HOUSE REJECTS ARMY BILL COMPROMISE

Refuses to Allow Civil War Veterans Retired with Higher Rank or Officers to Make Government Their Savings Bank.

WASHINGTON, Feb. 18.—The house today by a majority of 2 to 1 rejected the conference report on the army appropriation bill because of its provisions for the retirement of civil war officers at an advanced age...

Bill is Not Repealed. The speaker announced that the committee on rules had considered the question asked yesterday by Mr. Cooper (Tex.) concerning a bill passed Monday...

Mr. Hull (Ia.) then called up the conference report on the army appropriation bill. Mr. Hay (Va.), one of the conferees, strenuously opposed the adoption of the bill...

Mr. Hayden (Tex.) charged Mr. Hull with bad faith in not giving the house a chance for a vote on the deposit amendment. He said Mr. Hull had promised such a vote.

Mr. Hayden (Tex.) charged Mr. Hull with bad faith in not giving the house a chance for a vote on the deposit amendment. He said Mr. Hull had promised such a vote.

The Sunshine of True Health and Life After Years of Agony.

Paine's Celery Compound Rescues a Sufferer Who Had Given Up All Hope.

The liver, the largest and one of the most important organs of the body, is to thousands of young and old, a source of suffering. It has been truly said that a diseased liver means physical and mental tortures and dangers.

Are you a victim of liver complaint? Do you experience any of the symptoms noted above? If so do not fail to make immediate use of Paine's Celery Compound, the only medicine that directly strikes the root of the trouble and that infuses new life into every inactive organ.

Mr. Carmack (Tenn.) said where debates were carried on purely for the purpose of obstruction they were likely to lead to a closure rule, which would defeat legitimate debate.

No action was taken on the resolution of the substitute. Although a motion had been made to refer the matter to the committee on rules.

Messrs. Stewart (Nev.), Platt (Conn.) and Jones (Ark.) were appointed conferees on the Indian appropriation bill.

Mr. Mason (Ill.) reported the postoffice appropriation bill.

In addition to the amendment providing for the admission of New Mexico and Arizona as states, the bill makes changes with respect to the postoffice department.

The statehood amendment is somewhat different from that which was passed in 1901, whereas it is the last mentioned in the bill. The transposition was made in order to give Arizona the benefit of the first vote in case of a division.

Other amendments are as follows: The aggregate amount to be paid as salaries to postmasters is changed by \$733,000, and definitely fixing the salary of the postmaster at Chicago at \$5,000. There also is a general increase of the salaries of assistant postmasters.

The appropriation for free delivery service, \$190,280,220, an increase of \$1,960,350. Ten division superintendents in the rural free delivery service are allowed, instead of seven, as in the house bill, and the total appropriation for that service is placed at \$1,265,500, instead of \$9,220,400, in the house bill.

The salary of the superintendent of railway mail service is increased from \$3,500 to \$4,000, and that of his chief assistant from \$3,000 to \$3,500. The appropriation for this service is increased to a total of \$11,923,200.

At 1:45 the senate went into executive session and at 5:20 adjourned.

OUTPUT OF PACKING HOUSES Markkling of Hogs Increases Moderately as Compared with Previous Week.

CINCINNATI, O., Feb. 18.—(Special Telegram)—Price Current says: The marketing of hogs increased moderately, the total western packing being 485,000, compared with 418,000 the preceding week and 610,000 last year. Since November 1 the total is 7,700,000 against 8,885,000 a year ago. Prominent places compare as follows:

Table with 2 columns: Location and Quantity. Includes Chicago, Kansas City, South Omaha, St. Louis, Indianapolis, Milwaukee, Cincinnati, Ottumwa, Cedar Rapids, Sioux City, St. Paul.

DECLARES TRUSTS OUTLAWED Minnesota Senate Bill Provides for Contention of Combines' Property.

ST. PAUL, Feb. 18.—Senator Thorpe today introduced a bill to protect trade and commerce from restraint and to prevent and prohibit rebates on the transportation of produce.

It is most drastic in its provisions. It provides for a heavy penalty for violation and confiscation by the state of property belonging to trusts and combinations.

DEATH RECORD. Dennis Swensie is Buried. CHICAGO, Feb. 18.—The funeral of Dennis J. Swensie, Chicago's veteran fire chief, was conducted quietly today and with an absence of ostentation in deference to his known wishes respecting his last rights.

FUNERAL OF MRS. WATKINS. HASTINGS, Neb., Feb. 18.—(Special)—The funeral of Mrs. Ed Watkins occurred yesterday afternoon and was in charge of the Degree of Honor. The funeral sermon was preached by Rev. Hunt of the Congregational church and the remains interred in Parkview cemetery.

COLD WAVE STICKS

(Continued from First Page.)

reached during the night. It is still 10 below at 9:30 this morning.

PIERRE, S. D., Feb. 18.—Alarming reports come from the snow belt on the range of losses of stock during the cold period. Cattle badly nourished have simply shriveled before the cold blasts.

The losses will be heavy on both sides of the Missouri river. On the east side most of the ranches have a very scanty supply of hay. West of the river the snow belt extends out fifty miles and beyond that the grazing is fair.

SIoux CITY, Ia., Feb. 18.—Today is the coldest of the winter, the thermometer registering 15 degrees below.

TOPEKA, Kan., Feb. 18.—The weather today has been the coldest of the winter in Kansas, according to reports received here tonight. All day the mercury has been around the zero mark, much of the time below.

There is much complaint about the scarcity of coal, little difference existing between the conditions now and when the coal famine was worst. Many stories of suffering are coming in. There has been much loss of stock.

Trains Are Badly Delayed. OGDEN, Utah, Feb. 18.—All trains of the Union Pacific from the east are indefinitely delayed. No trains have arrived in Ogden over the road since yesterday morning.

Passenger crews that went east with Nos. 2 and 4 were double-headed back from Ogden today. Trains Nos. 2 and 4 have gone on to Wellsville, and it is reported that the snow blockade will be broken at Sherman Hill in time to let them through to Cheyenne. Trains from the west are delayed from three to five hours.

Cold Slaps Chicago Men. CHICAGO, Feb. 18.—A "reinforcement" of the cold wave, which, according to the official forecast, "precludes" any moderation in temperature in the immediate future, visited this city a temperature today which promised to beat the record for the winter, reported 10 degrees below zero.

A biting wind sprang up during the night, increased in keenness and reached nearly the velocity of a gale as the day advanced, and added materially to the intensity of the cold.

There is much suffering among the destitute, notwithstanding the best efforts of all charitable organizations, although the scarcity of coal is less general than in the previous cold spells.

In addition to one death reported yesterday, the following are said to have died directly or indirectly from the effects of the cold:

Charles Burges, died from heart disease, aggravated by the cold.

Fred Richards, died from heart disease, aggravated by the cold.

Through trains continue to arrive hours behind time, while suburban and traction lines operate with more or less irregularity.

The temperature today showed a record breaking depth, the conditions today were far more disagreeable. At 4 a. m. the temperature was 14 degrees above zero.

At 9 o'clock it had recorded a fall of 16 degrees, and the indications were for still colder weather. Railroad traffic is interrupted.

He gets \$2,500 and his house rent. It costs money for him to move down here to Lincoln and serve their state and the state ought to make just remuneration for this extra expense, which it does not do under the existing laws.

But while I believe the salary question is one of importance next to the enlargement of our supreme court, we should make provision for the permanent investment of our school fund. This is a matter of prime importance to every citizen of Nebraska and should receive due attention at the hands of this legislature.

Senate Routine. The standing committees reported as follows: S. F. 55, relating to marks and brands correctly engrossed.

S. F. 49, providing that city treasurers shall be ex-officio treasurer of school board and providing for bond, correctly engrossed.

S. F. 177, providing for committee to reform schools; referred to committee on reform schools.

S. F. 97, corporation to act as trustee; placed on general file.

H. R. 40, providing that land lease shall be made in writing; placed on general file.

S. F. 74, providing for bonds of officials; placed on general file.

S. F. 2, relating to quarantine; correctly engrossed. This bill was lately signed by the lieutenant governor.

S. F. 23, providing for township organization; indefinitely postponed.

S. F. 121, establishing open season for killing game, indefinitely postponed.

H. R. 166, repealing wolf scalp bounties; recommended for passage.

S. F. 21, providing for corporations to act as trustees, indefinitely postponed.

S. F. 104, same as S. F. 21, indefinitely postponed.

S. F. 47, providing for county treasurer's seal, indefinitely postponed.

S. F. 11, providing for supreme court commission and stenographers, placed on general file.

S. F. 44, providing for county treasurer's seal and defining upon what papers it shall be used, placed on general file.

S. F. 85.—The merchandise bulk law, placed on general file.

many were there whose presence was not justifiable. Rouse of Hall moved that the report be rejected, and made a forcible speech in support of his motion.

Sweezy of Adams and Wilson of Pawnee spoke in support of the House motion. Their argument was that it would be extremely unwise to amalgamate these two institutions. Dr. Wilson brought out on the point that the age limit of the inmates of both institutions was below that of discretion, and urged that the state could not afford, though encumbered by a tremendous public debt, to close the Geneva school.

Perry of Furnas moved to table the committee report, and this motion was carried.

Objects to Items in Bill. The report of the committee on accounts and expenditures made the previous day was taken up.

Sweezy moved that two items in the bill approved by the committee be stricken out. These items were \$450 for blue books furnished by the State Journal company, and \$437.50 for bill files furnished by Harry Porter. Sweezy claimed that, in the first place, the contracts for these supplies ought to be made by the house instead of the secretary of state. He disputed the fairness and justice of both bills, and declared—as to the files that, while they cost the house \$175 each, they were worth not more than 30 cents.

McClary of Lancaster argued in favor of the bill being allowed, saying that the Journal company had stated to the committee that money was lost in printing these blue books.

Nelson of Douglas took up the cudgel against allowing the bills, and stated that the blue books contained a great deal of old matter and very little new, and were not worth \$3 each.

Sears brought out the point that any such contract made for the legislature by the secretary of state was of questionable legality.

McClary wanted to strike out of the report the item for files. Sweezy wanted the house to reject the committee's report and then deal with the two items, allowing as much as decided fair. McClary called for a division of the question. Sweezy then renewed his motion that the report as to these two items be rejected, and moved the adoption of the balance of the report. Both motions carried.

Sweezy then reported that the revenue bill had been completed, invited the members of the regular revenue committee to meet and confer on the bill with the special joint committee to get the bill ready for introduction. To this end he moved the house adjourn until 2 p. m. Thursday, and the motion was carried at 3 o'clock.

New Bills. H. R. 231, by Kennedy—Removes tax for grading and repairing roads, streets and bridges.

H. R. 232, by Kennedy—To make it optional with school boards to appoint trust officers.

H. R. 233, by Moran—To declare void sales, trades or other disposition of entire stock of goods or merchandise, wholesale or retail, of highest temperature today which promised to beat the record for the winter, reported 10 degrees below zero.

H. R. 234, by Kaveny—To license and provide against the extortion of pawbrokers for the retail of highest temperature today which promised to beat the record for the winter, reported 10 degrees below zero.

H. R. 235, by Roberts—To amend section numbered 304 of Procedure relating to stays and executions.

H. R. 236, by Roberts—To amend section 2, chapter 153, Session Laws of 1901, by requiring defendant in forcible entry and detainer proceedings to give bond for damages, as well as for rent and cost on appeal.

Currency for New Orleans. NEW YORK, Feb. 18.—The treasury has shipped \$300,000 currency to New Orleans for local business, a total of \$500,000 thus far for the week.

Blizzard in Indiana. INDIANAPOLIS, Ind., Feb. 18.—One of the worst blizzards that has visited Indiana in years came this year. Although the temperature today showed a record breaking depth, the conditions today were far more disagreeable. At 4 a. m. the temperature was 14 degrees above zero. At 9 o'clock it had recorded a fall of 16 degrees, and the indications were for still colder weather. Railroad traffic is interrupted.

lloby this afternoon and called forth several of the senators, for quiet confab. Those who talked with him said they did not know what his business here was, but it is presumed that Mr. Paxton wants to get off that Bartley bond.

What does the Union Pacific think of the new revenue bill? was asked an attaché of that corporation.

Well, while I would not care to give an expression for the Union Pacific, I would say that as far as my part I think the bill is all right. And I believe it is meeting with general approval.

It is said that the measure meets the approval also of John N. Baldwin's attorney and chief lobbyist for the Union Pacific. Mr. Baldwin is out of the city at present. He has not, in fact, been at his elegant headquarters here since about the time that the bill was said to have been practically completed so far as the actual work of deciding upon its essential component parts was concerned. During the week the legislature was adjourned to enable the joint revenue committee to proceed unimpeded with its work. Mr. Baldwin was in the city, and for several weeks prior to that time he was here, and his headquarters was about the busiest place in the "digging," too. It will be remembered that Mr. Baldwin was so greatly exercised in the proper kind of a revenue bill being framed that he went to the state of Kansas in a cargo of the proposed Kansas revenue law printed in book form, and that he systematically distributed them among the members of the committee charged with drafting this bill. It has been remarked in the last day or two that it is not surprising that Mr. Baldwin heartily indorses the new bill.

It is not quite true, however, that the bill meets with general approval. A prominent gentleman from Beatrice says of it: "The bill will be disappointing to the people at large, I am afraid, for it does not deal with the railroad taxation question as it should. One of the main needs of a revised revenue law was to provide a more equitable method of taxing railroads to make them come up to their returns to the state, but the bill, I am afraid, falls in this essential particular."

It is not believed the bill will be introduced in the house before Friday at the most; and it may be Saturday.

Gilbert's Bill Killed. The house committee on cities and towns, of which Gilbert of Douglas is chairman, today recommended for indefinite postponement H. R. 237, which was introduced by Gilbert, and in which the engineers and engineers felt a deep interest. The bill provided for the appointment of a board of boiler and engine inspectors to be constituted of stationary engineers. It was bitterly opposed by machinists and boiler makers as class legislation, since it prohibited the appointment of any man from either of these crafts to membership on the board. The machinists and boiler makers were not desirous of killing, but amending the bill, so as to give them the same rights as enjoyed by the stationary engineers. They wanted to substitute a bill, who writes changes for "engineers." In this they had the co-operation of locomotive engineers.

LIVELY TIME IN THE SENATE Discussion of Free Textbook Law the Occasion of Lively Debate.

LINCOLN, Feb. 18.—(Special)—A lively time was had in the senate this morning over H. R. 22, providing for a five-year contract to be made for the purchase of text books to be furnished pupils free of cost. The bill makes it obligatory on the school districts of the state to furnish the free text books. It also provides that, instead of making it obligatory on the Omaha schools, the board be given authority to purchase. Senator Hall argued that in some of the schools in Omaha it was not necessary to have free books, while in others it was, so that the question should be left to the discretion of the board.

Dess of Phelps announced in answer to Mr. Hall: "We have given Omaha nearly everything it wants and are willing to, except this and H. R. 171."

SHORT AND SWEET. A Quick Food Cure Quickly Told. Some have the knack of telling a long story in a few words. Such is the case with a Plymouth lady, who writes: "Here are a few lines about myself and how I was cured by Grape-Nuts food."

"For over a year I was almost prostrated with what two of our best doctors called catarrh of the bowels. Everything I ate seemed to hurt me, so my husband, having heard of the pre-digested food, Grape-Nuts, purchased a package and had me try it."

"I can truthfully say that one package did me more good than anything else I had tried. So I have continued the use of it ever since."

"I quit medicine and used Grape-Nuts and it has made me sound and well, and I would gladly recommend it to others."

Your most loyal friend, Name given by Mrs. C. E. Dutton, Battle Creek, Mich. There's a reason.

Merchants of Shelton, Neb., submitted a similar petition, which was also referred to the Judiciary committee.

H. R. 285, by Burgess of Lancaster, providing for an appropriation of \$85,000 to erect a museum and library building by the State Historical society in Lincoln, was recommended for indefinite postponement, as was also H. R. 287, by Gilbert of Douglas, providing for a commission of engine and boiler inspectors.

At 2 o'clock the house took up a special order, the report of the committee on public lands and buildings that the Girls' industrial home at Geneva be closed, on the plea that there are not enough inmates to justify its maintenance, and that the inmates be removed to the Boys' Industrial school at Kearney.

The committee reported that there are now forty-one girls in the home, but that it was the opinion of the committee "that

reached during the night. It is still 10 below at 9:30 this morning.

PIERRE, S. D., Feb. 18.—Alarming reports come from the snow belt on the range of losses of stock during the cold period. Cattle badly nourished have simply shriveled before the cold blasts.

The losses will be heavy on both sides of the Missouri river. On the east side most of the ranches have a very scanty supply of hay. West of the river the snow belt extends out fifty miles and beyond that the grazing is fair.

Blizzard in Indiana. INDIANAPOLIS, Ind., Feb. 18.—One of the worst blizzards that has visited Indiana in years came this year. Although the temperature today showed a record breaking depth, the conditions today were far more disagreeable. At 4 a. m. the temperature was 14 degrees above zero. At 9 o'clock it had recorded a fall of 16 degrees, and the indications were for still colder weather. Railroad traffic is interrupted.

ST. PAUL, Feb. 18.—The lowest official temperature in this city last night was 18 below zero. Intense cold weather is reported from all stations in the northwest. A biting wind intensifies the cold.

Zero Weather in New England. BOSTON, Feb. 18.—Zero weather followed yesterday's blizzard in New England. The temperature today ranged from 12 below zero at Nantucket to 4 below at Eastport, Me., and Northfield, Vt. In Boston the lowest official temperature was 5 above zero. Railroad and street car traffic was still considerably delayed by the snow and extreme cold.

Indian Territory Stock Suffer. GUTHRIE, Okl., Feb. 18.—The territory is again under a bitterly cold norther, which began early this morning and raged all day, the coldest of the winter. Reports from all portions of the territory tell of suffering and damage to livestock.

New Mexico Trains Stalled. SANTA FE, N. M., Feb. 18.—Four Rock Island passenger trains are snowbound twenty miles north of Torrance, on the El Paso & Northwestern railway. A force of shovellers has gone from Torrance to clear the tracks. All the telegraph wires are down. The weather is clear and warm at present over the entire territory.

Schools Close in Ohio. TOLEDO, O., Feb. 18.—As a result of the zero weather several schools have been closed here. Trains of all sorts has been hindered by the snow.
