Ramsey Refuses Wage Raise East of Misaissippi River.

MEN VAINLY OFFER TO COMPROMISE

When Suggestion is Rejected, Decide to Take Vote on Question of Sticking by Original Demands for General Advance.

ST. LOUIS, Mo., Feb. 18.-As a result of the inability of President Ramsey and the committee of the Wabash trainmen and conductors to come to terms, a poll has been ordered by the officers of the orders on the original demands. These were an increase of 15 per cent to all freight conductors and trainmen, and 12 per cent to the passenger conductors and trainmen. TO Mr. Ramsey opposed these increases west of the Mississippi river.

The order for the poll was issued to night after a conference between Presi-cent Ramsey and the Wabash superintendents. At the conference the men offered to compromise by limiting me inreases to men employed west of a line drawn from Chicago to Danville, Ill., ex- cial meeting here today and voted to including about 600 miles of the system.

This proposition was refused by Ramsay who was then notified that a pell would be to the entire system exclusive of the Catadian line.

on the ground that the Wabash lines in construction to Omaha and Sloux City. were not and should not be inluded in the western divisions, and that he same wages should apply to them as to the eastern lines.

He claims the Wabash met and exceeded he advance made by competing lines in the east and he was willing to consider n advance of lines west of the Mississippi and traismen. o meet that granted by other southwest-

-rn lines centering in St. Louis. It is stated tonight that unless there is an adjustment of the matter a strike will be ordered as it is believed the trainmen and conductors on the system will adorse the original demand.

D. D. D. guaranteed a permanent cure for

Winter Eczema

Ring Worm, Erysipelas, Barbers Itch, Salt Rheum, Tetter, Itching Piles and all diseases of the skin

Diseases of the skin are due to parasites and not to tainted blood. Thousands of wretched people become hopeless and desper ate-imagining they have an incurable case of blood poisoning, when in reality their affliction is simply caused by the activity of a local parasite, which can be cleared away in a hurry.

The wonderful D. D. D. remedy was discovered and formulated by working on the theory of parasitic irritation and it has never failed to effect a cure on every case of skin disease. The skin was created to protect the tenderer tissues beneath. For this reason it is able to withstand the effect of contact with most impurities. Its protection is only assailed when living, foreign organisms burrow into it. Skin diseases can be likened to the eruption created by ants in making their ant-hills.

The D. D. remedy quickly and absolutely removes the parasite without irritation, burning or itching. At the same time it softens the skin and heals and soothes the afflicted part.

See what a citizen of your own section says:

BURLINGTON, la., May 21, 1962.-D. D. Co., Chicago, Ill.: Gentlemen: Last July, 1981, I was suffering from what the doctors called Ecsema. I suffered from it terribly. It was all over my shoulders and arms, and from my knees to my feet. My arms and legs were red and swollen to twice their normal size. I was taken to the hospital, and remained there for five months under the constant care and treatment of physicians. They gave me no relief. Somebody recommended D. D. Rem-I purchased a bottle and applied it. The second application took out the redness and stopped the itching and burning so that I could sleep. The Resema is entirely cured on my arms, and my legs are almost well.

I recommend the Remedy to anyone suffering from Eczema. I zm 78 years of H. E. MEYER.

Calls for Fuel and Food. During the recent cold weather William

Queenan, chairman of the charity committee of the council, has been busy looking up cases of destitution. In order to assist Queenan in this work the mayor directed Inspector Jones to go about and see who were worthy and who were not. In this work Jones found that about half of the applicants did not need any assistance from the city, although they had made application. In one case it was found that the family owned the house and lot, had a ton of coal and a barrel of potatoes in the cellar, besides other provisions. What this particular family wanted was a sack of flour, some cornmeal, sugar, tea and baking powder. Inspector Jones did not stutter when he told the members of the family that the city would not furnish any supplies. Jones remembers the remarks made o him as he left the place, but he says that they would not look well in print. So far this winter the city officials have not been bothered a great deal by indigent persons. During the last few days, however, some coal and provisions have been sent to those actually in need. In some instances cases are turned over to the county, but no one actually in need is persatisfied after an investigation that the applicant is worthy. Another Claim Filed.

Yesterday a claim was filed with the city to Mexico with the horses. clerk against the municipality for damages amounting to \$5,000. This olaim was presented by Thomas Nester. He s'leges that on February 5 his wife fell on a defective sidewalk near Thirty-sixth and Q streets and died February 7, in the claim the result of the fall is given as the cause of death. An investigation shows that Dr. W. J. McCrann signed a certificate of death and gave apoplexy as the cause. The same term is used in the undertaker's burial permit. Copies of these certificates have been transmitted to City Attorney Murdock and he will bring these to the attention of the council and also to the court in car) the claim should go that far.

Murdock Investigates. In February, 1906, Catherine O'Rourke sold to George & Co. a patch of ground in signed a contract with a Chicago man, the western part of the city. In the stipu- | owner of a show now wintering there.
