Every bottle of Chamberlain's Cough Remedy is guaranteed, and the dealer from whom it is purchased will refund the money to anyone who is not satisfied after using it.

The many remarkable cures of colds and grip effected by this preparation have made it famous over a large part of the civilized world. It can always be depended upon and is pleasant to take. It not only cures colds and grip, but counteracts any tendency towards pneumonia.

This remedy is also a certain cure for croup, and has never been known to fail. When given as soon as the child becomes hoarse, or even after the croupy cough appears, it will prevent the attack.

Whooping cough is not dangerous when the cough is kept loose and expectoration free by the use of this remedy.

It contains no opium or other harmful substance, and it may be given as confidently to a baby as to an adult.

## SENATE SITS ALL NIGHT

Passes Many Minor Measures and Debates Aldrich Finance Bill.

MEMBERS SEEM TO TALK AGAINST TIME

Democrats Declare Object is to Rail-Road Administration Proposal Through Lower House and Prolong Discussion.

WASHINGTON, March 2.—The senate today passed the general deficiency bill, after four hours' consideration and after it had been amended in several particulars.

An amendment by Mr. Rawlins appropriating \$5,000,000 in aid of irrigation work, turning it over to the irrigation department, Mr. Rawlins contended that the surplus in the treasury could be better used in this manner than by turning it into the National banks. The amendment was rejected on a point of order.

When the Aldrich financial bill was taken up, Mr. Teller continued his remarks begun on Saturday. He was followed by Mr. Carmack, who replied to some criticisms of his recent speech on the Philippines. During the course of the day the conference report on the appropriation bill and the Alaskan homestead bill were agreed to.

The immigration and omnibus public buildings bills were sent to conference.

Mr. Morgan got the floor soon after the night session began and held it for nearly two hours.

The conference report on the postoffice and agricultural appropriation bills were agreed to and the deficiency bill sent to conference. At midnight the senate adjourned.

## DRY LEGISLATURE IN FUTURE

The conference report on the fortifications appropriation bill was agreed to.

The general deficiency bill being called up, Mr. Tillman criticized the appropriation of \$100,000 for printing for the Department of Commerce and Labor, saying it was out of all proportion. He likewise criticized the appropriation of \$30,000 for special southern work, which Mr. Tillman said was a waste of money.

Mr. Hale explained that Secretary Cortelyou had said that his department at the outset would need more printing than when it was properly organized.

Regarding special agents, Mr. Hale said that additional provisions had been made elsewhere for their compensation and expenses.

The committee did not want to be nig-gardly with the department, which was largely in the public mind and had important and serious duties to perform.

The house amendments to the immigration bill were disagreed to and Messrs. Penrose, Fairbanks, Lodge, Clay and Mc-Laurin (Miss) were appointed conferees.

The amendment prohibiting the sale of intoxicating liquors in the capitol was retained.

Mr. Rawlins offered an amendment to the deficiency bill appropriating \$50,000,000 as an additional appropriation for irrigation purposes.

Regarding such a little matter, "I will have to make a point of order against it."

The amendment was ruled out.

Mr. Rawlins said the discussion of the Aldrich financial bill had disclosed \$400,000,000 locked up in the treasury. Some of this, he thought, should be used in the construction of irrigation works, which would benefit all the people.

"Why don't you make it \$500,000,000?" asked Spooner, while Mr. Allison remarked that he thought the \$10,000,000 now on hand for irrigation purposes was sufficient for the fiscal year.

Mr. Rawlins concluded by asking Mr. Hale to withdraw his point of order, but Mr. Hale declined.

An amendment offered by Mr. Mc-Laurin (Miss), appropriating \$1,200 to reimburse the people of Indiana, Miss., for moneys expended by them for carrying the mails to and from Heathman and Indiana, was ruled out on a point of order.

The bill then passed, and consideration of the Aldrich financial bill was resumed.

Mr. Quay next asked consent for a vote on the steeplechase bill at 10 o'clock.

"Is this a farewell request on this subject?" inquired Mr. Spooner, amid laughter.

Mr. Beveridge objected.

## WILL HAVE SUGAR TRUST

Mr. Teller said it was beyond the ken of man to regulate the sugar market, and that the country will always have just what it needs. The senate was about to ratify the canal treaty, involving an expenditure of \$10,000,000 to \$20,000,000 next year, and it also was proposed to ratify another treaty he did not favor, but which would cost the government \$5,000,000 a year, and later as high as \$10,000,000, owing to the increased production of sugar in Cuba.

"There is only one country in the world," said he, "that can produce sugar as cheap as Cuba, and that is the United States."

Proceeding, he spoke in opposition generally to the Cuban reciprocity treaty, and referring to the question of labor, said he was as much in favor of protecting American labor and capital against the labor of Cuba as he was in favor of the principle of decent reciprocity in the treaty. It was a question whether the American people were prepared to give a bounty to people who were competing with the thousands of American farmers who were raising beets.

Mr. Carmack had read a public statement characterizing some remarks of his regarding the army as "strenuous." He said it was a pointed illustration of the deliberate policy of misstatement, misrepresentation and suppression of the truth on the part of newspaper advocates of imperialism.

He had not made any statement on his own authority, but had given the purport of an official paper.

He reiterated his former statements that prisoners of war had been murdered in the Philippines and said they had gone unanswered.

Mr. Aldrich asked that the amendments to his bill be reported to the senate. Mr. Dubois made the point of no quorum.

The senate then rose for dinner.

Immediately on convening at 8 Mr. Dubois moved the adjournment. The motion was lost.

A house bill providing for a delegate to the house of representatives from Puerto Rico was brought up and a substitute offered by Mr. Foraker.

On objection by Mr. Tillman the bill went over until tomorrow.

The senate bill authorizing the secretary of war to locate and grant rights-of-way through Vancouver barracks and military reservation in Washington to the Portland, Vancouver & Yakima Railway company was passed.

The conference report on the agricultural appropriation bill was agreed to.

**Hopes to Pass Bill.**

The Aldrich financial bill was then again up.

Mr. Mc-Laurin wanted another bill passed, whereupon Mr. Aldrich remarked that it was a senate bill it could not possibly become law.

"Is not this bill we are considering a senate bill?" inquired Mr. Mc-Laurin.

"Yes," said Mr. Aldrich, "and I hope it will become a law."

This brought Mr. Morgan to his feet.

"There is evidently an arrangement," he

Monthly Returns of Nation's Finances Prove Most Satisfactory.

WEATHER AFFECTS CROP CONDITIONS

Snow Protects Winter Wheat Belt, but Excessive Rains and Low Temperature Hints Southern Agricultural Progress.

WASHINGTON, March 2.—The monthly comparative statement of government receipts and expenditures shows the total receipts for February to have been \$43,028,179, and the expenditures \$37,750,740, leaving a surplus for the month of \$5,277,439 against \$1,900,442 for February, 1902.

The receipts from the several sources are as follows: Customs, \$21,179,551; increase, \$985,000; Internal revenue, \$18,016,068; decrease, \$2,440,000; Miscellaneous, \$3,832,551; increase, \$3,350,000.

The expenditures on account of the War department shows a decrease of nearly \$2,000,000. On account of the Navy department there is an increase of \$107,000.

The circulation based on United States bonds was \$338,660,281, an increase for the year of \$10,000,000. Decreases, \$150,000,000; and increases, \$10,000,000. The amount of United States bonds on deposit to secure deposits, including the month of \$17,799,578. The circulation secured by lawful money amounted to \$44,138,484, an increase for the year of \$5,778,541 and for the month of \$752,577.

The amount of United States bonds on deposit to secure deposits, including the month of \$17,799,578. The circulation secured by lawful money amounted to \$44,138,484, an increase for the year of \$5,778,541 and for the month of \$752,577.

The monthly statement of the public debt shows that at the close of business on February 28 the debt, less cash in the treasury, amounted to \$97,972,895, which is a decrease, as compared with January 31, of \$5,969,665.

The debt is recapitulated as follows: Interest-bearing debt, \$91,841,420; debt on which interest has ceased since maturity, \$1,230,510; debt bearing no interest, \$996,744,438; total, \$1,312,815,268.

This amount, however, does not include \$2,720,000 in certificates and treasury notes outstanding, which are offset by an equal amount of cash on hand held for redemption.

The cash in the treasury is classified as follows: Gold reserve, \$150,000,000; trust funds, \$884,728,000; general fund, \$158,799,481; national bank deposits, \$150,562,651; total, \$1,344,027,360, against which there are demand liabilities outstanding amounting to \$669,533,896, which leaves a cash balance on hand of \$374,543,470.

**Winter Wheat Does Well.**

The weather bureau's general summary of crop conditions for February is as follows:

"An excessive precipitation and low average temperature in the southern states the month has not been favorable in farming sections, but with light precipitation and only slightly deficient temperature the Ohio and Mississippi valleys experienced excellent conditions. In California the first part of the month was abnormally cold, but the latter part was more favorable.

Winter wheat was well protected with snow covering during the severe weather from the 15th to the 19th, and the reports at the close of the month indicate that the crop is in most satisfactory condition. In portions of Missouri, Illinois, Indiana and Kentucky, however, the cold weather has caused some injury from alternate freezing and thawing, while the lowlands have suffered from a recent frost from overflows in the lower Ohio valley.

## FILIBUSTER WEARIES ALL

Members and Clerks Allike Feel Strain of Constant Roll Calls in House.

WASHINGTON, March 2.—From 11 this morning until nearly midnight the house struggled against the democratic filibuster, working steadily to wind up the necessary business of the day.

Despite another special rule adopted early in the day, legislation proceeded at a snail's pace. Roll call followed roll call on every proposition. The voices of the reading clerks were worn out by the constant calling of the roll. The members also from committees have been drafted to help out.

Since Thursday, when the filibuster was inaugurated, there have been over sixty roll calls, as against fifty-seven for the entire long session, lasting from December 30, 1901, to July 12, 1902. The members also are sticking to their posts.

Tonight the great hall presented a disheveled appearance. The floor was strewn with bits of paper, looking as if a snow-storm had swept through the chamber. The galleries among the spectators were many weary watchers, interested in bills doomed to failure, but still hoping on to the end.

The proceedings were continued several times as the leaders of the respective sides crossed swords. Their language was not frequently the sparks flew.

The conference report on the Alaskan homestead bill and the immigration bill were adopted, the omnibus public buildings bill and the general deficiency appropriation bill were sent to conference. Some of the bills to prohibit tobacco dealers from giving gifts, the bill to provide for a delegate from Porto Rico, a bill to advance Major W. C. Gorgas to the rank of assistant surgeon general, and the bill to appoint Lieutenant A. B. Hoopfer were passed.

The house also adopted the conference reports on the postoffice and agricultural bills and shortly before midnight, at the end of a continuous session of almost thirteen hours, took a recess until 11 tomorrow.

## NO GREASE OR DANGEROUS DRUGS

In "Herpicide" the New Scientific and Successful Dandruff Treatment.

Have you dandruff? Then you have a contagious parasitic disease, unpleasant, unhealthy and one that will eventually lead to baldness. To cure it you must destroy the parasite that eats at the root of the hair.

The only preparation for destroying these germs is "Herpicide." Herpicide, Charles Klein of Laramie, Wyo., says: "Herpicide allayed the itching, cured the dandruff and stopped my hair's falling out, and it is bringing a new crop of hair."

Herpicide is free from grease or dangerous drugs, and makes hair glossy and soft. One bottle will convince you of its merits.

## TWO HUNDRED ARE IN PERIL

Mail Boat Loaded with Passengers Drifting Helplessly on English Channel.

LONDON, March 2.—Terrific seas are running in the English channel. The waves are sweeping the sea fronts of the south coast towns and doing much damage to the piers and adjacent roads. Several fatalities have resulted from the collapse of various structures.

The Dover-Calais mail boat De Palais, with 200 passengers on board, is reported from Dover to be drifting helplessly before the gale. A large bark, believed to belong to Hamburg, has foundered off Land's End. Its crew, numbering about twenty men, are supposed to have been drowned.

De Palais later succeeded in effecting repairs and entered Dover harbor. The gale is moderating.

## PEOPLE GREATLY PLEASED

First Peaceful Transfer of Presidency in Salvador Occurs in Fifty Years.

PANAMA, March 2.—A dispatch from San Salvador, received here today, says that General Regalado yesterday handed over the presidency to General Pedro Jose Escalon, who was declared elected February 19.

This was the first peaceful transfer of the presidency in fifty years and has caused great rejoicing throughout Salvador.

**Sultan's Troops Are Defeated.**

MADRID, March 2.—A dispatch to the Imparcial from Ceuta, Morocco, reiterates the report that the sultan's troops have been defeated and that Mr. Minister Morillas has been killed. The message does not indicate the date of the engagement or the place where the battle occurred.

It was announced in a dispatch from Madrid, February 29, that a telegram had been received from Tangier saying it was persistently reported at the latter place that Mr. Minister Menabdi had been killed in battle February 23.

## BARS SHEEP FROM RANGE

Federal Judge Upholds Injunction Restraining Shepherds from Grazing Flocks.

SAN FRANCISCO, March 2.—In the United States circuit court of appeals Judge Hawley today sustained the injunction restraining sheep owners from grazing their flocks on the Stanislaus reserve, which includes the Yosemite National park.

The injunction was held to be entirely constitutional and just under existing federal statutes.

## FOUR DUNDEE BOYS IN TROUBLE

Caught in New School Building by Posses of Citizens and Officer Baldwin.

In Dundee they are building a school house and in the county jail are Grant Henyon, Roy Stotzel, Edwin Hart and George Perry, but there last night by Special Officer Dan Baldwin. It seems that for the last few days some vandals have entered the new house every night and destroyed the work done by the carpenters during the day. So the citizens of Dundee decided to catch the miscreants and last evening surrounded the house. They heard a noise inside and demanded that whoever was within should come out. But they did not and locked the door and climbed to the roof, where the citizens were unable to reach them. They then telephoned for the police and Officer Dan Baldwin. He got his revolver and a ladder and ordered the boys down. They came. Two of them were sons of members of the crowd, but were arrested nevertheless.

## SIX MONTHS OF BRANDEIS BANK

Over Two Hundred Thousand Dollars of Deposits Are Accumulated in Half a Year.

A statement covering the first six months of their new banking business has been issued by J. L. Brandeis & Sons, Bankers, showing resources at the end of the first half year, February 28, 1903, to be more than a quarter of a million dollars, or to be more exact, \$253,719.55. Aside from the paid-in capital of \$50,000 and undivided profits of \$2,557.43, this is all balanced by the deposits, which foot up \$200,702.52. That such a showing could be made in six months is natural, gratifying, to the promoters of the enterprise. The statement further shows that the money entrusted to their care except the cash items, amounting to \$114,755.40, is all invested right here in Omaha, \$25,000 being put into Omaha city bonds and almost as much into city and school warrants.

**More Counterfeit Money.**

A special effort is being made by the secret service to discover the headquarters of the counterfeiters who are making spurious half dollars and quarters. ## MOVE TO EXTIRPATE BRYAN

Sound Money Democrats Propose to End the Silver Champion.

REORGANIZERS PLAN THEIR CAMPAIGN

Propose to Crush Their Adversary in His Own State and Annihilate Him as a Political Factor.

BROOKLYN, N. Y., March 1.—The Brooklyn Eagle this afternoon prints a long article under the heading, "Bryan to Be Thrown Out by Sound Money Men," in which it gives the details of a campaign that has been organized to crush the Nebraska candidate. The Eagle says:

William J. Bryan's defiance to the east, expressed in interviews and speeches while he was touring New York, New Jersey and Maryland last week, is to be met in warfare by the "reorganizers," a new political party. Those Democrats who oppose Bryan's policy of free silver, and who are in sympathy with Bryan's expunged are about to carry to the south and west. One of the principal objects of the reorganization will be the state of Nebraska, where Mr. Bryan still retains, nominally at least, the control of the machinery of the party.

It is proposed to crush Mr. Bryan's influence in his own state and to prevent his return to the national stage. Those Democrats who are in sympathy with Bryan's expunged are about to carry to the south and west.
