General Board of Trade Liquidation Induced Better Feeling in Grain Pits.

MAY WHEAT AND CORN BOTH RISE EIGHTH

Oats Drop Slightly, but Provisions Go Up from Dime to Quarter After Showing Great Strength

All Day.

CHICAGO, Feb. 18.—There was quite general liquidation in the grain pits today, but a better feeling developed toward the end of the session and wheat closed strong, with May 'go higher. May corn was up 16.5%, but oats were 18.7% lower. Provisions were strong and the May products closed from 10c to 22.46.25c higher.

There was little outside buying in wheat, the trade being mostly local, and even that was of a hesitating character. There was a disposition among longs to sell out and the selling for short account was quite pronounced. Cables were barely steady, which caused the market to open at about unchanged prices, May being a shade lower to a shade higher at 17.56.7%. The weather conditions were bearish, snows being reported over the greater portion of the winter wheat beit, and an increase of 54,000 bu. In the visible supply also added to the selling pressure, and with little support prices declined. May selling off to 77%. The weakness continued the greater part of the day, but toward the end of the session there was fair buying for eastern account, and shorts covered freely, which brought about a rally, the close being strong, with May 'go higher at 77% for after selling up to 77%. Clearances of wheat and flour were equal to 188,000 bu. Primary receipts were 70,000 bu., against 63,000 a year ago. Minneapolis and Duluth reported receipts of 544 cars, which, with local receipts of 17 cars, one of contract grade, made total receipts for the three points of 172 cars, against 736 cars last week and 455 cars a year ago.

Corn held fairly steady for a time, but eased off in sympathy with the weakness in other grains. There was but little feature to the trading, which was rather weak. As prices gradually weakened considerable long came out, and there was also free selling for the short account. A better feeling was manifested later in the day on a good cash and export demand, while the late strength in wheat also aided the upturn. The close was strong, with May 164. Local receipts were 30 cars.

Provisions were r

CHICAGO, Feb. 16.—WHEAT—Lost \$60 early on general snows and disappointing cables. There was very general liquidation for two hours and then all the decline was recovered, and the only explanation apparently was that there had been too much short selling. Patten was rather conspicuous as a celler early, but this was covered later. The visible increased \$41,000 bushels, compared with 1,160,000 decrease last year. World's shipments, 7,006,000 bushels, and only 2,000,000 from Russia. On passage decreased 312,000 bushels. Primary receipts were 708,000 bushels, against \$33,000 last year; primary shipments, 109,000 bushels, against 224,000 a year ago. Northwest receipts, 466 care, against 355 last year. Clearances, 168,000 bushels. New York reports 25 loads taken for export. Local receipts, 27 cars, with 1 contract.

CORN—The market has been dull and weak, at one time off \$10 %c, but reacting on buying by the provision crowd. There has also been buying by commission houses on resting orders around 44%c. Cash corn has been weak, with car lots \$40 %c lower. Eastern bids also have been lower. Local receipts were 409 cars, with none contract; estimates for tomorrow, 355 cars. Clearances were 510,000 bushels. The visible increased \$80,000 bushels and local stock 3,301,000, increase 224,000. World's shipments, 465,000 bushels, against 367,000 last year; primary shipments, 466,000 bushels, against 367,000 last year; primary shipments, 466,000 bushels, against 367,000 last year; primary shipments, 466,000 bushels, against 365,000 a year ago. OATS—The market has been weak, without hardly any support. The futures sold off \$40\forallet{4}\text{c}\$ and then recovered slightly. The liberal receipts on the larger proportion of standard have had their influence. Local receipts were 339 cars, with 61 standard; estimates for tomorrow, 165 cars. The visible increased 233,000 bushels. Clearances, 17,000 bushels. The cash market was unchanged to \$4c lower; the decline was on oats of low grade and in western cars.

PROVISIONS—The market opened strong and higher on lighter receipts of hogs, higher prices and shorts covering. Commission houses bought May pork and ribs. There were \$2,000 head hogs; prices at the yards were \$6\forallet{1}\$ logs in the west today, 35,200 head. Hogs in the west today, 35,200 head, against same last week and \$1,000 last year.

NEW YORK, Feb. 16.—COTTON—Opened firm at an advance of 5g8 points and following the call showed still further strength as a result of the firmer cables and unsettled weather throughout the south. There were also evidences of renewed support by the built clique that has recently become prominent in connection with the May position. After May reached 9.50c, or about 5 points above the opening, there was considerable liquidation, which was encouraged by reports that the clique, while openly supporting the market, were in reality letting go from May at the highest level. Houses were selling the latter options more or less freely and several prominent floor brokers had orders on the selling side showed to originate with prominent Philadelphia spot interests. The New Orleans market held firmer than New York and the spot markets showed no intention of weakening. The aspects also were a very buillish factor, footing up 45.549 bales, bringing the amount for the season to date up to within 11.872 bales of last year's heavy movement. Fresh supporting orders met little opposition and the market closed steady. Total sales estimated at 250,000 hales.

Foreign Financial.

LONDON, Feb. 16.—The disbursement of dividends increased the supply of money in the market today. The demand was active. Discounts were quiet and firm. Gold hills were taken cautiously, in view of the prospects of considerable exports of gold to South America. A fair amount of business was transacted on the Stock exchange, notably in American and Canadian securities. Home rails were generally steady. Consols were easier. Colonials were depressed on account of alarmist reports regarding Australia's financial position, which caused nervous holders to realize. Home rails hardened on some outside support. Americans opened irregular, improved mostly to above parity, were moderately active and closed steady. Grand Trunk was continued in demand. DeBeers were weak on account of fears of the loss of the monopoly. Bullion amounting to £40,000 sterling was withdrawn from the Bank of England today for shipment to South America.

Total 4,134 6,647 CATTLE—The week opened with a fairly liberal run of cattle, but as the demand was in good shape on the part of packers and feeder buyers the general market ruled active, with prices steady to strong as compared with the close of last week. Owing to the activity a fairly early clearance was made. ance was made.

About the usual proportion of cornfed steers was included in the offerings this steers was included in the offerings this morning, but buyers started out in good season and the market ruled active and steady to strong. Packers apparently were all anxious for supplies and in some places the more desirable grades brought prices that looked a little higher than those in force at the close of last week, but as a general thing the situation could best be described by calling the market steady to strong.

described by calling the market steady strong.

The demand for cows and heifers was also in good shape and the market was active, with prices steady to strong as compared with the close of last week. All kinds sold freely, canners and cutters as well as the better grades of cornfeds. In spite of the fact that a good proportion of the receipus consisted of cow stuff, a reasonably early clearance was made.

the receipts consisted of cow stuff, a reasonably early clearance was made.

Bulls were a little easier to sell than they were toward the close of last week, but there was not much change in the prices paid. Veal calves were in good demand at fully steady prices.

There was quite a sprinkling of stockers and feeders in the receipts this morning, but the demand was equal to the occasion and just about steady prices were paid. The better the quality the easier the cattle were to sell, but still even the common stuff and the warmed-up cornfeds sold in about the same notches they did at the close of last week. as usual so the market on paper does not show the advance. Some western lambs of only fair quality sold as high as \$6.15, and some fair ewes brought \$4.30.

The same as has been the case for some little time, there were not enough feeders to make a good test of the market.

CORN.

Exports of corn are enormous. Freight blockage east practically Shipments of corn the past week the largest in months. Amount of corn at Chicago and other prominent points are diminishing. Grading extremely poor. Market oversold. Holders are largely in the hands of a powerful bull crowd and preparations are in order for an active bull campaign shortly.

WHEAT.

Further liquidation in wheat will come sarly in the month when buying will pay big profits. I am a believer in \$2.00 wheat on the May delivery and I have thousands of reasons to substantiate my post

STOCKS.

There is a wonderful demand for good railway shares for investment and speculators who desire to take advantage of weak spots such as were at hand late Friday, and the opening yesterday, to earn more by their capital than a fair rate of interest, should telegraph heavy buying orders on the following stocks: Baltimore & Ohio. Missouri Pacific, Copper, Brooklyn Rapid Transit. Read all about them in the RED LETTER. mailed free of cost to any address for five days. Sirong buyers of these stocks on my advice will make enormous profits. 'Write, tele phone or telegraph at my expense, and in return get the most reliable advice-money making advice, that modern methods can secure
