YOU CAN INTEREST HIM. Any Man Over Fifty.

You can interest any man over fifty years of age in anything that will make him feel in the state claiming to heal everything better, because while he may not as yet have any positive organic disease, he no longer feels the buoyancy and vigor of twenty-five nor the freedom from aches entitled to practice. He was released on he very naturally examines with interest any proposition looking to the improvement and preservation of his health.

He will notice among other things that the stomach of fifty is a very different one from the stomach he possessed at twentyfive. That greatest care must be exercised as to what is eaten and how much of it and even with the best of care there will be increasing digestive weakness with adcancing years.

A proposition to perfect or improve the digestion and assimilation of food is one which interests not only every man of fifty, but every man, woman and child of any age, because the whole secret of good health, good blood, strong nerves, is to have a stomach which will promptly and thoroughly digest wholesome food, because blood, nerves, brain tissue and every other constituent of the body is entirely the product of digestion, and no medicine or "health" food can possibly create pure blood or restore shaky nerves when a weak stomach is replenishing the dally wear and tear of the body from a mass of formenting half digested food. No, the stomach itself wants help, and in no roundabout way, either; it wants direct,

unmistakable assistance, such as is given by Stuart's Dyspepsia Tablets after each These tablets cure stomach trouble because their use give the stomach a chance to rest and recuperate; one of Stuart's

ordinary food, such as bread, meats, eggs. The plan of dieting is simply another name for staryation, and the use of prepared foods and new-fangled breakfast foods simply makes matters worse, as any dyspeptic who has tried them knows.

As Dr. Bennett says, the only reason can imagine why Stuart's Dyspepsia Tab lets are not universally used by everybody who is troubled in any way with poor digestion is because many people seem to think that because a medicine is advertised or is sold in drug stores or is protected bound over to the district court today in by a trade mark must be a humbug. the sum of \$500 for an assault committed whereas, as a matter of truth, any drug-Saturday night, when they undertook to gist who is observant knows that Stuart's clean out the Peterson restaurant, and Dyspepsia Tablets have cured more people were badly used up. CRUSHES OUT
THE LIFE The most loathsome and repulsive of all living

things is the serpent, and the vilest and most degrading of all human diseases is Contagious Blood Poison. The serpent sinks its fangs into the flesh and almost instantly the poison passes through the entire body. Contagious Blood Poison, beginning with a little ulcer, soon contaminates every drop of blood and spreads throughout the whole system. Painful swellings appear in the groins, a red rash and copper colored splotches break out on the body, the mouth and throat become ulcerated, and the hair and eye brows fall out; but these symptoms are mild compared to the wretchedness and suffering that come in the latter stages of the disease when it attacks the bones and more vital parts of the body. It is then that Contagious Blood Poison is seen in all its hideousness. The deep eating abscesses and sickening ulcers and tumors show the whole system is corrupted and poisoned, and unless relief comes soon this serpent disease tightens its coils and crushes out the life. The only antidote for the awful virus is S. S. S. It cures permanently the most desperate cases. It is

nature's remedy, composed entirely of vegetable ingredients. S. S. S. destroys every vestige of the poison and removes all danger of transmitting the awful taint to others. Nothing else will do this. Strong mineral remedies, like mercury and potash, dry up the sores and drive in the disease, but do not cure permanently.
