasant tasting lozenges taken internally, allowing them to dissolve slowly in the mouth; in this way they reach the throat, fauces and the entire alimentary canal. If desired, they may also be dissolved in water and used as a douche. In addition to the internal use, but it is not at all necessary to use a douche; a few of them dissolved in the mouth daily will be sufficient. However, when there is much stoppage of the nose a douche made from these tablets will give immediate relief, but the regular daily use internally of these tablets will cure the whole catarrhal trouble without resorting to the inconvenience of a douche. Dr. Bennett states "that the internal treatment for catarrh is rapidly taking the place of the old plan of douching and local application and further says that probably the best and certainly the safest remedy at present on the market is Stuart's Catarrh Tablets, as no secret is made of their composition and all the really efficient remedies for catarrh are contained in this tablet." Druggists sell Stuart's Catarrh Tablets at fifty cents for full sized packages. Ask your druggist and if he is honest he will tell you there is no safer, more palatable, more efficient and convenient remedy on the market.

straight through by a regular system, and the team with the highest standing at the end wins first honors. In each event first, second and third place is scored. First counts 5 points, second 2 points and third 1 point. Last Monday was the inauguration of the scheme here. The teams are named by numbers.

TRUSTS AID SOCIALISM

Grosscup Says Consolidation is Wedding Public to Collective Ownership.

CORPORATE CONTROL IS ONLY REMEDY. Anti-Combine Measures Passed by Congress Are Dubbed Ineffective and Only Useful to Trained Investors and Speculators.

ANN ARBOR, Mich., Feb. 14.—Judge Peter S. Grosscup of the United States circuit court of Chicago, lectured before the University of Michigan Good Government club tonight on "The New Nation."

His speech was in part as follows: In the nature of things we must expect that men who do not see their way clear to an improvement of their conditions under the old forms of industrial liberty will sympathize with any system that promises relief. The separation of labor from proprietorship is the most unrepugnant and menacing fact that now confronts the American people.

Trusts accentuate menace. The consolidation idea has thus far accentuated this menace and by narrowing the field of competition, conservative force will swing in time to those who already oppose the institution of property and socialization inevitable alike. Our first duty is to wake up to the realization of the situation and to put the forces of industrial freedom in order. Not until we have done this, not until the whole property-acquiring nation of the country is again on a basis fair alike to all, can we rest assured that the encounter need be no longer feared.

But what is such fair basis? Will the people under any conditions, to any large extent, enter the field of corporate ownership? The practical question is that the fortunes of an enterprise will be controlled by the small number of the business itself, the American people will be ready to take up again their share in the proprietorship of the country.

Laws all ineffectual. The measures in congress make no change in the basis of corporate organization, they exhibit no purpose, at least, in the intention to widen the field of proprietorship of the country. The publicity of the statistics, valuable possibly to the speculator or trained investor, but not to the ordinary citizen, who is seeking ownership. It is the intervention of government as trustee, not as mere law-gatherer, a guaranty that when a corporation is created its creator has been that it is fairly organized.

But though we cannot expect adequate legislation now it will come. Unless I am greatly deceived the American people will not give up the industrial battle. Any policy calculated to merely temporize will with equal consciousness be rejected. The public mind when the public mind is made up for the diversions of the political machine of the United States will in time come face to face with the full force of the industrial battle. The people are entering and it will be made plain that but for some far reaching reconstruction of our corporate policy we are on our way to socialism or to a form of government no more republican than the one we have. The public will set our house in order; reestablish it on the secure foundations of popular proprietorship and industrial liberty.

THE HAIR BRUSH

Breeds Dandruff, Which Causes Falling Hair and Finally Baldness.

Prof. Unna, Hamburg, Germany, European authority on skin diseases, says that dandruff is as contagious as any other malarious disease, and that one common source of the spread of dandruff is the use of the same hair brush by different persons. The way to avoid catching dandruff or any other disease from another's brush, is to insist on the use of Newbro's Hairbrush. It not only kills the dandruff germ, but it is also an antiseptic that will prevent the catching of any disease whatever through contagion of another's brush.

FORMER BANKER IS FINED

Convicted of Certifying Checks When the Maker Had Not a Sufficient Deposit.

NEW YORK, Feb. 14.—Judge Thomas in the United States district court today sentenced William H. Kimball, formerly president of the Seventh National bank, to pay a fine of \$5,000 for the certification of checks drawn to H. Marquand & Co. H. M. Rose, the former paying teller of the same bank, had sentence suspended. The fine was paid by Kimball.

In passing sentence Judge Thomas said that the slightest moral turpitude had been found to attach to either defendant, nor was either shown to have made any personal gain.

Rose was a man of good character and was still retained by the bank. Kimball's mistake had discredited him for the important functions to which his life had been devoted and his private fortune was substantially lost.

Judge Thomas spoke of the high regard in which Kimball was still held by his former associates and said he knew of no moral stain attached to him. The judge did not find imprisonment was required. On the subject of over-certification of checks Judge Thomas said: "The cases of over-certification in the city of New York on any business day

A Secret Disease

Of all human diseases, that known as contagious blood poison, or the Bad Disease, has caused more misery and suffering and ruined more lives than all others combined.

It not only wrecks the hopes and aspirations of the one who contracts it, but often ruins the lives of those to whom the humiliated and disgraceful of this most loathsome and hateful form of blood poison. Children inherit it from parents, and thousands of the purest men and women have been contaminated and ruined simply through handling the clothing of one infected with this awful malady, or THE INNOCENT SUFFERING FROM THE GUILTY. It is often before the real nature of the trouble is known, many preferring to suffer in silence or leave the disease to its worst rather than make known their condition. Through our Medical Department we offer advice and help. Write us fully and freely about your case, as nothing you say will ever go beyond our office. Let us help you get rid of this fearful disease, for which some one else has doubt is to blame. It matters not how long the poison has been lurking in your system, S. S. S. will purify and build up your blood, and eliminate every atom of the deadly virus from the system and make a complete and permanent cure. S. S. S. is the only antidote for Contagious Blood Poison and has been curing it for fifty years. It contains no mercury, no arsenic, no potash or other harmful mineral ingredients, but is a purely vegetable remedy that cures without leaving any bad after effects. Our special Home Treatment book, giving the symptoms, etc., of this disease will interest you. We will mail you a copy free. The Swift Specific Co., Atlanta, Ga.

have been abundant. It is a custom; it is part of the every-day banking history. Seldom is a bank wrecked by it. That it is a custom is a fact that is dangerous for the bank certifying and those receiving the checks." The charge on which the bank officials were convicted was the outcome of the collapse of the Seventh National bank in June, 1901. It was found that the bank had systematically over-certified the paper of the brokerage firm of Marquand & Co. and the shrinkage of the value of the firm's collateral left the institution a loser in the sum of \$1,400,000.

OLD MAN PLEADS INSANITY. Jury in Murder Trial After Hearing the Evidence Finds to Agree.

CHICAGO, Feb. 14.—The jury in the Bremer murder case disagreed and were discharged today. The trial, which attracted considerable attention, was the outcome of the shooting of Lewis Mitchell, an attorney, by Robert Bremer on May 3, 1902. Mitchell was seated in his office when Bremer entered and fired two shots at Mitchell, with fatal results. No one saw the shooting or heard the conversation which led to it. Fancied jealousy is supposed to have been the cause.

Mitchell was the attorney for Mrs. Bremer and was preparing for certain litigation. The latter frequently visited his office. These visits led Bremer to believe the attorney was alienating his wife's affections. The age of the white-haired defendant, who was 75 years of age, elicited much sympathy on his behalf throughout the trial. The plea of the defense was insanity.

YOUNG CERTAINLY INSANE. Murderer is Pronounced by Doctor Both Mentally and Legally Incompetent.

OSWINGO, N. Y., Feb. 14.—Dr. Caven, the prison physician at Sing Sing, today examined William Hooper Young, who yesterday commenced his life sentence for the murder of Mrs. Anna Pulitzer. The doctor found, as did the New York physicians, that Young was medically insane and legally insane. Young's condition, the doctor said, was due to the excessive use of morphine and cigarettes.

ASK CONVICTS TO MAKE ROADS. Detroit Convention Thinks Criminals' Labor Might Well Be Turned to Account.

DETROIT, Feb. 14.—The use of convict labor to build roads was today endorsed by the convention of American Roadmakers. The Brownlow bill providing for the appropriation of \$20,000,000 by the government for the building of good roads was also endorsed.

TAKES LONG TO DISAGREE. Kansas Jury Discusses Case for Forty-One Hours Before Acknowledging Defeat.

PAOLA, Kan., Feb. 14.—The jury in the case of Lon Altman, charged with the murder of Charles Keefeaver, failed to reach a verdict after being out forty-one hours and was discharged today. Nine stood for conviction.

DEATH RECORD. Elijah D. Dickinson.

BEATRICE, Neb., Feb. 14.—(Special.)—Elijah D. Dickinson died in this city yesterday, aged 73 years. Deceased was a native of Canada and located near Oketo, Kan., in 1866, where he was engaged in stock raising and farming for many years. In 1887 he removed to Beatrice, where he has since resided. He is survived by a widow and five sons. The remains will be interred at Oketo, Kan.

Robert Clark. BEATRICE, Neb., Feb. 14.—(Special Telegram.)—Robert Clark passed away at his home in this city yesterday at the advanced age of 80 years. He had been a resident of this section for the past twenty years and is survived by his wife and one son. The funeral will be tomorrow from the home at 2 o'clock.

A Serious Mistake. To the average man it seems childish to doctor a cold, and when it becomes particularly annoying to him little or no attention is given it. Often a cold contracted in the winter is allowed to run until the opening of spring. This is a grave mistake, as even though the warm weather may bring relief, the system is thereby weakened and rendered susceptible to disease. A cold should never be neglected, whether it be a child or an adult who is afflicted, as health and often life is risked. A bottle of Chamberlain's Cough Remedy, costing but a small amount, will bring speedy relief and all dangerous consequences will be avoided.

HYMENEAAL. CHICAGO, Neb., Feb. 14.—(Special.)—Ernest Childt, a rural carrier on mail route No. 3, was united in marriage yesterday to Miss Luella Withee, a young woman living near Stella, the ceremony being performed by Rev. Shultz of Stella, at the home of the bride, in the presence of a few relatives and friends. The newly wedded pair will make their home in this city.

Swimming Records Broken. NEW YORK, Feb. 14.—The New York Athletic club's swimming tournament today broke several records. Summary: One-hundred-yard race: Harry La Moore of the Brookline Swimming club won over Charles Hubert of the New York Athletic club. Time: 1:30. Five-hundred-yard invitation race: J. W. Spencer of Columbia won. Time: 1:30. Three-hundred-yard relay race, six men teams: Brooklyn Athletic club won by three yards. New York Athletic club second. Time: 3:00. Five-hundred-yard relay race: J. W. Spencer of Columbia won. Time: 1:30.

THE REALTY MARKET. INSTRUMENTS filed for record Saturday, February 14. Warranty Deeds. Estate Peden to J. C. Robinson, 12 acres in new sub. 10-13-10. \$1,300. Nicholas May and wife to J. W. Spencer, new sub. 20-16-12. 2,450. J. H. Anderson and wife to J. W. Spencer, Anderson, lot 19, block 67, Grandview add. 500. Same to same, lot 20, block 67, Grandview add. 500. Margaret A. Anderson and Mary E. Larson to J. W. Spencer, 2 block 8, Burnham Place. 450. Minnie M. Miller and husband to Leona P. Ar, lot 8, block 8, Clifton Hill. 1,900.

Deeds. Special master R. R. Rush, block 25, Halcyon Heights. 215. F. D. Wood et al, referees to Herbert W. Windor, Windor Place. 3,300. Total amount of transfers. \$10,285.
