DEMOCRATS FRAME OFFER

Submit Definite Proposition for Statehood Compromise to Republicans.

HOUSE MINORITY PROMISES TROUBLE

Pledge to Use Every Effort to Keep Business at Standstill as Protest Against Unsuccessful of Butler.

WASHINGTON, Feb. 26.—The senators who as a committee of the democratic senatorial caucus yesterday tentatively submitted a counter statehood proposition to the republicans today presented their proposals in formal shape to their democratic colleagues and it was generally expected they then submitted it to the republicans.

Following is the democratic proposition: The state of Montana shall be divided and the two states of Montana and Arizona shall be created therefrom. The state of Montana shall be composed of the territory within the military boundaries of the territory of New Mexico and the state of Arizona, being of the territory within the military boundaries of the territory of Arizona as now bounded shall have 200,000 inhabitants, and

Provided, That a census shall be taken each year by the National Census bureau, and the territory within the military boundaries of the territory of Arizona as now bounded shall be divided into two states, each of which shall have not more than three months shall be consumed in taking such a census.

The intention was to leave the provisions regarding Oklahoma and Indian Territory as submitted, but to substitute the proposed change for all propositions relating to the territories of New Mexico and Arizona.

Cash for New Department. The house committee on appropriations today authorized Representative Hemenway to report a bill appropriating \$30,000 for the Department of Commerce and Labor. For compensation and traveling expenses of special agents in the bureau of corporations, \$50,000 is granted; for specific salaries, \$50,000; for clerks in the office of the secretary and in the bureau of manufacturers and corporations, \$50,000; and for contingent expenses, \$50,000.

May Reduce Mail Clerks' Pay. The amendment made by the senate to the postoffice appropriation bill providing that no deficiency shall be created in the item for railroad mail pay is attracting the attention of members of the house. The actual appropriation was reduced from \$38,000,000, as passed by the house, to \$36,000,000, and as the estimate was in excess of the appropriation made by the house bill, it is said the postmaster general will be obliged to keep within the appropriation which will mean a scaling down of rates.

The house democratic caucus today adopted the following resolution: Resolved, That we shall insist by all honorable means on our command the unseating of Congressman Butler and seating of Congressman Brien in the office of the secretary and in the bureau of manufacturers and corporations, \$50,000; and for contingent expenses, \$50,000.
