

GOLD SEAL
America's Most Popular
CHAMPAGNE
"SPECIAL DRY."
"BRUT."
50% INCREASE
in the sale of Gold Seal for 1902. Gold Seal is sold all over the world. Its popularity is proof of its quality, bouquet and flavor. Why pay twice as much for foreign labels? "GOLD SEAL" is sold everywhere and served at all leading clubs and cafes.
URBANA WINE CO., URBANA, N. Y., SOLE MAKER.

AFFAIRS AT SOUTH OMAHA

Annual Work of Constructing Carnegie Library Will Soon Commence.

MATERIAL ON GROUND AND STAKES SET

Library Board Lets Contract and Does All Things Necessary to Start the Building with Good Weather.

A public library for South Omaha seems now to be assured. On Monday afternoon City Engineer Seal staked out the grounds at Twenty-third and M streets. As soon as the stakes were driven the Library board let the contract for grading to Sam Hunter. Only about 100 yards of dirt will have to be moved in order to place the foundations properly. The dirt taken from the library grounds will be hauled to a depression on Twenty-third street between L and K streets, where it will be dumped. Just as soon as the weather will permit the grading will commence. And as this is only the work of a few days it will not be long before the masons can commence laying the foundation walls. Already Contractor Weise has brick on the ground, besides heavy timber. All that is wanted now is good weather to push the work forward. Some of the members of the Library board hope to see the structure completed before the close of the year. When the grading is completed and more material arrives another draft will be made on Mr. Carnegie for \$5,000. Then when the stone arrives there will be another draft. All of the stone for the building will be cut in Omaha and sent to South Omaha on wagons. This is done to save handling and to save the expense of installing a stone cutting and sawing plant on the grounds, which would take up a large portion of the lot secured for the erection of the structure.

Improvement Club Meeting.
A meeting of the Southeast Improvement club will be held at Thirteenth and Polk streets on Thursday night. President Kennedy of the club said last night that one of the features of the meeting would be a request on the city council for water. "What we want," said Mr. Kennedy, "is water. We are a little too far away to go to the river and dip up a bucketful and lug it home. As those who have the use of city water, we would like to see the mains extended so as to not only supply houses with water for domestic use, but also hydrants for protection in case of fire." Every member of the club is urged to attend this meeting.

Grading Again Delayed.
Dan Hanson, who has the contract for grading a couple of streets in the eastern portion of the city, was all ready to commence work yesterday, but he found that the surface was so soft and sticky that his machines would not work. Since the recent warm weather the frost has loosened to the depth of about eight inches, but it is still two feet deep. In case a warm dry spell for a couple of days would set in, grading operations all over the city would commence. When Hanson starts to work he will commence on Seventeenth street and grade from M street to Missouri avenue.

Petty Thieves.
A number of petty thieves have been reported in the north portion of the city within the last few days. The petty purloiners seem to take delight in stealing from physicians' baggies found standing at night in front of the South Omaha hospital. Anything loose is taken and the doctors now answering night calls feel that they need to have a driver for the purpose of protecting their property. This petty thievery is not confined to the hospital grounds alone, but extends all over the northern portion of the city. Only one patrolman is on duty at night in this district and it is impossible for him to cover the beat in less than one hour. More policemen are needed, but as there is no money the people will doubtless have to grin and bear it and when articles are stolen have the satisfaction of reporting the matter to police headquarters.

More Stone Coming.
It is understood that the city officials have ordered a couple of cars of rock to be sent here from Weeping Water. This rock will be located at a convenient point and will be broken by granite and others sentenced to short jail terms. The plan of having granite break rock has worked well in the past and it is understood that a city rock pile is to be established as soon as the weather will permit. As for the placing of prisoners to work on the streets, it is not favored here and will not be countenanced by the authorities.

Fireman Overcome by Smoke.
Captain Jerry Sullivan has an unpleasant experience under a grocery.
During a fire yesterday evening at Sixteenth and Webster streets, Captain Jerry Sullivan of Hose company No. 1, from the engine house at Fourteenth and Harvard streets, was overcome by smoke. He was carried out by his companions and taken to the drug store across the street, where he was revived after ten minutes' work. It was the intention to send the captain to the hospital, but his first words on regaining consciousness were a demand to be allowed to go back to the house with his company. The fire started in the front end of the basement of the grocery store of C. Hansen and its cause is unknown. This basement was closely packed with empty tin cans and other boxes and with canned goods. The brown paper, straw and other material made a dense and stifling smoke, which made the firemen's work unusually difficult. The building, which is the property of George Hansen, was little injured. Mr. Hansen cannot tell what his loss will be until he has made a thorough examination. The street cars were blocked for an hour, beginning at 6:30 o'clock.

Forecast of the Weather.
Fair today and warmer tomorrow and warmer round about Omaha.

WASHINGTON, March 10.—Forecast:
Nebraska and South Dakota—Fair Wednesday, warmer in east portion; Thursday fair.
Iowa—Fair Wednesday, warmer in west portion; Thursday fair.
Illinois—Fair Wednesday; Thursday fair, with warmer in north portion; variable winds, becoming fresh southwest.
Montana—Rain and colder Wednesday; Thursday fair.
North Dakota—Rain or snow, colder Wednesday; Thursday fair.
Colorado and Wyoming—Fair and colder Wednesday and Thursday.

OFFICE OF THE WEATHER BUREAU.

CITY COUNCIL PROCEEDINGS

Lights Ordered in Spite of Lack of Fund Wherewith to Pay.

MAYOR'S VETO GIVEN SHORT SHRIFT

Unanimous Vote Overrides Refusal to Sanction Electric Lights and Here Gas Lights Are Also Called For.

Nine councilmen voted unanimously last night to override the mayor's veto to the resolution ordering fifty additional arc lamps in the streets at an annual cost of \$4,725. Undisturbed by the facts set forth in the veto communication, they unanimously voted for another resolution introduced by Councilman Hascall calling for 147 new gas lamps at an annual cost of \$4,410. Councilman Hascall remarked that the size of the levy had nothing to do with the light question, and Loebck said that a light in the street is as good as a policeman. In vetoing the electric light resolution, Mayor Moore said:

I return herewith, without my approval, document No. 478, passed by your honorable body at your last regular meeting, March 2, 1903.

This document is a resolution authorizing the electric light company to locate fifty additional arc lights upon the streets of the city. When the recent extremely low levy of \$3.00 was approved by the ordinance, although I knew that the most rigid economy would be necessary in order to make the year's expenditures come within the income, I felt, however, that there was a strong necessity for a low levy and I did not feel justified in opposing the judgment of the council as to the amount necessary to run the city for the year 1903.

The levy is made and we must start in at once to conserve expenditures or we will face a large deficit at the end of the year. When resolution No. 478 was passed, I would certainly be sure that the city comptroller the following estimate of receipts and disbursements upon the basis of the number of lights remaining the same during the year 1903 as are now being lighted by the various companies. The comptroller's statement is as follows:

RECEIPTS FOR 1903.

Balance from 1902	\$ 1,212.12
Estimate 25 per cent of 1902 levy	1,407.00
Royalty from electric light company	5,633.30
Estimated royalty from electric light company, 1903	5,600.00
Estimated interest on warrants	1,000.00
Gas company for 1903	14,000.00
Total estimated receipts	27,852.42

DISBURSEMENTS FOR 1903.

446 electric lights at \$24.50 per year	\$11,027.00
1,000 gas lamps at \$1.50 per year	1,500.00
400 gas lamps at \$1.50 per year	600.00
Estimated interest on warrants	1,000.00
Estimated electric light bill for December, 1902	2,482.42
Total estimated disbursements for 1903	15,609.42

Estimated shortage \$12,243.00. You will notice that the comptroller's estimate is on the basis of the amount produced by the tax levy, exclusive of the taxes on the railroad which are tied up by litigation. It would certainly be unwise for us to put in fifty additional electric lights and an extra \$10,000 on the report being rendered ultimately by the United States court. It is possible a favorable decision being rendered ultimately by the United States court, the city will have a deficit at the end of the year of \$12,243.00. Of course, at the end of the year the United States court may decide in favor of the city, but the chances are not strong enough to warrant on plunging the city into an additional indebtedness which will create an overlap in the fund of over \$12,000.

I am heartily in favor of increasing the number of arc street lights and would gladly approve this resolution, but I cannot do so in the face of the estimate of the city comptroller and therefore I veto this resolution.

Plunge into Personalities.
President Karr, as chairman of the committee on fire, water and police, to which was referred the communication of Mayor Moore in January regarding the steps to be taken to acquire the water works, submitted a report recommending that the report be placed on file, as the legislature and the council have since taken steps toward municipal ownership. The report was many caustic references to the mayor in his position on the municipal ownership of the water works plant, and he was declared to have "run a race with the legislature." In the debate that followed much politics and many personalities were bandied about.

Councilman Zimman said he did not think President Karr was sincere in the declaration that he was in favor of municipal ownership of the works always, and further that the communication from the Sixth had never told the truth since he entered the council with Zimman three years ago. Hascall defended President Karr, who had relinquished the gavel in Vice President Mount before the report was submitted. After the talk was finished Loebck moved that the report be recommitted, but Chairman Mount declared it had not been adopted.

Strip of Needed Ground.
A proposition was submitted by W. H. Green, an agent, for the city to purchase for the amount of city and county taxes due, a strip of ground forty feet wide by 700 feet long, which was formerly occupied by the Harris & Fisher packing plant. City Engineer Rosewater stated that the land is needed to provide an approach from Walnut street to the subway that the Union Pacific is to construct under its tracks at the continuation of Hancock street about Thirty-third. Councilman Hascall said he thought arrangements could be made with the county to have the delinquent taxes waived. Those of the city alone amount to \$7,327. The matter was referred to the committee on finances and claims.

Bonds of the Water Sign Company.
Mary E. Malvill protesting the city in the sum of \$2,000 for possible damages resulting from the signs and bill boards of the concern were received and approved.

Streets to Be Beautified.
President Karr introduced a resolution that carried directing the Board of Public Works to prepare plans for the improvement of the following streets by adding

LIGHT FOR THE SICK
From the Land of the Midnight Sun

Free Bottle of Ozomulsion, the Only Ozonized and Vitalized Emulsion of Cod Liver Oil, Sent by Mail on Request to All Readers of The Omaha Bee.

OZOMULSION

The Food That Does Good

I doubt if it ever came home to you that the great Cod fisheries of the Coast of Norway some millions of regenerated consumptives, scrofulic, impure blood patients, and weak people generally, owe a prayer of everlasting thanks.

Equally interesting is it to know that all the medicinal cod liver oil of any value used in the world is made from the annual catch of cod at the Lofoten Islands.

It is from the drippings of the fresh livers of these codfish that Ozomulsion, the new fish-forming medicinal food, is prepared and afterwards impregnated and vitalized with Gaseous, Glycerine and the Hypophosphites of Lime and Soda.

The wonderful food that Ozomulsion is now and has for years been doing to all poor, weak, improperly nourished, microbe-eaten, blood poisoned sufferers is a matter of universal knowledge.

There are medicines which will cure the sick—that is, put a stop to the outward symptoms which we have come to call by the names of various diseases. But there is one great sickness of the human race whose symptoms are so changeable and countless that it has never been pinned down and classified by our professors of medical science.

Its name is simply WEAKNESS. For that disease is Ozomulsion.

Whether you were born weak or have been brought to it by the attacks of disease, matters not. Ozomulsion cures.

It destroys all microbes which infect the blood and thus puts a stop to disease. It builds the body and thereby makes you strong.

Thin, pale, bloodless, anemic, with listless lack of ambition, become new persons after a diet of Ozomulsion.

Consumptive lung sufferers with hectic flush and hacking cough, headaches, lack of appetite, wasting away in spite of all possible care, regain appetite, strength, flesh and vitality upon a course of Ozomulsion.

Pimples, red-faced, blood poisoned scrofularities, afraid to look their friends in the face, with unhealthy skin and God knows what hidden corruption in their blood, regain the fresh complexion of youth and drive out the conditions that are eating away their constitutions, by persistently treating their complaints with Ozomulsion.

Reader, if any of the above symptoms apply to you, mark them well. They are but a few of the many which we could quote.

But the main thing to remember is that when you are weak and low, OZOMULSION WILL MAKE YOU STRONG.

To get Ozomulsion ask your druggist. He has it or will get it for you.

FREE TRIAL BOTTLE BY MAIL. We will send free to all readers of this paper a FREE trial bottle of Ozomulsion, so that all may test its wonderful virtues. Write, giving your name and full address, and the free bottle will at once be mailed you.

Ozomulsion Co., 32 De Peyster St., New York
SPECIAL NOTICE—Physicians use, recommend and prescribe Ozomulsion in the large original sixteen-ounce bottles, and all druggists sell it.

SPECIAL DISEASES OF MEN

I Do Not Treat All Diseases but Cure All I Treat

I TREAT MEN ONLY AND CURE THEM TO STAY CURED

originated after my whole life's experience. I will give you a thorough examination together with an honest and scientific opinion of your case. If I find you are curable, I will honestly tell you so. If I find your case curable, I will give you a legal guarantee to cure you.

We make no misleading statements or unbusinesslike propositions to the afflicted in order to secure their patronage. The many years of our successful practice prove that our special treatment is safe and certain.

We will make you no false promises as to curing your case in the short time, knowing it will take longer, as we promise nothing but what we can do, and always do as we promise.

VARICOCELE
is the enlargement of the veins of the scrotum and a condition that maddeningly suffers from more than all other conditions combined, and is the direct cause of nervous prostration and the early loss of mental, physical and vital powers, which in turn cause business failures and unhappiness. My treatment for this condition is perfectly painless. I accomplish a permanent cure without cutting or tying operation or any detention from business. The best reference I can give as to my ability in curing this condition is the names of thousands who have given me the permission of using their names after permanently curing them when others had failed.

RHEUMATISM
in all its forms BY MY SYSTEM OF TREATMENT is permanently cured, irrespective of how many treatments you have tried and failed.

NOCTURNAL LOSSES
that sap the very life from you and later lead to complete loss of all powers, stopped forever in from 3 to 10 days.

DISCHARGES
of an unnatural order stopped forever in 2 to 3 days.

BLADDER
and kidney troubles, the symptoms of which are pain in the back and loins, frequent and scalding urination and thickening of other symptoms that you can appreciate better than I can describe. BY MY SYSTEM OF TREATMENT you are permanently cured.

RUPTURE
of men. I care not how long standing, cured in 10 to 30 days without any cutting operation or pain or loss of time.

STRICTURE
is the partial or complete closure of the canal, and BY MY SYSTEM OF TREATMENT all obstructions are permanently removed without cutting or dilating.

ULCERS
I care not how long standing or of what nature, as MY SYSTEM OF TREATMENT cures them at once.

HYDROCELE
or any swelling, tenderness or impediments reduced to their normal size without the aid of a knife.

ECZEMA
pimples, erysipelas or any eruptive disease of the skin BY MY SYSTEM OF TREATMENT are permanently removed, never to return.

IMPOTENCY
is a condition caused by excesses of early or late life. I care not how long you have been so, or how old you are, as MY SYSTEM OF TREATMENT is especially adapted for the permanent cure of all such cases as yours. Thousands have been cured of this condition, and a cure awaits you. Suffer no longer.

ORGANS
that have shrunk or are undeveloped or that have wasted through disease BY MY SYSTEM OF TREATMENT are permanently restored to their normal size.

WRITE
If you cannot call, all correspondence should be confidential and all replies sent in plain envelopes. Enclose 25 cent stamp to insure reply.
